

ENDS IN BLOODSHED.

FIVE KILLED IN THE MINERS' WAR AT LEADVILLE.

And Half a Dozen Wounded, With Damage to Property to the Amount of \$25,000 Are the Visible Effects of the Attack on the Coronado and Emmett Mines.

LEADVILLE, Sept. 22.—Five dead bodies lying at the morgue and half a dozen wounded, with damage to the amount of \$25,000 are the visible effects of Sunday night's lawlessness. It is believed that when all is known the list of dead and injured will considerably exceed these figures. Everything is quiet now, the camp being practically under military rule. The fifth name was added to the death list at 6 o'clock last evening by the discovery of the body of Michael Daugherty on the ground near the Emmett mine, where he fell in the attack of the rioters upon the Emmett mine while flushed with their victory at the Coronado. There were many people in upper windows and on house roofs, who in the brilliant moonlight, saw the attack on the Emmett and the repulse of the rioters. These watchers say that the first volley from the mine was delivered at close range and that the attacking party fell like grain before the sickle. How many will be the fate of Daugherty it may remain for time and a search of long abandoned shafts in that vicinity to tell. It now seems that the rioters dragged away their dead and wounded. The story of the defense of the Emmett is a thrilling one. Easily accessible and surrounded only by a light board fence, it seems wonderful that it was not quickly overwhelmed, its men slain and the buildings demolished.

But the 15 bucket found in Daugherty's body and the story of the fearful effect of the first volley from the mine tells how quickly the rioters lost stomach for the blood business. Had this mine been blown up the great pumps which drain it and many other mines would have been destroyed and the ensuing damage frightful to contemplate. The riot, and particularly the attack upon the fire department, has destroyed much of public sympathy for the strikers and this fact was evidenced at a largely attended meeting of representative citizens this afternoon. Their proceedings were secret, but it is understood stringent measures were decided upon. Two companies of state militia from Pueblo and Cripple Creek, all under command of Colonel McCoy, arrived at 4:50 yesterday afternoon and are now on duty. General Brooks, with several other companies have arrived.

The damage at Coronado by the burning of the oil tanks, boiler house and machinery is now estimated at \$25,000, on which is \$12,500 insurance. The houses burned were valued at \$3,000, with no insurance. Despite the presence of troops and the usual quietness of the streets, there is a very uneasy feeling prevalent it being asserted that there are 500 Winchester rifles in the hands of the strikers, whose repeated threats against the military are recalled with alarm. It is the general belief, however, that there will be no further trouble unless the managers begin importing miners.

Small Improvement in Trade. NEW YORK, Sept. 19.—Bradstreet's trade review says: The moderate improvement in trade the past week is emphasized by further speculative purchases of wool, renewed buying by wool manufacturers, the reduction of surplus stocks of cotton goods, increased demand for seasonable fabrics, continued confidence among manufacturers of iron and steel that there will be an early revival in demand and improved demand in request for staple goods in the south Atlantic and Gulf states. The volume of sales of general merchandise shows a small gain over last week and the feeling among wholesale merchants is one of more confidence in a comparatively early improvement.

Odd Fellows in Session. DALLAS, Tex., Sept. 22.—The 72nd annual session of the sovereign grand lodge of the I. O. O. F. was called to order by Grand Sire J. W. Stobbs. The roll was called and showed 89 grand lodges and 20 grand encampments and representatives on the floor. Proceedings were then formally opened with prayer by the grand chaplain, Rev. J. W. Venable of Hopkinsville, Ky. After the appointment of the standing committees the grand sire delivered his annual communication.

Silver Service for Indiana. NEW YORK, Sept. 21.—A party of prominent citizens of Indiana has arrived here. They came here for the purpose of presenting a silver service and library to the United States battle-ship Indiana, which is now lying off Tompkinsville, S. I., under the command of Captain Robley D. Evans, better known by the cognomen of "Fighting Bob." The silver service will be formally presented by Governor Matthews to Captain Evans, but it will be received by Assistant Secretary of the Navy McAdoo.

Four Powder Mills Blown Up. SPRINGFIELD, Mass., Sept. 20.—Four powder mills at Hazardville, Conn., were blown up today. Lightning struck one mill and the explosion set fire to the other three. No one was killed or injured. Thousands of panes of glass were broken in buildings of the town and the shock was so great that even at the distance of Springfield it was supposed at first to be an earthquake.

Sovereign's Labor Bureau. CHICAGO, Sept. 22.—Grand Master Workman J. R. Sovereign of the Knights of Labor has established in Chicago a national labor bureau in the interest of Bryan and Watson. He will be assisted by a number of prominent labor leaders and will pay especial attention to the campaign in Chicago.

Death of Bishop Marty. ST. CLOUD, Minn., Sept. 20.—Bishop Martin Marty of the Catholic diocese of St. Cloud, formerly bishop of Sioux Falls, died suddenly this morning.

President Estruziz is Installed. VALPARAISO, Sept. 20.—Frederico Estruziz was installed as president of Chile, in Santiago, yesterday, with all the pomp due to the event.

Sargent Re-Elected. GALVESTON, Tex., Sept. 24.—The Brotherhood of Locomotive Firemen today re-elected all the grand officers, headed by Grand Master Sargent.

AN ADVANCE IN RATES ON CORN.

Western Roads Have Reached an Agreement for Transmissouri Territory.

CHICAGO, Sept. 20.—The western roads have agreed to an advance in rates on corn from Transmissouri territory to the Mississippi river and Chicago and also to New Orleans and Galveston. The advance from Wichita and southern Kansas points to the Mississippi river and to the Gulf ports will be 7 cents per 100 pounds, but from other points, where the reduction has not been so great, the advance will vary at from 3 to 5 cents. The present rate from Wichita to St. Louis is 7 cents, and therefore with the 7 cents advance the new rate will be 14 cents. This is still 8 cents less than the tariff which was in effect before the roads forced the low rate on the western roads.

Wheat and provision rates, it is understood will be advanced sufficiently to maintain the relative difference above the corn rates. The foregoing advance in rates applies only from Transmissouri points and Kansas on through business and does not apply on grain from Missouri river points proper to Chicago locally. An effort was made to secure an advance in these rates also, but the roads east of the Missouri river were unable to agree, and therefore the rates between the Missouri river and Chicago will remain as at present.

FOUR MEN KILLED IN A WRECK.

Freight Train at Full Speed Dashes Into a Pay Car.

INDIANAPOLIS, Sept. 19.—Four men were killed and a number of others badly injured this morning in a wreck on the Cincinnati, Hamilton and Dayton near Connersville, Ind., about 40 miles east of here. The dead are: ENGINEER CHRIST SWERTMAN, Dayton. FIREMAN KENSLEY, Cincinnati. CONDUCTOR GEORGE HOUSE, Indianapolis. FIREMAN HUGHES, Hamilton.

The injured: Paymaster Jansen, badly hurt. Assistant Paymaster Scallon, slightly hurt. Porter Elshack, of pay car, badly hurt. E. Wyzong, foreman bridges and buildings, badly hurt. Roadmaster J. M. Rourke, slightly injured. Engineman Connor, Hamilton; supposed to be fatally hurt.

The accident was one of the worst that has happened in this part of the state for years. The pay car was following the regular freight train No. 35, eastbound. Both were running as extra trains.

Star Pointer's Fast Race. MEDFORD, Mass., Sept. 19.—Star Pointer at Mystic park not only beat two accredited faster horses—Robert J., 2:01 1/2, and Frank Agan, 2:03 3/4, but paced the three fastest heats ever made in competition, the times being 2:02 1/2, 2:03 1/4, and 2:03 3/4. He also lowered the world's record for the fastest quarter and half, 0:29 3/4 and 0:59 3/4, respectively.

Killed in a Collision. MEADVILLE, Pa., Sept. 22.—Two freight trains on the Erie railroad collided in a fog near here. Edward Harris and M. E. Carland, both of Englewood, Ill., were caught in the wreck and killed.

World Breaks the Record. NEW YORK, Sept. 20.—Eddie Bald, the bicycle rider, broke the world's unpaired record for a half mile in the first event at Manhattan Beach today; time, 1 min. 1-5 seconds, starting from scratch.

Emma Ashley Acquitted. SAN FRANCISCO, Sept. 24.—Miss Emma Ashley, who shot at E. J. Baldwin, the milkman's horseman, in court and narrowly missed killing him, has been acquitted.

Superintendent Dickinson Dead. SEYMOUR, Ind., Sept. 24.—Albert Wright Dickinson, for several years general superintendent of the Missouri Pacific railway, died at his home of paresis; aged 76 years.

Timewood Smashes a Record. RICHMOND, Ky., Sept. 23.—Louis Neale's yearling pacer, Timewood, by Time Onward, dam by Nutwood, broke a world's record here by the reeling off a half mile in 1:12 flat, over a half-mile track, in easy fashion. The colt will be sent against the official record by Belle Acton during the Lexington meeting.

Saw a Small Bright Comet. CAMBRIDGE, Mass., Sept. 23.—Dr. Lewis Smith of Lowe observatory, California, announced to Harvard college observatory that on Sunday night he saw a small bright comet, one degree east of the sun. On Monday evening, the object was north of the sun and fainter.

Mrs. Barnum's Greek Husband Dies. BRIDGEPORT, Conn., Sept. 23.—A cable dispatch from Constantinople announces the death of Callias Bey, who recently married the widow of P. T. Barnum. Mme. Callias is now on the ocean, having been notified last week of the serious illness of her husband.

Kansas City and Omaha Incorporated. LINCOLN, Sept. 18.—Articles of incorporation were filed with the secretary of state by the Kansas City and Omaha Railway company. The capital stock is \$3,000,000. The new company proposes to run its lines from Fairfield, Clay county, its principal place of business, through the counties of Clay, Fillmore and York, or parts thereof, to Stromsburg, Polk county; and from Fairbury, Jefferson county, through the counties of Jefferson, Saline, Fillmore and York, or parts thereof, to McCool Junction; and from Alma Junction, Clay county, through Clay, Adams, Kearney, Phelps and Harlan to Alma, Harlan county.

Last Crop Bulletin for '96. LINCOLN, Sept. 20.—The Nebraska weather and crop bureau issued the following bulletin—the last of the season: Corn has made fairly good progress and with the exception of the latest pieces is entirely beyond danger of injury by frost. In some localities shucking has commenced, and the yield is reported as unusually large. The wet weather of the week has retarded threshing in localities where this work has not been completed, and interfered with having, a considerable of which crop is yet to be secured in some portions of the state. Sugar beets and chichory need dry weather to mature. Pastures are excellent. The rains of the week have placed the ground in fine condition for plowing and seeding, and much of this work has already been done. A goodly acreage of winter wheat and rye are being sown and some pieces are already up in fine condition. The crops have matured so far that they are practically beyond reach of any further effects due to the weather.

BATTLE ON THE NILE.

ANGLO-EGYPTIAN SOLDIERS DEFEAT THE DERVISHES.

Shell From an Egyptian Battery Enraged His Tent—The Maxim Guns of the British-Egyptian Troops Did Great Execution in the Banks of the Dervishes.

CAIRO, Egypt, Sept. 20.—A special dispatch from Kerma, the Dervish post on the Nile, announces that the troops of the Khedifa evacuated that place when the Anglo-Egyptian forces arrived there today. The garrison of Kerma crossed the river and took up a position at El Hafir, on the western side of the river. The dispatch adds that the Sirdar shelled the enemy's position on the east bank and that under the cover of this fire three gunboats passed up the river on the way to Dongola, sinking the enemy's steamer and inflicting heavy loss upon the dervish. Naval Commander Colville was slightly wounded, and an Egyptian officer and three men were wounded. The steamer El Teh struck the rocks at the south end of the Hannek cataract. The Sirdar remains at Kerma with the main forces, awaiting further news of the enemy.

KERMA-ON-THE-NILE, Sept. 21.—Dongola has fallen and the nominal objective point of the British-Egyptian expedition has been reached. The forces of the British-Egyptian expedition on pushing up the Nile from El Hafir, landed a force at Dongola and occupied that place before the Dervish forces retreating from El Hafir reached that point. El Hafir and Dongola are therefore both in the hands of the expedition, while the Dervish forces are somewhere between, seeking refuge.

TERRIBLE LOSS OF LIFE.

Kobe, Japan, Wiped Out by Fire, Flood and Storm.

SAN FRANCISCO, Sept. 23.—The city of Kobe, Japan, was recently wiped out by a disastrous conflagration on Aug. 26, and floods, storms and earthquakes caused the loss of 2,500 lives and the destruction of millions of dollars worth of property in northern Japan. The steamer Doric, from the Orient, brought news of a series of catastrophes that have befallen the Mikado realm that are unprecedented in its history. In Gifu prefecture 4,300 houses were blown down, and along the Haji-Gawa 400 persons lost their lives. The severest storm occurred on Aug. 30. Along the Iatsunawa, 34 lives were lost. The great flood was preceded by a severe earthquake. Then followed a down-pour such as has never before been experienced on the island.

The European residents were panic stricken and sought shelter on the highlands. The Minatogawa overflowed its banks at midnight of the 26th nit, and the waters inundated streets and fields, sweeping away 300 houses and drowning 200 persons at Kobe. After 9 hours work the broken embankments were repaired by sandbags. To the fate of Kobe worse, a fire broke out late in the evening, and fanned by the high wind, spread over the entire city. One thousand and nine hundred blocks, including 2,200 houses and were destroyed.

UNION PACIFIC COLLISION.

Salt Lake Express Runs Into a Mixed Train Near Butte, Mont.

BUTTE, Mont., Sept. 21.—By a collision between the Union Pacific express due here at 11:35 a. m., and a mixed train on the Montana Union, bound for Anaconda, near Rocker, four miles west of here, at 11 o'clock Sunday morning, the engines of both trains and express and smoker of the Union Pacific were wrecked and the following hurt, more seriously: John Murray, Leadville, Colo. Dan Green, Leadville, Colo. Quinn J. Murphy, Red Cliff, Colo. Joseph O'Brien, Butte, Mont. Charles J. Justice, San Francisco, Cal. J. H. Elliott, Baker City, Or. Julius Jacobs, Butte, Mont. M. M. Burdick, news agent. H. E. Fisher, baggage man. A. J. Jones, mail clerk.

The engineers and firemen saved themselves by jumping. The accident is attributed to a conflict of orders.

Fast Bicycle Time.

CHICAGO, Sept. 23.—At the Coliseum bicycle races S. H. Wilson covered 27 miles, 775 yards in one hour. He made the 3 miles in 64 minutes, 35 seconds. Both are American records.

Postponed Yacht Race Sailed.

CHICAGO, Sept. 23.—The twice postponed race between the yachts Venecor and Siren was sailed today, the former winning by about six miles. The course was 47 miles.

It is a mother's duty to crown her child with that greatest blessing any human being can possess—good health. This she can only do by taking proper care of herself prior to the child's birth, and especially during the period of gestation. Too few women realize the importance of their own health. Too few understand that the health of their children is dependent upon the vigor and health of the organs of reproduction. A woman who is to become a mother owes it to her offspring to take thought of the most important and delicate organs of her body.

Every woman may be strong and healthy in this respect and insure the health of her child by taking Dr. Pierce's Favorite Prescription. It is designed for the cure of weakness and disease of the organs distinctly feminine. It is the best medicine for this purpose in all the world. More of it is sold than all other similar medicines combined. Thousands have testified to its beneficial effects. It allays inflammation and restores the organs to their natural, regular, healthy action. It makes the coming of baby easy and comparatively painless. Mrs. Rachel Clark, of Houston, St. Croix Co., Wis., writes: "I am a good head since I have taken Dr. Pierce's Favorite Prescription. I have taken three bottles, which cost me one dollar each. I gave birth to a 2 1/2 pound boy last June. He is six months old now, and weighs 9 pounds and has two teeth. He had no trouble in getting them." A clear complexion. Any one can have it who keeps the blood pure. Constipation causes impure blood. Dr. Pierce's Pills cure constipation. One or two laxative, two a cathartic. Never gripe. Druggists sell them.

SAVING THE NATION.

[Tune "Marching Through Georgia."] Bring the new hand wagon, boys, we'll sing the people's song.

Sing it with a spirit that will push the world along. Sing it as 'twas never sung by such a hungry throng, bent upon saving the nation. Chorus. Hurrah, hurrah, for Major McKinley. Hurrah, hurrah, Hobart and the G. O. P. Protection, reciprocity and sound money, too. We must have in saving the nation. Yes, the men and women too will cast away all fears. When they hear the factories and mills start up 'mid cheers. The farmers and the merchants will pay debts they've owed for years, happily saving the nation. Chorus. Good-by to bankrupt treasuries and free trade Grover C. Go down the Thames a fishing with your foreign policy. Take along your cabinet, and all stay o'er the sea. You're no use in saving the nation. Chorus. Say, you've heard of Bryan boy, who blows of currency? When he gets his eyes open, O, how surprised he'll be. While he was blowing soap bubbles upon his mama's knee, McKinley was saving the nation. Chorus. Soon we'll take triumphantly the nation's favorite son From his home in Canton to the chair in Washington. Tho' the Demo-Poppies don't believe in protection He'll use it in saving the nation. —Would-be Laureate in Grand Rapids Herald.

QUESTIONS AND ANSWERS. Reply to a Farmer Who Wants Some Information. To the Editor of The Press. Sir:—The gold standard and protection men tell us that as soon as they are in office wages and prices will be better on account of the tariff bill they will enact. Where is the farmer to come in? Wages are to be better, which means that he will have to pay more wages. Prices will be better (that means manufactured articles, for they only are to be protected), which means he will have to pay more for clothing, farming implements, etc., and sell his farm products at the same old price or less, for they have been growing less for years—cotton in the south, wheat and corn in the west. He is, therefore, worse off, is he not? I am no kicker, but want to know the why. FARMER. Philadelphia, Aug. 20.

The farmer has a vital interest in the prosperity of the country. He is prospered, gets good prices, when the country is prosperous, when the mines and mills are at full work, railroads are constructed, and new enterprises engage the capital and labor of the country and surround the farmer with a host of consumers, willing and able to pay good prices for his products. Prices of farm products are low and the market for them is weak because the consumers are out of pocket. They eat less and cheaper food. Up to four years ago farm products brought as good prices as they ever did, except wheat, cotton, and a few other staples, whose prices are determined by the sharp competition of the foreign market. Mr. Lucian B. Swift of Indianapolis has tabulated the prices of farm products in Indiana from 1873 to 1892. The currency prices are translated into gold and then show what the farmers of Indiana, and approximately the farmers of the whole country, realized in gold on six leading products from 1873 to 1892. The showing is as follows:

Table with columns for years (1873-1892) and prices for various commodities like Corn, Oats, Wheat, Rye, Potatoes, Hay, etc.

It will be seen that in only one of these products—wheat—did the farmer receive less in 1892 than in 1873. The assumption that the demonetization of silver is the cause of the fall in farm products is contradicted, therefore, by the facts. After 1892 a change came about. The Democrats carried the national election, the assault on the tariff began, industry all over the land was prostrated, and has not been able to recover under the Wilson tariff law and the deadly assault which a Democratic-Populist party is making on the integrity of the currency.

If the farmers will help the Republicans repel this assault on the standard of value that has served this country since 1852 they will be helping themselves. The triumph of McKinley with a working majority in both house and senate means that our currency will remain, every penny of it, as good as gold; that the deficiency in the national revenue will be overcome, a protective tariff enacted, industrial activity restored all over the land and farm products will rise in value under increased consumption and a rising demand.

The reverse of this is all dark. No country civilized or barbarian ever attempted what the Democratic-Populist party propose—a sudden drop in the standard value, 50 per cent. Confusion worse confounded will rule; business will suffer a long stagnation before it recovers from the shock. In the end, doubtless, the farmer can adjust himself to a Mexican-Chinese cheap silver currency, but wherein is his prospect of benefit? It is an awful leap in the dark, and all men of good judgment, whether farmers or who they not, will join in opposing this wild departure and do what they can to maintain the existing gold standard and secure the return of prosperity—Philadelphia Press.

The Groveville carpet mills at Poughkeepsie, N. Y., comprising twelve big buildings, built by the A. T. Stewart estate, have been purchased by Edwin Gould for \$450,000. He will operate them as a match factory. MECCA CATARRH REMEDY. For colds in the head and treatment of catarrhal troubles this preparation has afforded prompt relief; with its continued use the most stubborn cases of catarrh have yielded to its healing power. It is made from concentrated Mecca Compound and possesses all of its soothing and healing properties and by absorption reaches all the inflamed parts effected by that disease. Price 50 cents. Prepared by The Foster Mfg. Co. Council Bluffs, Iowa. For sale by A. F. Streitz.
