bru -ed. The collision occurred between the

second section of an excursion train bound west and the 'Frisco Valley Park accomodation. From what can be learned, the accident was the result of disobedience or neglect of orders on the part of the excursion train crew, who should have remained at Spring Park for orders and to have let the accomodation train through.

#### Engineer Disobeyed Orders.

The excursion train was the second section of a special bound for St. James, Mo., 100 miles west of St. Louis, where the Missouri home for aged veterans was dedicated Sunday under the auspices of the G. A. R. and Womans' Relief corps. The first section had gone through safely and the second, which consisted of 11 coaches heavily and children, left St. Louis about 9 o'clock, According to J. D. Dishman, the telegraph operator and station agent at Spring Park, it should have stopped at that place for orders. Instead of doing so the section passed by the station and soon after met the accommodation from St. Louis union station. There over the mountains of the island he was was only one car, a combination bag- set upon by bushmen and slain, together gage and coach, on Engineer Hohl's with three others. During the despertrain, but the collision was terrific, ate conflict which followed the assault, leader, died suddenly-The dead body of both engines being demolished and a many of the party were dangerously an old man named Gla-son was found number of the cars telescoped. The wounded. wreckage was piled high on the track, and above the sound of escaping steam could be heard the cries of the frightened and injured passengers.

Scalded and Crushed.

Next to the engine of the excursion train was the commisary car filled with refreshments. Barney McKenna was in charge of the edibles and with him scalded and crushed. A number of pas- ate of justice. sengers, mostly young men, were in groups around the temporary counter eating and drinking. Almost all were Caused by Better Cables, Strong Northeither killed or injured. This and the next car, in which were 70 passengers, suffered the worst damage and most of the killed and injured were taken from them. Engineer Hohl of the accomodation, which was running on time, was killed and his fireman, Frank Hasler, badly injuved.

President Cleveland at Princeton. PRINCETON, N. J., Oct. 23 - The historic Princeton during the past three days will be a part of the United States history. Nearly every event was the celebration of the university's sequi centennial. Historically it was a congress of nations-formed by the best brains of those nations. Learned savants from the shores of France, renowned scholars from metaphysical old Germany; living personifications of the countries of lore embraced within the walls of ancient Oxford, touched elbow and elbow and drank great toasts together. Pre-eminent among all stood the chief executive of this nation. President Cleveland. Necessarily the president was the main speaker of the day, and nearly every man is saving he made the oratorical effort of his life. He spoke in Alexander hall to a multitude, comprising representatives of nearly every great institution of learning in the world, and men of mark in other walks of life. His theme was "The duties and responsibilities that college men and educated men generally owe to the cause of good government."
