Finest Wines, Liquors and Cigars at the Bar.

Our billiard hall supplied with the best make of tables and complete attendants will supply all your wants.
KEITH'S LOCK, OPPOSITE THE UNION PACIFIC DEPOT

IRRIGATION FAIR NOTES.

Ten additional stock pens were erected on the grounds yesterday.

P. W. Sitton yesterday began the erection of his booth on the grounds.

Work on the sixty-four foot extension to the grand stand began yesterday.

A Mr. Johnson of Gering, arrived Saturday with two horses which he has entered in the trotting races.

The prize catfish which it was expected would be on exhibition at the Irrigation Fair, died at the state fisheries a few days ago.

A crate of pigeons for the shooting tournament of the North Platte gun club was received from Grand Island yesterday.

Entries have been made in each of the bicycle races, among the men entered being several of the swiftest riders in the state.

A half dozen racing horses are already quartered on the fair grounds and a number of others will arrive within the next week.

The hydraulic ram, which by the way is one of the largest manufactured here yesterday from Billings and will at once be placed in position.

Applications for fifteen swine and sheep pens were received by Secretary Seeberger yesterday. The association finds that a number of additional pens must be built.

Victor Meyer has completed his pump house at the northeast corner of the grounds near the lake. Mr. Meyer will have an extensive display of windmills and pumps.

Dick Kellner has secured several additional boats which he will place upon his lake for the use of those who desire to use them. Next season Dick will probably invest in a steam yacht.

The entertainment given Friday evening by the Sutherland ladies' auxiliary of the Irrigation Fair proved a pleasant event for the people of that village. The receipts were fifteen dollars.

Mrs. Chas. McDonald, superintendent of fine arts, feels pleased over the entries which are being made in her department, and believes that the display of work will be very creditable.

The bicycle track at the fair grounds is in better shape than at any time in the past. It is as smooth as a floor and almost hard as rock. It is doubtful if there is a better track in the state.

Commander-in-chief Clarkson of the Grand Army of the Republic, has written Secretary Seeberger that he will attend the reunion to be held in connection with the Irrigation Fair. The fact that Major Clarkson will be here will serve to increase the attendance of old veterans, all of whom will want to grasp the hand of their commander-in-chief.

The exhibit of farm products promise to be exceptionally fine. Sutherland, Hershey and Kearney will each contribute a carload. Cheyenne, Deuel and Keith counties have also promised to contribute liberally, and Banner and Frontier counties will be represented by several wagon loads each. Secretary Seeberger feels confident that the large exhibition hall will be chuck full of exhibits.

One of the curious features of the present campaign is to be seen in the fact that Bryan draws the largest crowds where he is likely to get the fewest votes in proportion to the whole voting population.—Ex.

THE REPUBLICAN RALLY.

The republican rally held in this city Saturday evening proved the largest and most enthusiastic political demonstration of this campaign. It gave evidence that the republicans are wide awake and aggressive, and that their enthusiasm presages victory at the polls on November 3d. In the early part of the evening a torchlight procession was held, with C. F. Scharmann as marshal, and David Scott and A. F. Hammond as aides. The procession was headed by the cornet band and following this organization was the Cady Escort Club, with Will Hendy and Walter Hoagland as lieutenants. This club has a marching yell, and the members used their voices in a very enthusiastic way. Following the Cady club was the regularly organized republican club and at the rear was a contingent of juvenile republicans. Actual count of the voters in line made the number 164. A number of transparencies, bearing striking inscriptions were carried in the procession. The line of march covered the central part of the city, and the parade was lustily cheered by the people lining the sidewalks. A number of residences along the line of march were nicely decorated and they were cheered with vigor by the men in line.

The parade broke ranks at 8:30 and the crowd madets way to the opera house, and in a few minutes every seat in that building was occupied and standing room was at a premium. In the audience were many ladies who during the speaking gave vent to their enthusiasm by the waving of small flags. The meeting was called to order by Chairman French, who introduced the orator of the evening, the Hon. Ben Butterworth of Ohio. As the speaker stepped forward he was greeted by uproarious applause. Mr. Butterworth is an eloquent, logical, and convincing speaker, and gaining the attention of the audience at the start he kept it all through his speech; hardly a dozen people leaving the hall during Mr. Butterworth's talk. The speech was free from abuse; the speaker presented the facts as they existed under republican administration and compared them with the existing conditions of to-day, allowing his hearers to draw their own conclusions. It was a plain, practical talk that appealed to the intelligence of the audience and we are satisfied the speech resulted beneficially to the republican party of Lincoln county.

The Wilson tariff law which Mr. Bryan helped to enact reduced the duty on Mexican cattle imported into the United States from \$7 to \$2 per head. If Mr. Bryan had had his way he would have thrown the doors open wide to the admission of Mexican cattle free of duty. When Bryan had a chance to show his devotion to the interests of the American farmer, this is the way he improved it.—Bee.

DEAFNESS CANNOT BE CURED by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube rest to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. Cheney & Co., Toledo, O. Sold by all Druggists, etc.

LYOYD'S OPERA HOUSE.

ONE PERFORMANCE ONLY.
SATURDAY OCT. 3.
EVENING . . . OCT. 3.

ANOTHER SUCCESS!

To hold, as well as win success. Keep all your play-bill promises.

PRICES 50 AND 75 CENTS.
Seats on sale at Clinton's.

IDLE WORKS RESUMING.

The last issue of The Iron Age, which is the accepted authority on all matters pertaining to the iron industry, contains the following article:

One after another the idle iron and steel works are staggering into line and endeavoring to put on an appearance of activity. The resumption during the past week has been particularly marked. It is exceedingly cheering to note the dispatches in the daily papers from various points, giving news of this character and stating the number of men who are again being given employment. The increasing confidence in the defeat of the unlimited coinage of silver, the continuous influx of gold from abroad and the better feeling in financial circles are all having their effect on general business, and specifications are at last being received by manufacturers on contracts previously placed. Few of them are starting up under sressure, however, but if the truth were known it would be that practically all of them are re-lighting their fires with but little work actually secured. They know, however, that confidence is contagious, and hope that the fact that they are again running may induce more of their customers to place orders as usual. Under the circumstances it is not well to be too jubilant over the apparent revival in trade. Two or three weeks hence we can form reliable opinion of the permanence of the movement than at present. The reopening of these works however, answers one very good purpose in disposing of the canard that the manufacturers have systematically shut down their works to coerce their employees into voting against free silver, and that they have threatened to keep them closed after election if free silver should win. No manufacturer willingly suspends operations. He is only to glad to keep his works going, and will often make costly sacrifices for that purpose.

Vice President Brooks of the Pennsylvania railroad in a speech at Terre Haute, Ind., last Thursday, challenged the silver syndicate to substantiate its charge that the company was coercing its employees, promising that the company would bear the expense of prosecution if its charge were sustained in court.

The love which the great silver mine owners syndicate bears for the poor working man does not prevent it from filling the places of the striking Leadville miners with new importations of non-union labor.—Bee.

Senator Teller replies to the charge that he is interested in silver mining by saying that the mine of which he is a part owner is not being operated, and he doesn't know what it is worth. The logic of such a defense recalls that of the boy who insisted that he should not be punished for fishing on Sunday because he was not catching anything.

Condensed Testimony. Chas. B. Hood, Broker and Manufacturer's Agent Columbus, Ohio certifies that Dr. King's New Discovery has no equal as a cough remedy. J. D. Brown, Prop. St. James Hotel, Ft. Wayne, Ind., testifies that he was cured of a cough of two years standing, caused by a grippe, by Dr. King's New Discovery. B. F. Merrill, Baldwinville, Mass., says that he has used and recommended it and never knew it to fail and would rather have it than any doctor, because it always cures. Mrs. Hemming 222 E. 25th St., Chicago, always keeps it at hand and has no fear of croup, because it instantly relieves. Free Trial Bottle at A. F. Streitz's drug store. 3

DOLLARS DOING DOUBLE DUTY.

We might give you quite an essay on the silver dollar and gold dollar, but we won't, not to-day. We'll only speak of the plain, ordinary, every-day dollar of trade as we get it and know it, and spend it, whether it's gold, silver, paper or change.

And on the line of argument presented last week, we'll just drop a word of suggestion that any old dollar will do double duty if you will deposit it with us. We are opening new goods every day, and in the course of two or three weeks will be able to place before the people the finest assortment of Dry Goods, Cloaks, Boots, Shoes, etc., ever shown in the city.

Yours for business,

THE FAIR.

Richards Bros. Prop's.

REPUBLICAN MEETINGS.
