Six million names were attached to a petition presented to congress this week asking that the Cubans be recognized as belligerents. There are indications that the petition will be granted.

GOVERNOR SI has been invited to speak at the Tammany Fourth of July celebration in New York city. The Kearney Hub thinks there are some people who would not consider the invitation a compliment, considering the source.

THE annual convention of the Nebraska republican league will be held at Omaha on the 29th inst. for the purpose of selecting delegates to represent the state at the national league convention to be held in Detroit in July.

DEMOCRATIC leaders in the line of states through which Mr. Bryan proposes to trail westward from New York in his new speech-making tour remember with some wife and daughter between 4 and 5 anxiety the fact that more than three-fourths of the states which he visited went republican by increased majorities.

Advices from Europe indicate that the bimetallic commission recently sent abroad by Presidet Mc-Kinley is doing good work. Its presence there is evidently bringing renewed activity among the friends of bimetallism. Recent meetings of bimetallists in England and France have not only showed unusual interest, but have been at tended with expressions of favor and co-operation by leading British officials.

Populist Bryan and his fiat associates who obtained control of the democratic party at Chicago last July are now proceeding to kick out of its ranks everybody who does not agree with them. In practically every call for state conventions, announcement has been made that only those who voted for Bryan in 1896 or now subscribe to the principles of the platform are eligbile to participate in primaries or con-

THE assertion that a silver standard would improve our commercial relations with other parts of the world which was made frequently during last fall's campaign has received a very black eye by the recent statements of President Pierola of Peru and high Japanese officials. Both Japan and Peru, as is well known, have within the past few months adopted the gold standard, and curiously the chief reason assigned by their officials for this action is the fact that the fluctuations of silver as a standard money worked great disadvantage to them in their commercial relations with other parts of the world.

"LET me tell you, my countrymen, that resuscitation will not be promoted by recrimination. The distress of the present will not be relieved by distrust of the future. A patriot makes a better citizen than a pessimist. And we have got to be patient. Much as we want to move out of the old house, we cannot do it until the new house is finished. A tariff law half made is no practical use except to indicate that in a little while a whole tariff law will be done, and it is making progress. It is reaching the end, and when the end comes we will have business confidence and industrial activity. Let us keep steady heads and steady heart. The country is not going backward, but forward. American energy has not been destroyed by the storms of the past. It will yet and Dace, where several persons were triumph through wise and beneficient legislation."-President Mc-Kinley at Philadelphia, June 2, 1897.

The Semi - Weekly Tribune BOMB FOR M. FAURE.

ATTEMPT IS MADE ON THE LIFE OF THE PRESIDENT OF FRANCE.

At the Very Same Place Where Berezowsky Tried to Shoot the Czar While Driving to a Military Parade In 1867. Bomb Explodes, but No One Is Injured.

Paris, June 14.-An attempt was made Sunday to assassinate Felix Faure, president of the French republic, while he was enroute to Long Champs to witness the Grand Prix.

While M. Faure's carriage was passing a thicket near La Cascade restaurant, in the Bois de Bologne, a bomb, which subsequently proved to be a piece of tubing about six inches long and two inches in diameter, with a thickness of half an inch, charged with powder and swan shot, exploded.

No one was injured by the explosion. A man in the crowd, suspected as the mover, was arrested. He gave his name as Gallet and made only the briefest replies to questions put to him by the police. Gallet said he had no occupation, but resided at Levallers-Perret. The police are making a thorough search of his lodgings.

The attempt on the life of M. Faure was made on the very spot where Berezowsky tried to shoot the czar while driving to the military review at Long Champs in 1867, and where Francois, a lunatic, fired his revolver at M. Faure on July 14 last. Having this in mind the police took extra precau- from several wounds and was so badly

Blow Up the Governor's House. LEAVENWORTH, Kan., June 12 .- A diabolical attempt was made upon the life of Governor Andrew J. Smith of the National Soldiers' home and his o'clock this morning by some dastard who is yet unknown. Dynamite was employed in the outrage, and the explosion, which all but demolished the governor's beautiful residence, aroused the residents of this city, three miles away, and houses trembled as if undergoing an ear hquake shock.

Mrs. Smith bad a miraculous escape from death, the base of the explosion being directly beneath her bed chamber. Besides being cut and bruised by broken glass and pieces of flying bric-a-brac and furniture, she was completely prostrated by the frightful shock, and is now in a precarious condition.

Governor Smith and their daughter, Miss Daisy, occupied rooms on the second floor and were far enough removed from the explosion to escape the serious consequences suffered by Mrs. Smith. Joseph W. Oliver, a dishonorably discharged veteran, has been arrested.

SHERIFFS ELECT OFFICERS.

Council Bluffs Gets the Next Meeting of the Interstate Association. OMAHA, June 17. - The Interstate Sheriffs' association completed its deliberations this afternoon and most of the members left for their homes on the evening trains. The attendance was swelled this morning by the arrival of a large number of Nebraska and Iowa sheriffs, who came in for the last day of the convention, and the hall in the Barker block was crowded. The main business of the morning was the selection of the location of the next annual convention, and the election of officers. The fight for the 1898 convention was between Council Bluffs and Burlington, Ia., and Council Bluffs was chosen. The election of officers resulted as follows: President, James E. AMBUSH THE BRITISH TROOPS. English Officers and Troops Massacred by

Hostile Natives. BOMBAY, June 12 .- An official dispatch from Simlay, the residence of the Indian government officials during the heated periods of the year, announces serious trouble on the northern frontier and the massacre of a number of British officers and native soldiers in the government employ. From the particulars obtainable at present it seems that two guns belonging to a Bombay mounted battery, and escorted by 300 men belonging to the First regiment of Sikhas and the First Punjab infantry, were treacherously attacked in the Terocha valley by a large force of hos-

tile natives. The first report said that Colonel Bunny, two officers and 25 privates had been killed, and that 3 officers and 25 men had been wounded. In addition, a number of mules and horses were reported killed.

Indications are that the affair is more than a mere conflict with warlike natives, and that the notorious Mullah of Powindah is at the bottom of the trouble.

ROBBED BY HIS FRIEND.

C. D. Collins Lured to His Probable Death Near St. Louis. St. Louis, June 17.—C. D. Collins of Nashville, who said he had but recently disposed of his hotel in that city and had the proceeds -- \$6,000-on his person, was found badly wounded about midnight at Meramac Highlands, 15 miles from this city. He was bleeding injured that he could not be moved. He said he had been stabbed and robbed of the \$6,000 by Martin Ensley, a traveling man whom he had met in Nashville. Ensley was arrested.

It appears that Collins, who is a wealthy Tennesseean, was lured to his probable death by a man he had known since boyhood, and with whom he had been on intimate friendship for six years. His assailant, Martin Ensley of Memphis, whose father, Colonel Enoch Ensley, was one of the most prominent mine owners and planters of the south, induced his companion to visit Meramac Heights. On the plea of illness he led him to a clump of bushes about 75 vards from the hotel. There, stepping behind his victim, he dealt him blow after blow on the head with a hammer which he had purchased, presumably, for the purpose of committing the murder. When the pounding with the piece of steel had reduced Collins to a state of | all are injured. Charles Larson's cotinsensibility Ensley stooped over the prostrate body and tore from a vest pocket a roll of bills that amounted to \$6,000. TRIAL NEARING THE END.

State Is Almost Through In the Case o Ex-Treasurer Bartley. OMAHA, June 13 .- The end of the

Bartley trial begins to appear. The state will on Monday read to the jury the documentary evidence introduced in the case, including the records of the Omaha National bank, the records of the state treasurer's office at Liucoln and records of the auditor's office, all bearing directly upon the transactions ment with which the defendant stands charged. This will complete the evidence of the state, and the defense will

SENATE DOES RAPID WORK.

Dispose of the Agricultural Schedule After a Lively Contest.

WASHINGTON, June 17 .- The senate made rapid work on the tariff bill Wednesday. There were no long speeches and the debate was of a snappy character, which at times enlivened, but did not delay the serious work of the bill. Thirteen pages were disposed of, carrying the senate through the agricultural schedule and up to schedule H, relating to spirits, wines, etc. During the day the paragraphs on dairy products, farm products, fish, fruit, nuts, meat products and miscellaneous agricultural products were acted on. The finance committee proposed many changes, in the main advancing rates somewhat over those heretofore reported. The committee was sustained on every vote. although a contest was made on almost every paragraph. Mr. Vest's motion to restore salt to the free list was rejected, yeas, 24; nays, 31. The important paragraph proposing a tax on tea went over at the suggestion of Mr. Allison, who expressed the hope that the duty on tea might be dispensed with.

Offers Another Autitrust Amendment.

WASHINGTON, June 16 .- The senate made a great stride forward Tuesday, by completing the consideration of the sugar schedule of the tariff bill except the provision relating to Hawaii, which went over. This schedule has been the storm center of the entire bill, and with it disposed of there is a better prospect for speedy action on the bill as a whole. The first paragraph of the sugar schedule has served to bring out all the speeches and the test votes and when this was passed early Tuesday the other paragraphs of the schedule were agreed to without further opposition. As agreed to, the schedule places on sugar not above No. 16 Dutch standard 1 cent per pound and .03 of a cent for every degree above 75 and of sugars above No. 16 Dutch standard 1.95 cents per pound, but on sugars testing below 87 degrees 1-10 cent per pound shall be deducted. The other provisions of the schedule relate to maple sugar, maple syrup, candy, etc.

Made Insane by Infatuation.

Sioux City, June 17 .- Love for Fred J. Vetsch, a clerk in a hardware house, has driven Mrs. Will Lorenz of this place insane. Physicians pronounce her case the most remarkable they ever saw. For many days she has gone every merning to Vetsch's boarding place. She assaulted her husband when he followed her, and nearly died of excitement when the police were called in. She and Vetsch have never spoken a dozen words together.

form of Dr. Pierce's Common Sense Medical Adviser. This book is exactly what its name implies. There are no technical terms, no efforts to show off" a great store of medical knowledge. It is a condensation. There are over 1000 pages, and every page is full of talk about common sicknesses that are known in every family, and how to cure them. Dr. Pierce has studied and practiced medicine for over thirty years. He is the head, the ruling power of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y. He is a busy man, but it's the busy people who are the world's benefactors.

This book is particularly a book for mothers. It will relieve them from many anxieties. The book is fully illustrated. There are colored plates, and plain black and white. For 21 cents in stamps, to pay cost of mailing only, you may have this book in paper binding. For 31 cents in one-cent stamps you may have it in fine French cloth. Address, Dr. R. V. Pierce, at above mentioned institution.
