Sad Condition Facing Many of the Arme

CONSTANTINOPLE, Nov. 28 .- Now that matters seem to be quieting down again here and in the Asiatic provinces people are beginning to form estimates of the amount of damage done and the number of lives lost during the recent disturbances. Well informed Armenians estimate the losses through the events which have just taken place in Anatolia alone at \$50,000,000 and the number of lege. victims at 40,000. Of course these are Armenian estimates, but there seems good reason for believing that the property destroyed, the number of lives sacrificed and the terrible outrages committed are far beyond anything hitherto estimated or described. CONSTANTINOPLE, Nov. 27 .- The Turkish minister for foreign affairs, Tewfik Pasha, called upon Sir Philip Currie, the British ambassador, today and announced that the porte had decided to issue the firmans providing for the passage through the Dardanelles of the extra guardships demanded by Great Brit-ain, Russia, Italy and Austria as additional protection needed for the safety of the foreign population here in view of the recent rioting in the streets of Constantinople. This puts an end to a very dangerous situation, for there is no doubt that the powers would have insisted upon having the extra gunboats

More ample reports all agree in establishing the fact that the rioting at Kharput was of a most horrible description; that several hundreds of Armenians, men, women and children were butchered; that the massacre seemed to be premeditated; that the Turkish officials, if they did not take part in the slaughter, as the Armenians claim, certainly made no effort to put a stop to it, and utterly failed to guard the Americans. Mr. Terrell, when informed of the destruction of the mission buildings at Kharput, made a strong formal protest to the porte, and as soon as the work of collecting all the data necessary is completed he will make a demand for the immediate payment of an indemnity. In fact, Mr. Terrell, when he intimated that this would be done, was assured that the Turkish government would pay the indemnity required as soon as all the facts in the case were established and the blame placed where it belonged. The porte has promised that there will be no interference with the United States minister's mail or telegraphic messages. Fresh Troubles at Marash.

Unconfirmed rumors reached here today that fresh troubles of a most serious nature have broken out at Marash, where the mustering of Turkish troops for the advance on Zeitonn has been in progress for some time past. One report has it that part of the town of Marash had been burned by the rioters. The representatives of the powers have had their attention drawn to the sad condition of the homeless inhabitants of certain parts of Asiatic Turkey, and steps are to be taken to do everything possible in the matter. They are now discussing a project for the distribution of relief in Anatolia, rendered immediately necessary by the recent events in that district.

BUTCHERED WOMEN AND CHILDREN. Revolting Crime Committed by Spanish

TAMPA, Nov. 22.-Colonel Fernando Figuerdo, the Cuban leader of this city, is in receipt of a letter from Havana committed by Spaniards in Matanzas province. Colonel Melino, who commands a Spanish regiment, recently encountered the advance guard of Gomez in Matanzas, and was defeated. While soldiers under Melino were in retreat they met a group of women and children near a little town called Cayopino. As the soldiers passed one of the women made a sneering remark about the Spaniards. The remark was overheard by the soldiers, and so enraged them that they fell upon the women and children and butchered every one of them. There were 10 women and about a dozen children in the group. The letter says that the Spaniards, after shooting down their victims, stabbed them with bayonets,inflicting the most horrible wounds. One baby was killed at its mother's breast, and the bullet that passed through the infant also passed through the mother. Colonel Melino made no report of the butchery, but it happened that two of the women murdered were wives of Spaniards engaged in the sawnill business in Matanzas. When the husbands learned how their loved ones had been slaughtered they went to Martinez de Campos, informing him of the horrible affair, and demanding that Colonel Melino be punished. It is said that General Campos has ordered that Melino be court martialed, and it is thought the butcher will be sentenced to death, as the massacre is condemned as bitterly by Spaniards as by Cubans. China Comes Forward With a Tale of Re-

volting Japanese Cruelty. VANCOUVER, Nov. 22.—Chinese papers received here by the steamer Empress of China are bitter in their attacks on the Japanese authorities in Corea, whom they blame for the murder of the queen. They-assert that Japan is a nation pretending to be civilized, but is the most barbarous on earth. The queen was hung up by the hair, and after being otherwise abused, tied hand and foot, soaked in oil and barned in the rear of the palace, her remains being reduced to ashes that all trace might be lost. Thirty attendants of the queen, it is being left about the palace. When the palace was attacked, with some 1,500 North Platte. - . . guards on duty, only six remained at their posts, and they were quickly dispatched. According to Chinese reports there were 15 women of title in the court, the queen, her mother and 130 ladies in waiting. They were nearly all soaked in oil and burned, while the men's throats were cut.
