

STATE OF THE CROPS.

Agricultural Department Reports on Conditions Abroad.

NEARLY AN AVERAGE YIELD

Gloomy Prospects in Sweden and Norway. General Tenor of Russian Reports is Unsatisfactory—Average Wheat Crop Expected in Germany.

WASHINGTON, June 17.—The condition of crops in foreign countries is attracting much attention at the present time, and the reports thereon, to be issued by the agricultural department in the next few days, will be quite full. The main reports are as follows:

Great Britain.—The varying conditions of weather have already affected the prospective hay crop, which cannot now be an average owing to the absence of rain. Cereals throughout the country look promising and the prospect is for a very good crop.

France.—The greater part of May has been unusually cold, but considerable rain has fallen and winter growths are in fine condition. Spring sowings are also reported as doing well. Authorities anticipate a wheat crop of from 270,000,000 to 280,000,000 bushels, a falling off from last year, due to reduced acreage.

Germany.—An average wheat crop is now expected, but all reports concur in estimating the rye crop as under the average.

Austria-Hungary.—Notwithstanding sufficient moisture, the prospects for cereal crops are characterized as a bare average, owing to the damage done by the extreme cold antecedent weather.

Romania.—The spring crops have been planted under favorable conditions. Wheat is reported as doing well.

Russia.—The general tenor of reports is unsatisfactory. Spring seeding was accomplished very late in northern and central governments. From the Caucasus, the reports are favorable. Extensive floods are reported from Poland and southwest districts. Drouth and black frost have effected some injury, it is reported, in the Black sea district.

Sweden and Norway.—The reports from these countries are more gloomy than from any other part of Europe, owing to the extreme dryness of the spring. It is generally admitted that both wheat and rye crops will be disappointing. The season is very late and heavy frosts have continued well through the month.

Italy.—The weather has been favorable and a good average crop is expected. Belgium and the Netherlands.—The season is backward, but every indication of good crops.

Spain.—Extremely cold weather for the season has retarded growth, but cereals generally are reported as in an average condition.

Secretary Morton's Recent Bulletin. WASHINGTON, June 17.—Secretary Morton's recent bulletin on the world's markets for American products is attracting much attention abroad, particularly in Great Britain, where leading journals point out that Mr. Morton's warning to the rest of the world should be heeded. The London Times gave a column review to the secretary's showing and addressed the following comment: "The free circulation of this publication amongst the agricultural producers of the United States will undoubtedly have the effect of improving the quality of the American product sent to our markets. It is not impossible that English farmers should know what steps are contemplated by their formidable competitors beyond the Atlantic, the producing and exporting capacity of whom is fostered and stimulated by an energetic and far seeing minister of state."

Secretary Lamont and Party. WASHINGTON, June 17.—Secretary Lamont left this morning on an extended tour of the northwest. With him was Mrs. Lamont, her three children and two servants, Mr. and Mrs. Brant of New York, Quartermaster General Batchelder and Major George B. Davis, military secretary to Secretary Lamont. The party was accommodated in two special Pullman cars. The trip will take the party first to Omaha and then through Wyoming into the Yellowstone national park and other attractive points in the Rocky Mountain country, being planned purely as a pleasure trip.

WASHINGTON, June 17.—The latest reports received by the surgeon general of the marine hospital service report deaths from contagious diseases as follows: Santos, for the week ended May 30, 86 deaths from yellow fever; Constantinople, for the same week, 24 deaths from cholera and 62 from smallpox. A report from Vera Cruz says yellow fever is increasing there. The same report comes from Rio de Janeiro.

CATTLE KILLED BY RABBIT DOGS.

Small County Farmer's Heavy Loss From Hydrophobia.

GRAND ISLAND, Neb., June 17.—In the northwestern part of Adams county in the vicinity of the farm of Fred Ernst hydrophobia in animals has caused a great loss of cattle, injury to man and much anxiety. Two men have been bitten and compelled to go to Wynona, where a madstone was applied, and over forty cattle belonging to Ernst have been shot after showing symptoms of hydrophobia.

In January a cow was bitten by a mad dog. It died and was not buried, being hauled to some out of the way place. The dogs in the neighborhood consumed the carcass. About May 1 it was noticed that other cattle showed symptoms of hydrophobia. Then it was that Ernst's first bovine showed the disease and was shot. Forty head more have since been lost in the same manner.

A war was immediately made on the canine population of that district. Only one dog is left and he will soon join his companions. Three dogs belonging to Ernst were also bitten. One of these had extensive tusks, and Frank Ernst, the son about 24 years of age, was scratched by one of the tusks. As a consequence he was compelled to go to Wynona, where the poison was extracted. Another neighbor did not fare so well. This neighbor, while burying a mad dog which he had shot, allowed some of the dog's saliva to touch a scratch on his hand, and he, too, went to Wynona. He remained there until he was thought to be safe and returned home. He has twice shown symptoms of hydrophobia and serious consequences are feared. Desperate efforts have been adopted to clear the neighborhood of all animals affected.

Lands Returns to Chicago. WASHINGTON, June 17.—Kennesaw M. Landis, private secretary to the late Secretary Gresham, having resigned his position, has returned to Chicago. The employees of the department took leave of Mr. Landis almost in a body and wished him success in the future. Mr. Landis had the opportunity to remain in Washington in the government employ, but decided to resume the practice of law in Chicago where he has previously met with success.

Blue Hill Strikers Convicted. COLORADO SPRINGS, Colo., June 17.—The second trial of Robert J. Lyons of Blue Hill resulted in a verdict of malicious mischief in aiding in blowing up the Strong mine, and fixed the damages at \$4,100. The jury found the defendant guilty of assault with intent to murder Sam McDonald, the foreman of the mine. The penalty for the crime of which Lyons was convicted is one to 10 years imprisonment.

To Ship Paint Ore. RAWLINS, Wyo., June 17.—Ex-Governor Osborne, who is at the head of a mining company owning the paintmine near this city, has contracted with O. C. Wheeler of Chicago to have 2,000 tons of the paint shipped to Salt Lake and Denver every month. The Union Pacific will build a spur to the mines, commencing work on it immediately.

Denver Road Ordered Sold. DENVER, June 17.—In the United States court Judge Hallett signed a decree of foreclosure and order of sale in the case of the Central Trust company of New York, against the Denver City Cable Railway company. The amount of damage is \$5,662,142.07. This step is taken as carrying out the plan of the organization.

The move is the result of the work of the Epworth league, directed from Ottawa by the Ministerial association, of which the Rev. C. A. Bunker is the leader.

Oklahoma Grasshoppers. LITTLE ROCK, Ark., June 17.—Reports from Oklahoma confirm previous statements concerning the grasshoppers, which are sweeping over the territory in such numbers that they are destroying the corn crop, and the farmers are unable to cope with them.

For a Mining Exhibit. CHEYENNE, Wyo., June 17.—An effort is being made by President Johnson of the Wyoming university, Governor Richards and others to make a collection of Wyoming minerals to be exhibited at the international mining exhibition to be held in Denver next year.

NO FAVORS FOR TAYLOR

Defaulter Will Receive Little Mercy From the State.

MUST PAY FULL PENALTY.

South Dakota Will Get Back Every Cent of the Stolen Funds and the Absconder Will Be Prosecuted to the Full Extent.

DEADWOOD, June 17.—In an interview with Governor Sheldon and Treasurer Phillips, both gentlemen said that the stories so freely published in eastern papers within the last few days to the effect that a compromise had been effected with the defaulter and his bondsmen, which practically allows Taylor to go free and to retain the greater part of his stealings, is absolutely without foundation.

Taylor will be compelled to make restoration in full and no action on his part or the part of his bondsmen to this end will mitigate the degree of his crime or lessen his punishment. The governor and Treasurer Phillips are both authorities for this statement that the state will not lose a cent; that property of sufficient value to more than cover Taylor's defalcation has been turned over to the state by Taylor and his bondsmen, and that notwithstanding this the case against him will be pushed with as much severity as though it had been undertaken against a less prominent criminal.

CHICAGO, June 17.—W. W. Taylor, ex-treasurer of South Dakota, put in an appearance Sunday, as expected, but registered under an assumed name to avoid Managony, H. A. Taylor of South Bend, Ind., also here. He said that his brother did not desire to be interviewed.

Taylor left for Pierre, S. D., where he will give himself up. It was a little over four months ago that Taylor passed Chicago on his way to the tropics, where he has successfully evaded a cohort of detectives who never quit his track from the day that he left South Dakota. He is unburned and careworn from his travels and troubles and expressed himself to friends as very glad that he was returning home to settle up the matter at the cost of liberty. The ex-state treasurer denied interviews to all outsiders and would not give the slightest information about his travels.

Denounced as False by Brewer. MILWAUKEE, June 17.—The charges made at St. Paul by Ethelbert Steward, special agent of the United States labor department, that child labor is employed in bottling works in this city and that drunkenness and immorality exists there, are denounced as false and malicious by local brewers. Gustav Fabst and Secretary Henning said that no children were employed in the bottling works. They merely pasted labels on bottles. Foremen and forewomen took special pains to guard against vulgarity and immorality. The departments referred to are always open to inspection.

Adler Wanted in Several Places. MILWAUKEE, June 17.—S. J. K. Adler, an attorney of New York, who was arrested here while trying to have made seal of the state of Alabama to stamp forged affidavits of recommendation of the late Judge Stone of the Alabama supreme court, was also recently indicted in New York for larceny and will be taken back. He is also wanted for embezzlement in Council Bluffs. At Crete, Neb., he represented himself to be a millionaire, married a German girl on five days acquaintance and gave her a bogus check for \$50,000 for a wedding present. Several days later he left her and when next heard of is said to have married a woman in Cincinnati. He is 60 years of age.

Bancroft Files His Bond. SALT LAKE, June 16.—W. H. Bancroft has filed his bond under his appointment as joint receiver of the Oregon Short Line and Utah Northern Railway company. The bond is for \$30,000 and it was approved by Judge Merritt. It was a pro forma proceeding, as it is thought there is little probability that Mr. Bancroft will ever be authorized to act under it. Three hundred and ten tons of Oregon Short Line and Utah Northern stock were sold in this city on an order from Kuntze Bros. of New York at \$6.75.

Seven Skeletons Found in Colorado. BRIGHTON, Colo., June 17.—The skeletons of seven persons, four adults and three children, have been exhumed in a field about a mile and a half from here near the old trail, where it crossed the Platte river. The character of the skulls indicate they were white people, and it is believed they were the remains of a murdered party, probably a prospector, a family massacred by Indians and buried by subsequent emigrants. No means of identification were discovered.

Sheepmen Not Alarmed. RAWLINS, Wyo., June 17.—Jack Edwards, who is here looking after the wool shipments, says that when he is ready he will move some of his bands of sheep to California Park, Colo., at all hazards. He has been notified that there will be several hundred armed cattlemen there to meet him and drive him off, but he regards the notice as a bluff, which he will call at the proper time.

Grasshoppers in Minnesota. MINNEAPOLIS, June 17.—Governor Clough said today that some of the reports telegraphed about grasshoppers' invasion were grossly exaggerated. He had issued no proclamation and none was needed. About 60 miles square of territory is infected and this is around the dunes of the St. Croix, far away from the wheat country. They expect to crush out the pest.

Cardinal Gibbons at Rome. Pope Leo Speaks in Warm Terms of the United States. BALTIMORE, June 17.—The Sun's Rome correspondent sends this account of a meeting between Pope Leo and Cardinal Gibbons upon the latter's arrival at Rome: "It was a long and very delightful audience, as the cardinal familiarly expressed it. His feelings of satisfaction at the progress it has already made, and augurs for it a grand and beneficial future, are

Evangelical Lutherans. LEWISBURG, O., June 17.—The second day's session of the Evangelical Lutheran district synod of Ohio consisted mainly of routine business. The several committees appointed yesterday have not yet formulated much matter for the consideration of the body. New congregations have been organized at McClure, Toledo and West Alexander. St. Paul's, McClure, and Matthew's, Toledo, were today received into the synod. The minutes of conferences became the attention of the synod to several matters, which will be apt to make the proceedings quite interesting. The educational matter was addressed by the Rev. D. E. Werner, D. D., of Chicago and the Rev. Dr. Roth of Greenville, Pa. The convention in one year from now is to be held at Versailles, O.
