REPUBLICAN COMMITTEE MEETING.

The members of the republican county central committee are respectfully called to meet at the court house, in North Platte, on Saturday, March 14th, 1896, at one o'clock in the afternoon, for the purpose of determining the manner of selecting delegates to the state convention to be held at Omaha on April 15th, 1896, and for the transaction of such other business as may properly come before the meeting. A full representation is desired, as important business reaching through the campaign of '96 is liable to come before the committee. G. C. McALLISTER, Chairman.

THE SIXTH DISTRICT.

The Congressional Committee of the Sixth Congressional district is hereby called to meet in the city of Kearney on Wednesday, March 11, at 2 o'clock p. m., for the transaction of such business as may properly come before it. G. H. CURTIS, Chairman. P. T. LAMBERT, Secretary.

The latest extended estimate of republican presidential preferences is one which is published in the Pittsburg "Dispatch." It is based on telegrams from all the states and territories, and according to the Philadelphia "Inquirer," Senator Quay says the estimate is fairly representative of the situation at the present time. This showing gives McKinley 335 votes on the first ballot; Reed, 215; Morton, 67; Allison, 80; Quay, 76; Cullom, 38; Bradley, 26; Davis, 22, with 18 scattering or undecided. The only change Quay would make in these figures is that he thinks McKinley's vote will not go above 300 on the first ballot, instead of the 335 which the "Dispatch" gives him. The number necessary to a choice is 459, which would make McKinley lack at the outset 159 votes of the number required to give him the nomination.

The one striking feature of the local situation with reference to the presidential preference is the strong sentiment among the masses for Major McKinley. The laboring men of Fremont who have voted the republican ticket in times past are, almost to a man, for the great apostle of protection and prosperity. And there is abundant evidence that many men who have not hitherto been voting the ticket who will hereafter do so and they are strong in their preference for McKinley. If we mistake not there are yet greater surprises in store for the enemy than they have had up to date in the eventful as well as fateful political occurrences of the past eighteen months. The laborer believes himself worthy of his hire and he is of the opinion that he will be hired if McKinley is elected.—Fremont Tribune.

THE SENATE NAVY BILL.

The bill passed by the senate for strengthening the naval force of the United States is timely. The British House of Commons is considering, and is sure to approve, a budget in which the enormous sum of \$109,110,000 is appropriated for the naval service. This is at an increase of \$15,610,000 over last year's estimates.

The air is full of rumors of wars, and the one way by which the United States can avoid enforced participation in some of the possible struggles is through readiness to participate in them with probability of success. The strong watchful man seldom is assailed; the thief and bully seek the weak, the timid or the unprepared; and as it is with men so it is with nations. The large armaments of Europe are maintaining the peace of Europe. If England were sure that Russia is unprepared; or if Russia were sure that England is unready, or were France certain that Germany is ill armed, war would break out instantly. The ability of each of the great powers to resist attack is the cause of freedom from attack. The interests of the United States now are the world-wide; millions of United States capital are vested in Cuba. The Southern and Central American republics are full of citizens of the United States who are engaged in trade, agriculture or manufactures. United States trade with China, Japan and other nations of the Orient grows apace. Hawaii is a possession that we cannot afford to permit under any European protectorate. In every quarter of the world we have interests that will be imperilled by the event of war between any of the great powers and that will require protection. The naval force of the United

States is its chief and cheap defense. The senate has done well in providing for its growth and maintenance.—Inter Ocean.

CUBANS are not fighting specially because of any recent and unusual oppression; it is the galling chains that hung about their fathers and grandfathers and were welded on to their own limbs by Spain that they desire to break and unloose. They have resolved to do it or die. Is it any wonder that Americans, conversant with their history, deeply sympathize with Cuba? They would not be the sons and daughters of 1776 if they did otherwise.

The difference between the Roman Nero and Grover is that the former can fiddle; Grover can't. He has no music in his soul.—Wichita Eagle.

If Spain gets too gay over those resolutions, we may conclude to relieve her of those sugar plantations altogether.—Kansas City Journal.

CONGRESS' DUTY DONE

RESOLUTION FOR COMPLETE RECOGNITION IS PASSED.

WASHINGTON, March 5.—Cuba libre had a field day in the house. Despite the war talk from Spain, the struggling patriots in Cuba were eulogized and sympathized within a 2-hours' debate on Monday, and the rules were then suspended and the resolutions by the house foreign affairs committee were adopted as a substitute by those of the senate by an overwhelming majority, 296 to 17. An analysis of the vote shows that 188 Republicans, 7 Democrats and 5 Populists voted for the resolutions and 9 Republicans and 8 Democrats against them. The debate which preceded their adoption was animated and breathed a spirit of liberty.

The resolutions were as follows: Resolved, By the house of representatives, the senate concurring, that in the opinion of congress a state of public war exists in Cuba, the parties to which are entitled to belligerent rights and the United States should observe a strict neutrality between the belligerents. Resolved, That congress deprecates the destruction of life and property caused by the war now raging in the island, and causing the death of a population of 2,000,000 of the most equal in the interest of Spain, the people of Cuba and other nations would be in the establishment of a government by the choice of the people of Cuba, it is the sense of congress that the government of the United States should use its good offices and friendly influence to that end.

WASHINGTON, Feb. 28.—By the overwhelming vote of 64 to 6, the senate Friday adopted a concurrent resolution favorable to Cuban belligerency and independence. The resolutions adopted are as follows: Resolved, By the senate, the house of representatives concurring, that in the opinion of congress a condition of public war exists between the government of Spain and the government proclaimed and for sometime maintained by force of arms by the people of Cuba; and that the United States should observe a strict neutrality between the contending powers, according to each all the rights of belligerents in the ports and territory of the United States.

Resolved, That the friendly offices of the United States shall be rendered by the president to the Spanish government for the recognition of the independence of Cuba. The vote on the resolutions resulted: Yeas, 64; nays, 6. The senators who voted in the negative were: Caffery, Chilton, George, Hale, Morrill and Wetmore.

Overrides the First. WASHINGTON, Feb. 19.—The senate amendments to the army appropriation bill were concurred in by the house today and the bill was sent to conference. Mr. Lacey, chairman of the committee, then called on the bill to leave certain lands in Arizona for school purposes which was voted yesterday. The bill was then passed over the president's veto by a vote of 200 to 38.

FOR AN INCREASE OF THE NAVY. Senate Bill Passed Authorizing the Addition of 100 Battleships to the Navy.

WASHINGTON, March 3.—The bill passed by the senate Monday for the increase of the navy attracted considerable attention in view of the tension over Spanish-Cuba affairs. In explaining the measure Mr. Hale (Me.), who reported it from the naval committee, said that while he did not believe the United States would be involved in war as a result of the present trouble, yet he considered it desirable to give the president authority in case of emergency to call out the naval militia and charter private ships for naval transports. The bill as amended authorizes the addition of 1,000 enlisted men to the navy, the enlistment for not more than two years of the naval militia forces in case of emergency and the chartering of transport ships under the 5-minute rule and by unanimous consent.

Pass the Agricultural Bill. WASHINGTON, March 4.—The senate gave most of the day to the agricultural bill and passed that measure carrying \$3,262,000, without material amendment. Another bill passed during the day changes the limitations of fourth class mail matter so as to free the postal service from bulky articles heretofore sent free by the government departments. Mr. Wolcott, in urging the bill, said roller top desks and electric motors were among the articles sent as mail by the departments. Late in the day word came from the house that the error concerning the Cuban resolutions had been corrected. In its corrected form the house resolution is an amendment to that passed by the senate.

Debating the Fee System. WASHINGTON, March 4.—The house spent the entire day Tuesday in debating the amendment to the legislative appropriation bill to abolish the fee system in the courts of the United States district attorneys and marshals. The salaries fixed by the amendment range from \$2,000 to \$5,000. The amendment was endorsed by almost every member of the judiciary committee. It was argued the amendment would reduce the expenses of the United States courts which have doubled since 1878 at least \$500,000 for the first year and result in stopping the pernicious padding of the business of the federal courts.
