# THE NORTH PLATTE SEMI-WEEKLY TRIBUNE FRIDAY EVENING, MAY 22, 1896.

## OREGON SHOWS GREAT SPEED.

### Official Trial Trip Places Her In the Front Rank of Her Class.

SANTA BARBARA, Cal., May 15 .- In her official trial trip yesterday the battleship Oregon covered 62 knots, the official government course, in 3:40:48, making the magnificent average speed for the time over the course of 16.78 knots or 19.45 miles an hour. This speed places her in the very front rank of ships of her class in the navies of the world, beating the Massachusetts, which had a record of 16.15 knots, and the Indiana with a record of 15.61 knots. By her great performance the Oregon has earned for her builders, the Union Iron works, a premium of \$175,000.

Senator Thurston Prefers Leadership. ST. LOUIS. May 15 .- A special dispatch to The Globe-Democrat from Washington says: "Senator John M. Thurston will undoubtedly be the perbeen spoken of for one of the leading and lodged them in jail. cabinet positions in the event of Governor McKinley's election. This specu lation is unreliable. Senator Thurston much prefers to be administration leader on the floor of the senate, and this he undoubtedly will be if McKinley becomes president."

Fifteen Years For Reform Leaders.

LONDON, May 20.-A Pretoria dispatch to The Times says: "The executive council decided that the punishment of Colonel Francis Rhodes, Lionel Phillips, George Farrar and John Hays Hammond, the leaders of the reformers who were sentenced to death, shall be 15 years' imprisonment. The hope is entertained that these sentences will be modified. The decision of the sentences of the other reformers is still awaited."

South Dakota Crop Prospects. ALEXANDRIA, S. D., May 17 .- Rains so far this month have been timely and grass and crops are far in advance of what they are generally. Stock on the range looks well and is taking on fat a boy, apparently about 15 years of age, rapidly. The season is fully two weeks in advance of the average year. The wet weather is proving very discouraging to the Russian thistle.

Western Federation of Miners Adjourn. DENVER, May 20.-The annual con-Miners adjourned after relecting dele-Labor, with which the miners have de- the only person at home. She lost \$150 rative which almost serves the purpose cided to affiliate, as follows: President Boyce, F. H. Clifford, W. R. Phelps, and J. F. McDonnell. Will Not Abandon Irrigation. SIOUX FALLS, May 20 .- Despite the heavy rainfall which has filled the dry runs of the Jim valley and soaked the ground to a depth of a dozen feet, the plan of irrigation by artesian wells will be tried on a much larger scale than ever before.

## NEWS OF NEBRASKA.

Trust Said to Have Made a Purchase. NEBRASEA CITY, May 20 .- It is rumored that the distillery at this point has been purchased by the trust.

Alleged Cattle Rustler Commits Suicide. O'NEILL, Neb., May 20 .- John Car- dered feldspar, an essential ingredient of berry of Stuart committed suicide by granite, and itself a natural but very shooting, killing himself instantly.

Banker's Case Continued. CHADRON, May 19 .- The case against more easily cleaned than the glass con-A. C. Putnam of the Chadron Banking | taining the exide of tin. The various company was continued until June 16.

#### **Bolin** Sentenced.

## Carried Off a Barn.

and Jesse Hadley stole a barn last night

## Kennedy Gets a Contract.

CRAWFORD, Neb., May 19 .- Bids were opened at Fort Robinson for the supply of 60,000 pounds of fresh beef. Much interest was manifested here in lowest.

### Dismisses Professor Norton.

Professor Norton.

## Suspension of Sentence.

LINCOLN, May 19 .- John Fenton and George L. Barney, who were convicted of cattle stealing in Holt county and whose cases were brought to the supreme court for review, were granted a suspension of sentence.

## Body of a South Omaha Boy Found. PLATISMOUTH, May 20 .- The body of was found in the Missonri river near Rock Bluff. It is believed that the boy

Omaha some time ago. Robbers Secure the Cold Cash.

#### THE IMPENETRABLE. Making the Mosalo Tesserto. The opacity of the material used in

the mosaics of Rome, Ravenna and Venice is due to minute particles of exide of tin held in suspension by the glass, and the texture of the glass is dall and granular. The material now being used at St. Paul's owes its opacity to powinfusible glass. The texture of this material is smooth and vitreous, and it is consequently less retentive of dirt and

What We Know, What We Believe and What We Do Not Comprehend of Our

Distances by a Scale Greatly Reduced. It is worth while making an effort to picture to ourselves the vast extent of the starry system in which we reside.

Having gained some faint notion of the colors are obtained by mixing metallic extent of the lesser solar system, which oxides with the ordinary ingredients of occupies a small corner of the stellar system, we must work outward from tenced to 19 years imprisonment and a produces a purple blue color, and the that beginning. Let us take for our oxide of copper, according to its state of unit of measurement the space which who gather there for the day's necessary oxidation and the proportion in which separates the earth from the sun, and talk. Infants sometimes cry and at such it is used, gives a blue, a green or a let the 92,000,000 of miles of this dis-BEATRICE, May 19.-Adam Smothers red. many of the miscrics of the miscrable lo-TREMENDOUS MAGNITUDE OF THE cality. There may be some teetotalers, STARRY SYSTEM. but there are not many, and there are almost as few drinkers who are always

moderate in their libations. The curse of bitter beer, raw Sectch whisky and "tuppenny" gin rests heavy on the Solar System-Considering Stupendous place. Public opinion is no weapon against it, for public opinion openly favors drinking whenever one has the necessary money and does not regard actual drunkenness as a disgrace worth men-

tioning. Women drink at the bars as unconcernedly as men do, and barmaids serve them. The barroom is the gossip place, and babes and small children are carried to it and kept in it by careful mothers, times are permitted a sip from the maternal glass, quite as other children are bribed with chocolate drops. Thus blear eyes and drink reddened faces often have combining the cxides a practically un- in diameter, while our earth must be a streets are dirty, ragged and vociferousspasmodic merriment from the public houses. Drunkenness and fighting are common everywhere, especially on the streets. During one noon recess I saw three fights develop among the two dozen

### At What Age Is Man Strongest?

The muscles, in common with all the organs of the body, have their stages of development and dccline; our physical strength increases up to a certain age and then decreases. Tests of the strength of several thousands of people have been made by means of a dynamometer (strength measurer) and the following are given as the average figures for the white race:

tury.

The "lifting power" of a youth of 17 years is 280 pounds; in his twentieth year this increases to 320 pounds, and in the thirtieth and thirty-first years it reaches its height, 356 pounds. At the end of the thirty-first year the strength begins to decline, very slowly at first. By the fortieth year it has decreased eight pounds, and this diminution continues at a slightly increasing rate until the fiftieth year is reached, when the figure is 330 pounds.

After this period the strength fails

The question arises next, What will be the proportionate size of the stellar system on this same scale of measureis perhaps the more appropriate term, ment? If the solar system is to be comprised with a hoop not two yards across, how wide a space should we allow to the surrounding system of stars,

"our universe?" How near will be he nearest of outlying stars? And the answer is sufficiently startling. If the sun book of Kings which is wholly dramat- is reckoned to be one inch away from ic in casence, and the narrative form is our earth, if Neptune is reckoned to is one who was drowned near South so subordinate in feeling to the dramat- be less than three feet away from the ic spirit that even a casual reader, if at sun, then, on the same scale, the star all critical, must be impressed by this. which lies closest of all outer stars in Indeed so assentially dramatic is the the whole universe to us, Alpha Cen-

Co. however, are unfit for transportation, pation, dizziness yield to Electric Bitters. too great an amount of work should not Council Bluffs, Iowa. For sale by A. F as they last but a short time in a good 50 cents and \$1.00 per bottle at Streitz's condition. -Popular Science Monthly. Drug Store.

Lawyer-If for any reason whatever he will be sent to jail for contempt of court.

Washington's Tallest Policeman. Patient Man-Suppose she drives him out of the house with a flatirou and he's afraid to go back?

> Lawyer-She can arrest him for desertion.

Patient Man-Well, I don't see anything for me to do but go hang myself. Lawyer-It's against the law to commit suicide, and if you get caught atday.-New York Weekly.

## Electric Bitters. Electric Bitters is a medicine suited for any season but perhaps more generally needed when the languid, exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting

## A Cure for Piles.
