You can get your seats reserved at Clinton's after Saturday morning.

—Next Monday evening is the regular meeting of the city council, and an interesting session may be expected when the matter of purchasing fire hose comes up for solution. The various failures of the hose to stand adequate fire pressure have determined that this is badly needed; and yet if just such pressure as the hose will stand is furnished by the waterworks' company there will be a "kick" that it is insufficient force for effective fire fighting.
