heavy increase in the burden of taxation and of all debts, public and private, the enrichment of the money lending class at home and abroad, prostration of industries and impoverishment of the people.

We are unalterably opposed to monomet-allism, which has locked fast the prosperity of an industrious people in the paralysis of hard times. Gold monometallism is a British policy, and its adoption has brought other nations into financial servitude to London. It is not only unamerican, but antiamerican, and it can be fastened upon the United States only by the stifling of that spirit and love of liberty, which proclaimed our political independence in 1776 and was won in the war of the We demand the free and unlimited coin-

age of gold and silver at the present legal ratio of 16 to 1, without waiting for the aid or consent of any other nation. We demand that the standard silver dollar shall be full legal tender, equally with gold for all debts, public and private, and we favor such legislation as will prevent for future the demonetization of kind of legal tender money private contract. We are opposed to the policy and practice of sur-rendering to the holders of the obligations of the United States the option reserved by law to the government of redeeming such obligations in either silver coin or gold coin. We are opposed to the issuing of intere-t bearing bonds of the United States in times of peace, and condemn the trafficking with banking syndicates, which in exchanging for bonds and at an enormous profit to themselves, supply the federal treasury with gold to maintain the policy of the gold monometallism. Congress alone has the power to coin and issue money and President Jackson declared that this power could not be delegated to corpora-tions or individuals. We therefore demand that the power to issue notes to circulate as money be taken from the banks and that all paper money shall be issued directly by the treasury department, be redeemable in coin and receivable for

all debts, public and private.

We hold that tariff duties should be levied for purposes of revenue, such duties to be readjusted as to operate equally throughout the country and not discriminate between class or section and taxations should be limited by the needs of government honestly and economically administered. We denounce as disturbing to business the Republican threat to restore the McKinley law, which has been twice condemned by the people in national elections, and which, enacted under the false plea of protection to home industry, proved a prolific breeder of trusts and monopolies, enriched the few at the expense of the many, restricted trade and deprived the producers of the great American staples of access to their natural markets. Until the money question is settled, we are opposed to any agitation for further changes in our tariff laws except such as are necessary to make up the deficit in revenue caused by passed by a Democratic congress in strict that court for nearly 100 years, that court having under that decission sustained constitutional objections to its enactment which has been overruled by the ablest judges who have ever sat on that bench. We declare that it is the duty of congress to use all the constitutional power which remains after that decision, or which may come from its reversal by the court as it may hereafter be constituted, so that the burdens of taxation may equally and impartially lead to the end that wealth may bear its due proportion of the expenses of the government. We hold that the most efficient way of protecting American labor is to prevent the importation of foreign pauper labor to compete with it in the home market and that the value of the home market to our American farmers and artisans is greatly reduced by a vicious monetary system which depresses the prices of their products below the cost of production and thus deprives them of the means of purchasing

the products of our home manufactories. The absorption of wealth by the few, the consolidation of our leading railway systems and the formation of trusts and pools require a stricter control by the federal government of those arteries of commerce. We demand the enlargement of the powers of the interstate commerce commission and such restrictions and guarantees in the control of railroads as will protect the people from robbery and

We denounce the profligate waste of the money wrung from the people by oppressive taxation and the lavish appropriations of recent Republican congresses, which have kept taxes high while the labor that pays them is unemployed and the products of the people's toil are depressed in price till they no longer repay the cost of production. We demand a return to that | urged to enact an alien law similar to simplicity and economy which befits a Democratic government, and a reduction in the number of useless offices, the salaries of which drain the substance of the

We denounce arbitrary interference by federal authorities in local affairs as violation of the constitution of the United States and a crime against free in-ti:utions, and we especially object to govern-ment by injunction as a new and highly dangerous form of oppression by which federal judges in contempt of the laws of the state and rights of citizens become at once legislators, judges and executioners, and we approve the bill passed at the last session of the senate of the United States, and now pending in the house, relating to contempts in federal courts and life, and the only injury was a slight providing for trials by juries in certain

cases of contempt. No discrimination should be indulged in by the government of the United States in favor of any of its debtors. We approve of the refusal of the Fifty-third congress to pass the Pacific railroad funding bill, and denounce the effort of the present congress to enact a similar

Recognizing the just claims of deserving Union soldiers, we heartily indorse rule of the present commissioner of pensions that no names shall be arbitrarily dropped from the pension roll, and the fact of enlistment and service should be deemed conclusive evidence against disease and disability before enlistment,

We favor the admission of the territories of New Mexico and Arizona into the Union as states and we favor the early admission of all the territories having the necessary population and resources to entitle them to statehood, and while they remain territories we hold that the officials appointed to administer the government of any territory, together with the District of Columbia and Alaska, should be bona fide residents of the territory or dis- Winter; George F. Bidwell, general trict in which their duties are to be performed. The Democratic party believes in home rule and that public lands of the United States should be appropriated to the establishment of free homes for Amer- pointed general manager of the Sioux ican citizens. We recommend that the territory of Alaska be granted a delegate in congress and that the general land and timber laws of the United States be extended to said territory.

We extend our sympathy to the people of Cuba in their heroic struggle for liberty and independence.

We are opposed to life tenure in the pub-lic service. We favor appointments based upon merits, fixed terms of effice and such an administration of the civil service laws as will afford equal opportunities to all citizens of ascertained fitness.

We declare it to be the unwritten law of this republic, established by custom and usage of 100 years and sanctioned by the examples of the greatest and wisest of those who founded and have maintained our government, that no man shall be eligible for a third term of the presiden-

The federal government should care for and improve the Mi-sissippi river and other great waterways of the republic so as to secure for the interior states easy and cheap transportation to tide water. When any waterway of the republic is of suffieient importance to demand aid of the government, such aid should be extended upon a definite plan of continuous work antil permanent improvement is secured. Confident in the justice of our cause and the necessity of i.s success at the polls, we submit the foregoing declaration of principles and purposes to the considerate judgment of the American people. We invite the support of all citi-sens who approve them and who desire to have them made effective through legis-iation for the benefit of the people and the restoration of the country's prosperity.

THE C. E. CONVENTION

INTERESTING PROGRAM OF EXER-CISES PREPARED.

Arrangements Completed at Washington for the Largest Meeting of the Order Ever Held-Bicyclists Provided for Especially-Great Chorus the Feature.

WASHINGTON, July 6 .- Between 40, 000 and 50,000 visitors to the capital city are expected during the next 10 days to attend the sessions of the national Christian Endeavor convention, which begins on Wednesday and continues through the 13th. A vast amount of work preparing the program for the convention and for the entertainment of the Endeavorers has been done by the local committee. From the enthusiasm which has been apparent all over the country, it seems to be assured that the gathering will be the greatest of its kind ever held. A combined seating capacity of 40,000 will be available at any time during the convention and the meeting places will be more numerous than heretofore. Three great tents pitched on the white lot, a government reservation just south of the president's mansion, a large hall and a number of churches will constitute the principal auditoriums and at certain times meetings will be held simultaneously in all. Aside from the interior decorations of the tents and churches, the citizens of Washington have joined in making the city attractive by liberal decorations of their homes and places of business. The government authorities have lent their assistance in decorating the public parks with appropriate foilage devices, The prominent feature of this year's convention will be the great chorus of about 4,000 voices, which has been in training a long time for the gathering. The program committee has had in mind the bicyclists who attended the convention and for them a number of runs to interesting points in the vicinity have been arranged. The program for the meetings of the convention is about completed. In general, it contemplates early morning prayer meetings in the churches of the various denominations represented from 6:30 until 7:15. From the adverse decision of the supreme court | 9:30 o'clock until well in towards noon on the income tax. But for this decis- are to be held the meetings for adsion of the supreme court there would be no deficit in the revenue under the la v cussion of the various topics in the large pursuance of the uniform decisions of | tents and some of the large halls and churches. In the afternoons, scattered throughout the convention days, there will be denominational rallies in the several churches, officers and committee conferences, denominational missionary rallies and informal receptions to all officers. The evening sessions are to be similar in many respects to those held during the morning.

> WILL ADOPT AMERICAN RULES. Grand Trunk Railway to Change From

English Rules. TORONTO, July 4.-It is stated on the authority of prominent officials in the service of the Grand Trunk railway that General Manager Haves proposes to introduce American rules throughont the Grand Trunk system in Canada. Old officials will be compelled to learn the new rules and failure to pass a written examination on them will mean dis-

Hitherto the Grand Trunk has been subject to English rules, and Mr. Hays' inauguration of wha' he terms "standard rules" will affect about 10,000 employes. Mr. Hays has dismissed employes, replacing them with Americans, and this proposed change, some assert, will be a good excuse for importing more employes from the United States. There is talk that, to meet the emergency, the federal authorities will be

that in the United States, Baldwin Is Lucky Again.

San Francisco, July 3 .- Miss Lillian Ashley of Boston, whose case against E. under promise of marriage, has been on good shearers. trial in the superior court here for several weeks, created a sensation in the conrtroom yesterday by walking over to Baldwin, drawing a revolver and firing at his head. A bystander knocked the weapon aside in time to save Baldwin's grazing of the scalp. The woman was removed to the city prison, and it is believed her mind is unbalanced.

Three Vessels Lost. San Francisco, July 4.-Mail advices received by steamer report the loss of three vessels on the Australian coast during the gales which raged throughout the night of May 23. The ill-fated ships were the Byron, bound from Newcastle for Sydney; the barkentine Karoota, from New Zealand to Sydney, and the schooner Condang. Three of the crew of the Karoola were drowned, but no other lives were lost in the dis-

Burt and Bidwell Fromoted. St. Paul, July 3.—Three important circulars were issued by the Omaha railway, appointing H. C. Burt general manager of the line in place of E. W. manager of the Fremont, Elkhorn and Missouri Valley railroad, in place of H. C. Burt. Mr. Bidwell was also apand Pacific Railway company.

Peralta-Reavis Found Guilty. SANTA FE, N. M., July 3 .- The jury in the case against James Addison Peralta Reavis, charged with attempting to defraud the government with an alleged Spanish grant, covering 12,000,000 acres of land in Arizona, returned a verdict of guilty. Judge Laughlin postponed sentence until July 18, at which time he will hear arguments for a new

General Lawton Dead. CLIFTON SPRINGS, N. Y., July 3 .--General A. R. Lawton of Savannah, died at the Clifton Springs sanitarium. Currie Will Not Yield.

MANY NEW PENSION POINTS. Important Decisions Rendered by Assis

tant Secretary Reynolds. WASHINGTON, July 4.-Many new points in the adjudication of pension claims are established in decisions rendered by Assistant Secretary Reynolds of the interior department. All the cases came upon appeal from the pension bureau. Following is a summary of new rulings: The widow of an additional paymaster is pensionable under section 3, act of July 27, 1890.

Where shown that a soldier was sound at enlistment and died in regimental hospital of disease, the exact nature of the disease not being shown, the the contrary that he died of disease contracted in the service and in the line of

Dea'h resulting from the morphine of duty on soldier's own responsibilty,

Where a pension is granted to a widow on account of a minor child of her deceased husband has been terminated because the child had attained its 16th year and the child has been continuously since its 16th year insane, idiotic, or otherwise permanently helpless, pension may be allowed subject to the right as minors or other children of the deceased father, to participate with it in such pension during their minority after the termination of the widow's right to a pension from the date of filing application therefor subsequent to June 27, 1890, upon proof of its trouble.

Provision is made to prevent loss of pension by mistakes in applications. It is held, under the famous "June 27" act, that the pension must commence from the date of the filing of the original application, provided pensionable disability is proved. In the case of C. B. Guches, a Michigan veteran, Judge Reynolds says in sustaining the right of a pensioner under the June 27 act, to receive a pension under the general law, the former providing sufficient guard against double payment:

"Whenever the act of June 27, 1890, is employed it must be to the soldier's benefit. And since that benefit is liable to suffer defeat through the use of section 4715, revised statutes, to compel an election by the pensioner, such section, being plainly repugnant to the act de- aid for the insurgents-Many Kentucky signed to convey benefit to the pensioner, cannot be employed."

St. John Forced to Resign. NEW YORK, July 4.-William P. St. John, president of the Mercantile National bank, has resigned his position, Mr. St. John has for several years been an outspoken advocate of the free coinage of silver, and in this has been at variance with the directors or the bank. The feeling in banking circles against the advocacy of free silver by a bank president has resulted in making Mr. St. John's relations with his business colleagues very

SANTA BARBARA, Cal., July 7 .- Cyrus Barnard, suspected of murdering Mrs. Pinar del Rio, and he has retreated to Richardson and daughter was shot by an officer while resisting arrest.

Crow Creek Indian Agent. WASHINGTON, July 7 .- The president has appointed Fred Treeon of Crow Creek, S. D., Indian agent at the Crow

Consul General Lee Sick NEW YORK, July 7 .- A special to the World from Havana says that Gen era

are good. That is one reason for the great sales of "BATTLE AX."

But good quality is only half the story. The other half is the size of a 5 cent piece. It is as big almost as a 10 cent piece of other and poorer kinds.

Facts are facts. You can buy and see for yourself. Five cents isn't much to invest.
