NORTH PLATTE, NEBRASKA, bounded by lines drawn from Omaha to Cheyenne, ence to Denver, from thence to starting point. t is 291 miles from the first named city, 225 miles from the second, and 280 miles from the third. Having a population of 4,000 people it is the head-

quarters of both freight and passenger divisions of the U. P. R'y Co., and is the home of about 500 railway employes whose monthly pay roll amounts to some \$35,000.00. Almost 200 miles of irrigation canals are rapidly nearing completion, which will bring into the highest state of cultivation 150,000 acres of the most productive land upon which the sun's rays shine. The citizenship of North Platte is that of the best afforded by the older states, and her people are active, progressive and prosperous To the industrious, energetic home-seeker from the crowded east North Platte and Lincoln county presents unusual advantages. Thousands of acres those already being brought under irrigation, may be obtained by consulting the United States land office in North Platte. A letter of inquiry to "U. S. Register, North Platte, Neb.," relative to the above will be courteously answered. Irrigated farming is no longer an experiment, but has reached the point where it is acknowledged apre-eminently the safest-in all seasons-method of conducting agricultural and horticultural operations. The salubrious and life-giving climate of Lincoln county, where malaria is unknown and where pulmonary troubles are unthought of, is another incentive to the location therein of those who are anxious to enjoy the good things of this life as long as possible. North Platte churches and schools are above those of eastern communi ties, the latter being one of the few in Nebraska permitting the graduate thereof to enter the State University without an intermediate preparatory training. The people of the community gladly welcome the honest, industrious eastern citizen who is eager to better his condition and assisting in

will start for Nicaragua within two weeks, as it is realized that the time at its disposal is short, when the work to be done is considered. Major Ludlow probably will be the president of the commission by virtue of his brevet rank of colonel. He is now in England on duty as military attache of the American embassy. He will be instructed by cable to take the first steamer for the United States and come to Washington. The commission will organize and outline its plan of operations and then go nation will be made of the designs of the survey and the plans of the canal company with the purpose of saving ceive formal instructions from the secretary of state and proceed to Mobile and sail on the Montgomery for Greytown, at the eastern terminus of the canal. It is believed that with average weather the commission can complete its work at Nicaragua in about two months, and be back in the United States ready to begin the compilation of the report, which must be ready by next November.

ZIEGLER AND WELLS NOT DROWNED. Reported Wreck of the Yacht Crusoe Proves to Be a Mistake.

PALM BEACH, Fla., April 4 .- The first authentic report from the sloop Robinson Crusoe, in which were Messrs. Ziegler and Wells of New York, was brought here by Captain Bradley of the schooner Pearle, from Bay Biscayne. Captain Bradley reports that the mail boat plying between Bay Biscayne and Key West sighted the Crusoe north of Key West. She was running along under single reefed sails and reported "all well on board, bound for Key West," where she is probably now lying at anchor. The report that she was wrecked was started by some spongers who sighted Bahama vessel off Key Largo with mast and shrouds carried away drifting rapidly out to the gulf stream. As the Robinson Crusoe was due about that time they jumped at the conclusion that it was her, and carried the news to Key West that she was wrecked.

Battle With Umra Khan's Troops on the Borders of Chitral.

SPANISH SOLDIERS IN CUBA.

Troops Scattered All Over the Island. What the Autonomists Want-Victory For the Insurgents at Holquin. Oscar Wilde's Libel Suit.

CALCUTTA, April 4 .- A dispatch received here from the Malakand pass, says the operation of the British troops against Umra Khan of Gando, the invader of Chitral, in the pass itself were commenced by the guides, who were sent to clear the hills on the left. The Maxim rapid fire guns were placed to the front whenever they got within range of the enemy, estimated to number 12,000. The latter at first made but a feeble resistance, but when the heart of the pass was reached the action became general. The GordonHighlanders and the Scottish Broders stormed the defenses of the enemy, which were composed of Swat Mullahs and Umra Khan's supporters. The British troops advanced with spirit in spite of the fact that the roadway over the pass was cut away in many places, and that stone breastworks were constructed at various points, which had to be carried at the point of the bayonet. Fifty of the British force were wounded, including three officers severely and four slightly injured. The enemy lost 500 killed and wounded.

CAMPAIGN PLANS OF THE SPANISH. Grand Review at Santiago Before the Hunt

For Insurgents Begins. HAVANA, April 4 .- At daybreak a battalion of Spanish troops marched out from the fortress of Cabana, which lies westward on the hills above Morro castle. They were led to the railway, from which trains travel south across the island to Batabanno. It is at that port that the government troops are being forwarded to the eastern districts of Cuba, and when the battalion en route today shall have reached Santiago de Cuba all the troops newly arrived from Spain will have been mobilized at that point. When all are there there will be a grand review and then the hunt for the insurgents will begin Meanwhile the organization of the troops by commands is being effected.

The Autonomistic party here favors such a relation of Cuba to Spain as is sustained to England by her colonies. Independence is not desired. A meeting of a party was held yesterday to deplore the rebellion and to offer aid to Spain. The same action has been taken by the Antonomists of Puerto Rico. The resolutions embodying these views have been forwarded to Rafael Maria Liberia, the Cuban leader of the party.
