THE farmer who does not boom the sugar beet stands in his own way to success. This industry, which has passed the experimental stage in Nebraska, will be the means of making this one of the most prosperous states in the Union.

THE business of farming in Spain is so much depressed that the government is about to devote \$1,200,-000 to the relief of that industry. It will be a decided benefit to Spain when it ceases to rely on rich colonies for support and learns to make the best of its own resources.

ONE of the results of a Greater New York will be the wiping out of fifty-four postmasters, most of which pay a good salary. Probably more men will be needed to handle the mails in the same territory but many towns and villages will miss their old time political digni- Record. tary.

IT is now given out that William Neville will take his seat as a judge of the supreme court. The vote on the constitutional amendment has been referred to a committee of the legislature and it is given out that the committee will declare the amendment carried, although the true. Disease makes a man just as helpless as if he were tied with ropes. Weary lassitude makes his muscles useless-sluggish circulation of impure blood fills his brain with useless clogging matter. Effort is distasteful and brings scant results. The trouble usually starts with the digestion. Too much brain work takes needed blood from stomach to head and retards the stomach's work. The body is not fed. The nerves rebel. Sleep becomes a stranger. Loss of appetite is followed by loss of flesh-and all for the want of the right medicine at the right time. Dr. Pierce's Golden Medical Discovery is for the man who is losing flesh and vitality. It is for the man whose digestion needs help and whose nerves and brain are overworked. It is the greatest of all tonics. No matter what seems to be your trouble, the "Golden Medical Discovery' will cure w. It cures by making the blood pure, rich and plenty, and by furnishing food for nerves and brain. Nothing has ever been found to equal it, but lishonest druggists sometimes try to make you believe that something more profitable to them is "just as good." Do not be deceived. Get what you ask for. Constipation if neglected brings with it a train f maladies that unfit the sufferer for either the duties or pleasures of life. Sick and billious head-aches and a multitude of other ills are due to contipation. Dr. Pierce's Pleasant Pellets cure con stipation promptly and permanently. Druggists sell them. Nothing else is " just the same."
