

Special Exclusively to the Over Twenty-One Million People... JOHN HERROD Sells the above Coffee together with a complete line of STAPLE AND FANCY GROCERIES.

Prices Always Reasonable. HIGHEST MARKET PRICE Paid For Country Produce.

MINOR MENTION.

The county commissioners are in session this week. H. V. Hilliker is building a one-room addition to his residence on west Fourth street. Charley Hupfer, formerly of this city, will be married at Manchester, Mo., on the 16th inst. Peter Burke to-day shipped a car load of baled hay to Chicago for the purpose of testing that market. The Cody Guard this morning moved its portable property to its new quarters in the Keith block on Front street. The county judge and the clerk of the district court have been kept busy for a day or two certifying to pension vouchers. A farewell reception was given to Rev. W. E. Hardaway and wife at the parsonage last evening by the members of the M. E. church and their friends. The Inter-state Milkmaids' Convention to be held in this city on the 17th inst. will prove a highly interesting affair. You should make arrangements to attend. The L. O. T. M. sociable in the Douglas store room last night was quite well patronized, and the receipts will materially help the treasury of the organization. Mrs. C. H. Rogers, of Ogallala, was here having dental work done at Dr. Morrill's this week. An exchange says Texas has fifteen counties without a postoffice, and sixty-four counties without a newspaper in their limits. No wonder the Lone Star state is so solidly democratic. Pearl Armbus on Wednesday received from the secretary of the state fair association a draft for \$5.00, being the amount of the premium due him for making the best broom in the state in the year 1895. The young men's republican club held a small meeting last night at the courthouse which was not as largely attended as it should have been, probably owing to the insufficient length of notice being given. No special business of importance was transacted. The next meeting will be held at the office of C. P. Ross. While a couple of Bob Ginn's were yesterday playing with a hatchet one of them neatly and successfully amputated the third finger of the right hand of the other. The wound was promptly dressed and the little sufferer is now resting as easy as circumstances will permit. The friends of the family sympathize with them on account of the mishap.

DR. W. A. DeBERRY, DENTIST. Office in First Nat. Bank Bldg.

It is now announced that the Missouri Pacific R'y will be extended from Hastings through to Denver, and bids have been asked for the construction of the same. Senator Brice, of Ohio, is said to be the president of the new company. With Frank Reardon's well known friendly feeling for North Platte it should not be a hard matter to induce the building of a branch of the same into this city. It is said the Washburn and Milwaukee roads are interested in the project as well as the Missouri Pacific.

This morning as train No. 23 was pulling out of town the engineer had occasion to call up a brakeman to open the switch to the main line, and the waterworks whistle chimed out a fire alarm which caused the fire department and citizens to turn out to see if there was a fire. None was discovered. At least this is one way the alarm may be accounted for, when there is no suitable electric system in use upon which our people may depend. Some time ago the city council made a move to have the system put in effective shape, but for some reason this has not been done.

Railroad business appears to be materially increasing. Dr. McCabe is preparing to put a new heating apparatus in his family residence. Rev. Beecher will deliver his initial sermon at the Episcopal church Sunday next. Harry Coleman is quite ill with some malarial disease; so much so that a nurse is required. Mr. and Mrs. W. H. Fikes returned a few days ago from their visit to Fort Madison, Iowa. The members of the Eastern Star lodge were very pleasantly entertained Wednesday afternoon by Mrs. H. T. Rice. C. P. Davis came down from Sidney last night for a visit with friends. His wife has been in town during the past week. John Splithof, who has lately been living in the south part of the county, this week sold his farm and left for unknown parts. Dr. Morrill has just received \$300 worth of artificial teeth. There will be preaching at the Baptist church next Sunday at 10:30 a. m. and 7:30 p. m. A cordial invitation to all to attend. Dr. Morrill has obtained Dr. Mueller's painless extraction of teeth from Berlin. This method is absolutely safe and proving successful wherever used. The cast for the "Deestrick Schule" to be given under the auspices of the Y. M. C. A. about the middle of the month, has been made and rehearsals will probably be held next week. Doctor Aicy, of Lincoln will again be in North Platte at the Hotel Neville, Monday, October 14, where he may be consulted by all in need of his services. He stays one day only.

Dr. W. A. DeBERRY, DENTIST. Office in First Nat. Bank Bldg. Reuberta headquarters for the campaign have been opened up in the office of G. C. McAllister, in the Grady block, this city, where interested persons can ascertain the latest phases of the local canvass upon inquiry. Frontier county has a county division fight on hand. It is proposed to divide the county by a line from north to south, and name the eastern portion Mills county. It promises to be the main issue in the local campaign. Dr. Morrill has a safe method of extracting teeth without pain to the patient. The case of the city of North Platte vs. B. I. Hinman for illegally maintaining a wooden awning contrary to the city ordinances was dismissed by police judge Ray Tuesday afternoon in a technical decision in which the question of the validity of the ordinance was not raised. In effect it leaves the matter just as before, with the defendant liable to arrest at any future time for a repetition of the offense. Elsewhere in this issue appears a condensed statement of the First National Bank of this city. It shows a very healthy condition of that financial institution, two items being particularly noticeable, viz: "Cash and sight exchange," and "Deposits." The former represents the supply of cash on hand, while the latter shows the savings of its patrons. These indicate thrift upon the part of the management of the bank, and also economical habits upon the part of our citizens.

This morning shortly after one o'clock our citizens were awakened by the fire alarm. Investigation developed the fact that it was a small barn in flames on the premises of Mrs. P. Manion in the Third ward. Owing to the inflammable nature of the contents and the start the fire obtained, the structure was quickly consumed, almost before the fire department could accomplish anything. Fortunately at the time of the fire it was slightly raining which prevented the flames from spreading to other property. The building and contents, consisting of a couple of tons of hay and a buggy, are a total loss, with no insurance. An injunction suit has been filed in the next term of the district court, next month, by the Equitable Farm & Stock Improvement Co. from re-opening a road through its lands southeast of this city. The highway is what is known as the Bratt road through the latter's ranch. It appears that it was at one time a legally established road, but it is said to have been vacated by the county commissioners without a petition praying therefor, thus closing it to the public, and of which action there is not a proper record. The county found itself similarly situated in regard to a road through Gilman canyon, and was mulcted into damages on this account.

Mrs. H. M. Grimes entertained a number of her lady friends yesterday afternoon at the family residence on west Second street. P. F. Dolan, of Maxwell, was in town Wednesday and reported that he had just sold forty-three head of two-year old steers which averaged 1070 pounds each. A. D. William and Joe Beeler have exchanged residences, and the former now occupies what is known as the Bob Law property, while the latter is living in Judge Neville's place. Manager Lloyd discovers upon consulting his contracts that the date for "The Pay Train," which he supposed was to be here tomorrow night is instead Nov. 4th. Warren has wasted a great deal of vigorous language upon the above subject for which he is now heartily sorry. V. VonGoetz and John H. Day have signed their intention of moving their stocks of merchandise from the Third ward into the Ottenstein building on Spruce street about the 1st of November. This will bring them more into the center of business and trade, and will no doubt be appreciated by many of their customers. J. R. Bangs returned Wednesday night from his trip up into the cattle country northwest of here. He is very much in love with the country around Sheridan, Wyo., and brought back a potato grown in that locality which weighed three pounds and three-quarters. He says they have them up in that country which will weight four and one-half pounds. The county commissioners have organized a new bridge district for the purpose of voting bonds to build a bridge across the North river north of Nichols. This will prove a great convenience to those of the north side country, and more particularly those living under the Birdwood canal, who will in the future have more to ship than in former years. The ladies of the Eastern Star lodge held a social Tuesday evening out at the Cody ranch. Many of those in attendance went out upon hay-racks. A very pleasant time is reported. As if to mar the happiness of one present, Mrs. C. F. Idings had the misfortune to lose a valuable diamond ring, which diligent search thereon has failed to disclose its whereabouts. Later Mr. Goodman found the ring last evening concealed in the hay upon which the party had ridden. The statistical report of the Y. M. C. A. for September is as follows: Renewals, 6; withdrawn or dropped on account of removal, etc., 7; new members, 9; present paid membership, 236; attendance at men's meetings, 161; requests for prayers, 2; number of visits to rooms 1229; baths taken, 370; number of visits of secretary to shops, yards, etc., 22; to sick and injured, 3; letters written in rooms, 102; books drawn from library, 127; papers on file in reading room during month, 301; magazines, 18. Isaac Dillon and Sidney Dillon returned the latter part of the week from the cattle round-up in Wyoming and Montana. While up in that country they were caught in the recent cold snap, for which they were improperly equipped, and in consequence had a very lively experience, although no actual suffering was occasioned. Last year vigorous efforts were made to round up all of Mrs. R. Watts' cattle in that locality, as she had sold her ranch property to Mr. Dillon who is utilizing the same as a horse ranch, yet at the late round up there were found about sixty head of cattle bearing the old familiar "W" brand. Mr. Dillon reports stock as looking unusually fine up in that country this season. Pale, thin, bloodless people should use Dr. Sawyer's Urtique. It is the greatest remedy in the world for making the weak strong. For sale by F. H. Longley.

Smoke Wright's Royal Sports and Havana Rose—5-cent cigars. No work allowed to leave Dr. Morrill's dental parlors unless absolutely correct. The Rev. Irl Hicks brought his storm in on schedule time this morning, according to his prediction over a year ago. We suggest that in the light of his remarkable spirit of prophesy, and his success in producing precipitation, for the benefit of agriculturists he be appointed to a place upon the weather bureau. Mars Nobbs, an extra passenger conductor between this city and Omaha, had the misfortune to have his hand cut off by the merciless wheels Wednesday night down at Kearney. He was coming to this city on train No. 1, and while at the Corton city walked ahead along his train to tell the engineer to stop at Overton, which is a flag station, as he had a passenger for there. In attempting to board the smoking car he struck his foot against some obstruction and fell, and in attempting to push himself out of the way of danger got his hand across the rail with the result that it was severed by the wheels. It is said that had he not been assisted by a Kearney policeman he would probably have been killed. An amputation was performed about four inches from the wrist, but it is said another operation will have to be performed, because of the arm being so badly mangled. Owing to his great loss of blood, and the shock, his many friends fear he may not be able to successfully rally from the result of the accident. Dr. A. P. Sawyer—I have had Rheumatism since I was 20 years old, but since using your Family Cure have been free from it. It also cured my husband of the same disease. Mrs. Robt. Connelly, Brooklyn, Iowa. Sold by F. H. Longley. The fire last night developed the fact that Chris Johnson, the night engine caller, could give Hank Monk, Horace Greeley's famous stage driver, cards and spades and then double discount him. Children with pale, bluish complexion, indicating the absence of the requisite red globules in the blood should take Dr. Sawyer's Urtique. For sale by F. H. Longley.

Richard Spurrier, a brother of N. B., left this morning for his home at Laramie, Iowa. Milton Doolittle returned yesterday from a business trip to his former home at Atkinson. The mother of Mrs. Wm. Coleman returned yesterday morning to her home in Des Moines, Iowa. A. S. Brown, formerly in business here but now of Omaha, is shaking hands with his numerous friends here. Mrs. H. E. Cox left Wednesday night for an extended visit with her mother at Albia, Iowa. Harry is disconsolate. W. F. Marsh, formerly of this city, but now of Keith county, was transacting business in North Platte yesterday. Fred Keen came in this morning on No. 3 for a visit with his parents north of this city. At present he is breaking on the Elkhorn valley road out of Fremont. Mrs. J. L. Minor and Miss McCormack returned last night from their visit to the eastern part of the state. While absent Mrs. Minor secured a number of prizes at the Cass county fair upon her painting and decorated China. Smoke Wright's Royal Sports and Havana Rose—5-cent cigars. No work allowed to leave Dr. Morrill's dental parlors unless absolutely correct. The Rev. Irl Hicks brought his storm in on schedule time this morning, according to his prediction over a year ago. We suggest that in the light of his remarkable spirit of prophesy, and his success in producing precipitation, for the benefit of agriculturists he be appointed to a place upon the weather bureau. Mars Nobbs, an extra passenger conductor between this city and Omaha, had the misfortune to have his hand cut off by the merciless wheels Wednesday night down at Kearney. Owing to his great loss of blood, and the shock, his many friends fear he may not be able to successfully rally from the result of the accident. Dr. A. P. Sawyer—I have had Rheumatism since I was 20 years old, but since using your Family Cure have been free from it. It also cured my husband of the same disease. Mrs. Robt. Connelly, Brooklyn, Iowa. Sold by F. H. Longley. The fire last night developed the fact that Chris Johnson, the night engine caller, could give Hank Monk, Horace Greeley's famous stage driver, cards and spades and then double discount him. Children with pale, bluish complexion, indicating the absence of the requisite red globules in the blood should take Dr. Sawyer's Urtique. For sale by F. H. Longley.

Another hostler has been added to the round-house force which again gives John Weinberger a passenger run between here and Grand Island. Engine 1276, which has been in Omaha receiving a general overhauling, passed westward yesterday on her way to service on the Wyoming division. M. H. Douglas after getting a divorce from the 631 has returned to his first love, and now looks after her petticoat as carefully as he did before. Wm. Dolson has fallen heir to the 655. Wm. Blood has perfected a huge plowing apparatus which he has attached to a car, and he proposes to subvert the right of way between this city and Sidney and put in a crop next spring. Joe Morris, a Grand Island engineer, brought the 1310 through this city yesterday on her way to the Wyoming division. She was one of the "Jumbo" variety which is supposed to be able to run with a mile a minute. Joe Davis, a car repairer, through some cause or other fell from off the end of a freight car a day or two ago and sustained a very severely sprained ankle, which is causing him considerable suffering at the present time. Improvements and extensions are being contemplated in the railroad yards here whereby it is said about four miles of track will be added. This will keep Geo. Lannin busy looking for "snake-heads" and "cow jits," although it will prove a great convenience to train and yard men. The blue prints showing the proposed changes are already here. Will Briggs' injuries at Boulder last week are not so serious as at first thought. From a letter received from him from St. Luke's hospital in that city he writes: "I was knocked off from a furniture car and struck on my feet, throwing the left ankle out of joint, and breaking one bone above the ankle. It will take about three months before I can do any work." It is thought the company is to blame for having an obstruction overhanging the track preventing the free passage of trains.

People who come and go. John Bratt transacted business in Omaha this week. C. F. Idings made a business trip to Sutherland yesterday. Miss Nora K'neman, of Big Springs, is visiting friends in this city. Sidney Dillon returned to Chicago a few days ago to re-enter school. Richard Spurrier, a brother of N. B., left this morning for his home at Laramie, Iowa. Milton Doolittle returned yesterday from a business trip to his former home at Atkinson. The mother of Mrs. Wm. Coleman returned yesterday morning to her home in Des Moines, Iowa. A. S. Brown, formerly in business here but now of Omaha, is shaking hands with his numerous friends here. Mrs. H. E. Cox left Wednesday night for an extended visit with her mother at Albia, Iowa. Harry is disconsolate. W. F.
