EX-GOVERNOR OF MISSOURI SUC- EVENTS OCCURRING IN ALL SECTIONS CEEDS HOKE SMITH.

President Cleveland Announces His Choice For the Place Left Vacant by the Silver Man-New Secretary Will Assume the Duties of His Office Sept. 1.

BUZZARD'S BAY, Aug. 25 .- Announcement was made by President Cleveland at Gray Gables last night of the appointment of Davis R. Francis, ex-governor of Missouri, as secretary of the interior, vice Hoke Smith, who recently | tendance - Spain, according to a Madrid resigned the secretaryship because of his financial views. Mr. Francis will probably assume the office on Sept. 1, as that is the date named in Secretary Smith's resignation.

WASHINGTON, Aug. 35. - The announcement that the president has appointed ex-Governor Francis of Missouri to succeed Mr. Smith as secretary of the interior, rather surprised Washington, more because of the suddenness with which it followed on the announcement of Mr. Smith's retirement, | territory which Bulgaria claims--than because of the selection. The New York Prohibitionists met at Syrareasons for Secretary Smith's voluntary withdrawal from the cabinet were understood as soon as the announcement was made on Saturday, and it was naturally expected that as he had retired because he felt obliged to support | take the stump for Rev. There was a feeling also that the president would probably select Mr. Smith's successor from the middle west, as the south was already represented in his efficial family. Speculation, therefore, went to Missouri, Indiana and Illinois, and the names of ex-Governor Francis, ex-Congressman Bynum and others naturally suggested themselves. Secretary Smith evinced the greatest

satisfaction when he heard the name of his successor. He said in response to a question: "I have the pleasure of an intimate personal acquaintance with ex-Governor Francis and esteem him most highly. He is a man of marked ability. Of course I feel a deep interest in the department and do not know anyone to whom I would more willingly turn it over." seem to realize this. With the seeds of death planted and thriving within them, they go on wasting day after day, pay-ing no heed to flight of time or growth of disease till it is too late.

Carelessness causes much of woman's pe-culiar sickness. Neglect of minor troubles causes serious complications. The slight irregularity—the burning, dragging ache—the debilitating drains that mark the progress of feminine diseases are passed lightly over or are borne in ignorance of their cause. Their continuance means death or E. Willis of Atlantic City shot himself in insanity. Most of insanity among women comes from this one cause. It is all unnecessary. So called "female weakness" can be cured. Cured positively, permanently, quickly, easily, right in the privacy of your own home, without any of the humilating local treatment so uniformly insisted upon by physicians. Dr. Pierce's Favorite Prescription will do it. It has a record of cures as wide as the world. It is known and used successfully in every civilized country on the globe. There is nothing that takes its place. There is nothing "just as good." There is nothing to compare it with. Druggists sell more of it than of all other similar medicines combined.

lar medicines combined.

Copies of Dr. Pierce's Common Sense Medical Adviser are to be given away for a limited time only to those who are wise enough to ask for them. The book is for family use. It is all that its name implies. Its language is plain and modest. The illustrations,—over 300—have passed the test of the eye of one of the most thorough physicians in the world. This book tells about the symptoms of ailments that visit every family. It tells how to treat these symptoms, how to ward off serious consequences. This most useful book may be secured in strong paper covers by anyone who will send 21 one-cent stamps to pay cost of mailing only. It may be had in French cloth binding with embossed covers for 10 cents extra (31 cents in all).—Address, World's Dispensary Medical Association, Buffalo, N. Y.

The magnificent gown which she wore when she was painting the deplorable condition of the American people at \$40 per speech, and which the bankers' wives had so envied, was a creation of Worth, the great Paris dressmaker, and imported by Mrs. Lease to be worn when she addressed the poor, down trodden farmer. Little did the bankers' wives dream that they were feasting their eyes upon a real Paris made dress. It was a treat such as they had never before seen. But it told a great big story. It tells why \$487 in good American gold was shipped to Europe by the Jew money changers whom she so roundly abused. It tells why American workingmen and working women are idle for want of work. It tells why Mrs. Lease denounces the protective for free silver at \$40 per night. FALSE OR FOOLISH.

Bryan Is One or the Other In His Predic-

tions About Gold. If Mr. Bryan continues to allow his rhetorical powers to have full swing, he will make so many false statements be-

fore election day that his present sobriquet will be exchanged for that of "the Boy Ananias." His recent assertion that "if we have

a gold standard prices will go down" is one of those statements which are as close to a direct falsehood as anything in the nature of a prediction can be. If Mr. Bryan consulted statistics, which are readily accessible, he would find that the facts incontrovertibly disprove his statement.

The gold standard went into effect in 1879 by the resumption of specie payments. In that year the average export price of wheat was \$1.07. In 1880 it was \$1.25; in 1881, \$1.11; in 1882, \$1.19; in 1883, \$1.13; in 1884, \$1.07. In 1879 the export price of cotton was (in round figures) 9 cents. In the six years following it ranged from 10 to 11. It was 10 again in 1890 and 1891, just as wheat was \$1.03 again in 1892. The export price of butter was 5 cents higher in 1894 than in 1879, and that of cheese nearly 1 cent higher. Wages also advanced after 1879 till free trade doctrines and a Democratic tariff impaired the confidence of capital and blighted

our prosperity. Mr. Bryan knows he is falsifying, or he is not sufficiently acquainted with the facts of our economic history to pose as an adviser of the people. He must accept one horn of the dilemma. -Boston Traveller.

The effort of Chairman Jones to escape from Altgeld and his anarchist crew is an evidence that Mr. Jones is honest if misguided. But it is too late for the Popocrats to shake off Altgeld. Altgeld was the controlling influence of the Chicago convention. He made the platform; he made Jones; he made Bryan. Jones is a figure for the campaign only. Bryan and the platform are things to endure if Mc-Kinley should be defeated. And Bryan has not repudiated Altgeld and anarchy, repudiation and revolution, piracy and pred-
