J. HOWARD PAYNE, county attorney, was last week found frozen to death two miles from Arapahoe, Okl. It is supposed that he lost his way during a blizzard and thus lost his life. He was a relative of the famous author of 'Home, Sweet Home.'

IF THE editor of the Wallace Herald knows of a man who is guilty of a felony his duty as a good citizen is to file an information against him and give Joe Beeler an opportunity to earn the \$1600 salary which the county will have to pay him. THE TRIBUNE knows of no such felon.

FRIDAY General Manager Holdrege of the B. & M., issued an order giving free transportation on seed grain actually donated. He has sent the following instructions to all station agents: 'In order to give further assistance in securing seed grain, this company has decided to haul seed grain free of charge until April 15, from points on the Burlington lines both east and west of Missouri river points in Gosper, Furnas, Frontier, Red Willow, Hayes, Hitchcock, Chase, Dundy, Perkins, Lincoln and Dawson counties south of the Platte river, and Custer, Sherman, Howard, Greeley, Valley, Wheeler, Garfield and Loup counties in Nebraska, and Cheyenne, Rawlins, Decatur, Norton counties in Kansas and Yuma, Logan, Phillips and Washington counties, Colorado, in cases only where the grain is to be given to the farmers without charge. In cases where the grain is to be placed on shares, or where it is to be paid for by the farmers in cash, or otherwise, the existing emergency rates will be collected. The above facts are sent for your information, and with the suggestion that solicitors now in the east should be promptly advised. It may help them to secure large supplies of grain. If there is a local relief commission at your town, notify same at once.' The Rock Island road has been shipping seed grain free for sometime, but the line scarcely touches the drought-stricken district.

There might have been some wild talk about chartering a fast tug and trying to overhaul the fugitive president, but they gave that up as a useless expenditure of funds and funds are liable to get very scarce with the crowd before this long wait for government employment is over. And now those hundred and odd congressmen know just how it is themselves.

In their days of prosperity they have doubtless smiled derisively at the seedy looking constituent who hung about the corridors of the capitol and haunted the ante-rooms of the White-house, hoping against hope while his heart grew sick, but just now the remembrance of that ghostly figure no longer amuses them. The iron has entered their souls in turn, and they begin to realize the heartache of the man who has to leave an office and does not see how he is to get possession, owing to the forgetfulness of his promising friends and the coldness of the average public functionary, whom long experience in standing in the office-seeker has hardened into adamant.—State Journal

Down in old Missouri the state legislature has passed an act, prohibiting barbers from plying their occupation on Sunday. As the average Missourian rarely shaves, this will not work much hardship, upon her citizens. It is the stranger within her gates who will most keenly suffer.

The following is taken from an article read by L. L. Doty before the Finney Co. Farmers' Institute. Among other things Mr. Doty said: To raise cabbage you want a rich piece of ground, or make it rich with well rotted manure well worked into the soil, plow and pulverize it fine, then furrow it out east and west if you can, about three and one half feet apart; plant your plants on the south side of the furrow from two to three and a half feet apart according to variety. When you get a row set out turn water into the furrow and let it run clear through the row; that settles the dirt about the roots, and being on the south bank of the furrow the south wind and hot sun is broken so the plants get a good start and are not whipped about and broken off as when planted on the level. If the weather is dry, about the second day after setting out run the water down the rows again, and as soon as the ground is in good shape to work, take a hoe and pull fine dirt in around the plants to keep the ground from baking around the plants. Keep the ground moist by irrigating at least once a week if the weather is dry and follow it up by cultivation as soon as the ground will do to work. In this way I have raised cabbage that would make from twelve to fifteen tons per acre. This is my plan for raising cabbage, and if any one has a better plan I would be glad to hear of it.

It is alleged that there was great mourning, accompanied with hot indignation, among the cuckoo congressmen elected to stay at home last fall, over the early flight of Grover from Washington on the morning after the adjournment. These patriots stood by the president through thick and thin under an implied agreement that they would be 'taken care of.' They had been put off in their applications for appointments by the president on the plea of great pressure of business and with the understanding that as soon as congress was off his hands the man of destiny would attend to their wants.

So, after breakfast, on the 5th of March, over a hundred of them started promptly for the White house to see Grover before he set out on his fishing trip. It was generally understood that he was going to embark on the government vessel some time in the afternoon and so there must be no delay.

They arrived to find that the bird had flown. Late the night before he had given the order for the ladder to be on hand at the wharf at 8 o'clock sharp in the morning, and as the cuckoos did not suppose he would rise before nine, he had been gone an hour and the 'Violent' had already put to sea carrying Caesar and his fortune and the cuckoo's fortunes also. 'Be back in ten days' was the announcement on the door, but ten days is an age under the peculiar circumstances.

There might have been some wild talk about chartering a fast tug and trying to overhaul the fugitive president, but they gave that up as a useless expenditure of funds and funds are liable to get very scarce with the crowd before this long wait for government employment is over. And now those hundred and odd congressmen know just how it is themselves.

THREE MONTHS TO LIVE

Death Sentence Passed Upon Harry Hayward by Judge Smith.

MAY SECURE A NEW TRIAL

Sole Hope of the Condemned Murderer of Catherine Ging—Two Murder Cases at Minneapolis—Robinson on Trial at Buffalo.

MINNEAPOLIS, March 11.—Harry T. Hayward, convicted of the murder of Catherine Ging, has three months to live. Sentence was passed on him by Judge Smith this morning, after a motion for an arrest of sentence by Mr. Erwin had been denied. Harry came into the courtroom in the same leisurely calm manner that has characterized his demeanor all through the trial, and surveyed the crowd coldly while the handcuffs were being removed. Judge Smith agreed to examine the grounds for a new trial on March 13 and then passed sentence. He said he had no doubt whatever that the verdict was a just and righteous one, and while he did not believe in capital punishment, it was his painful duty to pass sentence in accordance with the law.

"The sentence of this court," he continued, "is that you be taken to the Hennepin county jail and there confined until, after a period of three months, a time be fixed by the governor of this state, you be taken to the place of execution and hanged by the neck until you are dead."

Harry listened calmly and sat down without the slightest show of feeling. Two Murder Cases. Minneapolis has two murder cases. Max Piegert, who was stabbed by Paul Kleinschmidt last Friday night at a birthday party given by her landlady, died this morning. Kleinschmidt is under arrest and will be tried for murder. He pleads self defense.

The second murder occurred in northeast Minneapolis today. As a result of a long series of family quarrels, Nicholas Bodin, a boy of 17, shot his father, Peter Bodin, twice through the head. The boy claims his father attacked him, but circumstantial evidence shows that his father with some blunt instrument and then shot him. After committing the crime he gave himself up.

MR. AND MRS. ROBINSON ON TRIAL

Confessed Murderers of Montgomery Gibbs in Court at Buffalo. BUFFALO, March 11.—The district attorney moved the trial in the superior court today of Clarence and Sadie Robinson, indicted for murder in the first degree for killing Montgomery Gibbs, a young attorney, a year ago. Gibbs was walking alone up a residence street, bordered with mansions brilliant with lights, about 10 o'clock in the evening. Suddenly three pistol shots rang out in quick succession.

CLARENCE ROBINSON, and Gibbs was found lying from a bullet wound in the head, lying in the driveway leading to a fashionable residence. He expired without a word. A reporter found what he thought was the footprint of a woman near the spot. No arrests were made until several months later the Buffalo police received word from the police of Cleveland that they had Clarence Robinson under arrest. Robinson's wife, Sadie, thinking that her husband was to be charged with murder, confessed that she killed Gibbs herself. Robinson, learning that his wife was under arrest for murder, made a clean breast of the matter, telling how he and his wife had gone out to 'hold up' somebody that night, Sadie being attired as a man. Gibbs had resisted, and in the tussle had been shot. There are many people here who believe that the Robinsons are lying and had nothing to do with the affair. The question whether the confessions of the Robinsons will be admitted by the court as evidence against them, or SADIE ROBINSON, how much of it, and curiosity to see the pair and hear what they will say for themselves on the stand filled the courtroom as soon as the doors were opened. The proceedings of getting a jury may take two or three weeks.

Leonard Denied a New Trial. SAN JOSE, March 11.—H. M. Leonard, the Santa Clara bank wrecker, who, together with Cashier C. C. Hayward, now deceased, precipitated the failure of the bank by their 'booms' to themselves, bids fair to go to jail for at least three years, as the supreme court has sustained Judge Reynolds in the denying of a new trial.

Revolt in a Juvenile Reformatory. CHICAGO, March 11.—The girl inmates of the state home for juvenile offenders were again in revolt today. The police were forced to interfere and the inmates were taken to the nearest station. They claim they have been treated so rigorously by the managers of the institution that they could not stand it.

Natural Gas at Salt Lake. SALT LAKE, March 11.—This city is rejoicing over the final arrival of natural gas, which has been piped from the wells 14 miles distant. The completion of the first connection was celebrated by the illuminating of the main streets with flambeaux turned on at high pressure from the mains at Temple block.

Walter Strange Jury Still Out. STOUT CITY, March 11.—The jury in the case against ex-Supervisor Walter Strange, which went out Saturday night, has not agreed, and there is no prospect that it will do so soon.

Elevator Cuts Off a Foot. GRAND ISLAND, Neb., March 11.—The 12-year-old son of James W. Robinson had his left foot cut off in the elevator in Milroy Woodward company's wholesale house.

Coal Elevator Burned. COZAD, Neb., March 11.—The Omaha Elevator company's elevator here burned.

PITTSBURGH COAL STRIKE

Both Sides Are Claiming the Advantage—Meeting of Operators.

PITTSBURGH, March 11.—The strike of the miners of the Pittsburgh district has reached that point where both sides are claiming the advantage. The miners say they now have over 50 men working at the 60-cent rate. The fourth pool operators held a conference, at which they agreed to pay the 60-cent rate, and most of the men returned to work this morning. The remainder will be at their places tomorrow.

The operators of the entire district will meet here this afternoon to discuss the situation and a number of them are authorized for the statement that they will adhere to the 55-cent rate and will make no overtures to the miners. They claim the meeting is merely for the purpose of conferring together and is no sign of weakness on their part, as construed by the employes. Colonel W. P. Bond of Chicago is in the city, and asked if it were true that he had sent a telegram denying that he had granted the increase to his men, he refused to confirm or deny the report. The fact that his men are at work is considered evidence that he is paying the 60-cent rate.

Sheriff Wilhelm of Fayette county sent a posse of deputies to the Stickle Hollow mines of the Washington Coal and Coke company, having heard that the river miners contemplated an attack on the nonunionists who are at work there. No trouble occurred, however.

BLOODSHED AT NEW ORLEANS

Battle Between Whites and Colored Longshoremen Results in Two Fatalities. NEW ORLEANS, March 11.—At 10:30 a. m. a large number of white men appeared on the levee at the head of St. Andrews street and by threats of violence drove off the colored screwmen. The police then came forward and dispersed the whites, firing a number of shots.

Some 30 or 40 shots were fired by the whites and two of the negroes, John Parker and Phillip Fisher, were shot. The wounded men were removed to the hospital in a dying condition.

Rubber Company Resumes

NEW HAVEN, Conn., March 11.—The Candler Rubber company resumed work partially when the millroom started up preparing stock, which will go to the boot and shoe makers today. Only a portion of the plant, with reduced help, is moving. It is stated at the office that work will be continued from now on.

TO RAISE TWO MILLION DOLLARS

Movement For a National Mining and Industrial Exposition at Denver. DENVER, March 11.—Committees started out today to raise \$2,000,000 for the purpose of carrying out effect a national mining and industrial exposition, which it has been decided to hold in Denver in 1896. That the movement has found friends abroad is evident from the attitude the railroads are taking. Secretary Flynn of the local passenger association has received inquiries from almost all the great trunk lines, and there is no question that rates as low as those made to Chicago will be offered. In many instances they will be much lower, as the old fair rates are still in existence between some points. They still continue, between Denver and Chicago, so that any reduction now made would be to cut under the Chicago fair's rates.

It has been decided to put the consuls and vice consuls of all foreign nations stationed in Colorado on the board of general managers.

Whale Killed Off Nahant

BOSTON, March 11.—A whale about 75 feet in length and evidently an old settler was killed off Nahant by a picked crew of experienced men from Nahant. The whale had been reported by several parties during the last few weeks, and on Friday night two fishermen, who were out in their boats, were forced to make a hurried retreat to the shore in order to escape under familiarity on the part of his whalship. The whale is evidently an old one, as he is half covered with seaweed. Deeply imbedded in his back was an ancient harpoon, badly rusted, but with the inscription "Hiram K. Swain, Nantucket, 1833," still legible.

Ex-President Harrison Out of Danger

INDIANAPOLIS, March 11.—The condition of ex-President Harrison is most satisfactory today. He has gained much strength and was able to appear at the breakfast table with the family. Dr. Jameson, General Harrison's physician, says that the patient is now out of danger and he apprehends no serious developments in his pleurodynia trouble. Dr. Jameson thinks that Mr. Harrison will soon be able to resume his business.

Massachusetts Lawmakers in Georgia

ATLANTA, March 11.—A committee from the Massachusetts legislature, composed of two senators and eight representatives, have arrived in Atlanta for the purpose of investigating the industrial situation in the south and inquire into the special inducements held out by the state of Georgia making it more profitable for the New England cotton mills to do business in this section.

NEW YORK, March 11.—The old Forsyth Street Methodist church last night celebrated the 105th anniversary of its founding. It was the second Methodist Episcopal church organized in New York City.

Decided In Favor of the Olympic

NEW ORLEANS, March 11.—In the case of the state vs. the Olympic club it was decided in favor of the club on all points in controversy. Grove contests will therefore be permitted as heretofore.

Bouler Convicted of Manslaughter

CHEYENNE, Wyo., March 11.—The jury in the case of Charles Bouler, charged with murder, brought in a verdict of manslaughter. Bouler is a retired cattleman, who, during the past 10 years, has killed three men. Heretofore he has escaped punishment.

Colonel Conley Convicted

FORT SCOTT, Kan., March 11.—Colonel Conley, a well known young Linn county man, has been convicted at Mount City of murder in the first degree. He killed James Mapes, a companion at a Fourth of July celebration in 1894.

CHARLES F. WORTH IS DEAD

Paris. Fashion Designer Passes Away at Paris.

PARIS, March 11.—Charles F. Worth, the famous fashion designer, died at his home in the Rue de Valenciennes, Paris, at the age of 73. He was appointed to a printer, but abandoned the printing office after he had served about 7 months. He then went to London and through the assistance of a friend secured a position in a draper's dry goods shop, which position he left to enter the employment of Swan & Edgar, drapers, where he became a favorite. He first conceived the idea of designing fashions through conversations with the buyers of Swan & Edgar and frequently made suggestions which the heads of departments were not slow to see in a favorable light. When about 21 years of age he went to Paris and shortly after his arrival in that city, secured a position with Gagelin & Co., and in a few years was placed at the head of a department. In his new capacity he inaugurated many new departures. While in the employ of Gagelin & Co. he received medals for displays at the London and Paris exhibitions. Later he established the firm of Worth & Hoberg, and in 1878 founded the famous house of Worth.

Mentone International Regatta. MENTONE, France, March 11.—Many people came here today from Cannes, Nice and other places in expectation of seeing a race between the Ailsa and the Britannia. To the great disappointment of all the Ailsa did not put in an appearance. She may have to sail to Marseilles for suitable repairs. There were many yachts, including Mr. Ogden Goole's White Lady, assembled in the harbor in order to see the racers start in the Mentone international regatta. The race today is for 1,000 francs, offered by the president of the French republic, M. Felix Faure. The course is 20 miles long. The Britannia won the race for yachts of her class and the Dakota won the race for the smaller yachts.

Many Armenians Reported Killed. LONDON, March 11.—According to a dispatch from Constantinople published in the Standard this morning, unconfirmed rumors were current of fresh disorders at Karahissar in the Vilayet of Sivas, Asiatic Turkey. Additional advices from the same source say that many Armenians have been killed and wounded at Karahissar.

Wrecked in the Gulf of Patras. LONDON, March 11.—The Globe prints a report to the effect that the Russian imperial yacht Carina, which recently left Athens for Corfu with the Russian minister to Greece, M. K. Onon, on board, in order to greet the czarowitz, has been wrecked in the Gulf of Patras. The fate of the minister is not known.

Lord Rosebery in Better. LONDON, March 11.—Lord Rosebery has almost entirely recovered from the attack of influenza which has confined him to his house for nearly two weeks. He went to Windsor today in order to have an audience with the queen. Her majesty starts for Nice on Wednesday night.

Five Taken Out Dead. ALBUQUERQUE, N. M., March 11.—The fire in the Old Abe mine near White Oaks was brought under control. When the eight imprisoned miners were brought to the surface five were dead.

Dugout Caved In. GUTHRIE, O. T., March 11.—Near Woodward a dugout occupied by Charles Thomas and family caved in during last night, crushing Mrs. Thomas to death and fatally injuring her mother.

Caught in a Burning Mine. WENSHIRE, March 11.—A special from Rat Portage to The Free Press says the Sultana mine there is on fire. Twenty miners are at the foot of the shaft and it is feared they are suffocated.

Death of Historian Cantu. MILAN, March 11.—Gesar Cantu, the historian, is dead, aged 91 years.

LATEST NEWS OF TRADE. Chicago Grain and Provisions. CHICAGO, March 11.—Wheat was firm today after an easy opening. The strength came from the higher French country markets and Paris cables, reporting winter wheat damaged by frost and spring seedling backward. New York led in the advance. Commission houses were the buyers, with scampers fighting the advance.

Corn was strong, helped by strong cables, moderate receipts and the firmness in wheat. Oats were dull, but steady, helped by wheat and corn. Provisions were strong, advancing sharply. The market started with a jump on an active and higher market at the yards. Shorts became alarmed and bid prices up considerably.

CLOSING PRICES. WHEAT—March, 25 1/2; May, 26 1/2; July, 27 1/2; September, 28 1/2. CORN—March, 4 1/2; May, 4 3/4; July, 4 1/2; September, 4 1/2.
