### THE REASON WHY.

Jolly Nellie McHenry is the most popular soubrette on the American Tom Tisher, a general traveling stage. She can sing better than most women who dance. She is a better dancer than most women actress, and her versatility is admitted by all critics. She possesses that indescribable magnetism, which makes her audience feel as if she were akin to them, and they are proud of her. She has surrounded herself with one of the strongest companies of singers and out. comedians ever seen in one company, and she gives them all a chance to show what they can do, and in her circo-comedy, "A Night at the Circus," she gives her audience full value for their money by giving them the funniest, cleverest, brightest and greatest show or earth. This remark would have proven that he was in touch with the wideawake spirit of to-day. The gallant war horse so glowingly described by Job, while a thing of beauty, and no doubt well filling his position in the economy of nature, in these fin de siecle times, is no longer considered "in it" with the tireless steed of steel. That good old English poet Pope declared that "man wants but little here below, but wants that little long.' His descendants who are members of the POPE MANU-FACTURING Co. (builders of the Columbia Bicycles) have acted upon this advice, and are to-day constructing a wheel, the users of which declare there is none better made.
