

NEW HAWAIIAN TREATY

Signed and Delivered to the Senate by the President.

MESSAGE SENT WITH DOCUMENT.

Deals With Historical Facts About the Islands—Sensations White and Pettigrew Announce Their Intention to Oppose Ratification of the Treaty—Japan Protest Against the Agreement.

WASHINGTON, June 17.—The treaty for the annexation of the Hawaiian islands reached the senate at 5 o'clock Wednesday. The senate at once went into executive session, and as soon as the doors were closed the message of President McKinley accompanying the treaty and the treaty itself were read to the senate. They were attentively listened to. In one part of the chamber there was a group of senators who will oppose the ratification of the treaty. Among them were Senators Gray, Mills, Pasco, White, Caffery, Pettigrew and McEnery. As soon as the reading of the documents was completed Senator Davis, chairman of the committee on foreign relations, moved that the message and the treaty be made public. Senator Gray objected to a vote on the motion, and under the rules a single objection carried the motion over. Senator Davis gave notice that at the next executive session he would press the motion for publication, as all the essential facts and almost verbatim copy of the treaty had been published in the press of the country.

Vigorous Opposition.
There was some discussion as to when the treaty might be considered and Senator White asked if it was the intention to push it at this session and upon the reply being made that it was possible the California senator said: "I desire to announce that I am prepared to stay here all summer to prevent the ratification, which I consider a very bad proposition."

"I'll join you," said Senator Pettigrew of South Dakota.

The message of the president was not a very long document. It dealt with historical facts concerning the island and showed that the United States and Hawaii yearly grow more closely bound to each other. This was not really an annexation, but a continuation of existing relations with closer bonds between people closely related by blood and kindred ties. Since 1823, said the president, the president of the United States has been known. The sending of the first envoy there brought the islands into closer relations with the United States and those relations had grown more firm by succeeding events.

Under Uncle Sam's Care.
At the time the tripartite agreement was made for the government of Samoa, he said Great Britain and Germany wanted to include Hawaii in the group over which a protectorate was established, but the suggestion was rejected by the United States, because the government held there already existed relations between Hawaii and the United States which placed the islands under the special care of this government and could not allow any other country to interfere in the affairs of Hawaii.

The annexation of the islands, said the president, and making them a part of the United States was in accordance with the established policy of the country. The treaty proved to be a simple document of six articles, based in its essential details upon the treaty negotiated by Hon. John W. Foster during the administration of President Harrison. The islands are ceded practically without condition, leaving the United States to pursue its own course with reference to their management.

SIGNING OF THE DOCUMENT.

Three Present Who Signed the Original Treaty in 1893.

WASHINGTON, June 17.—In the great diplomatic room of the state department, where four years and four months ago, in the closing hours of the Harrison administration, the first Hawaiian annexation treaty was signed, only to be withdrawn from the senate and thrown into a pigeon hole, the representatives of the governments of the United States and Hawaii gathered this morning and signed a treaty, by the terms of which, if ratified, the little republic will become part of the territory of the United States. Of the persons who stood in the room today, three were present when the original treaty was signed, namely, Special Commissioner Lorris A. Thurston and Assistant Secretaries Adee and O'Riordan.

It is a very unusual thing for a treaty of such importance to be signed early in the morning, but in this case it was desired that the convention be made ready early in order that it might be submitted to the senate on the day of its signature.

The treaty was signed by Secretary Sherman for the United States and Messrs. Hatch, Thurston and Kinney for Hawaii.

The treaty provides that the government of the Hawaiian islands shall be for ever all rights of sovereignty in and over the Hawaiian islands and its dependencies, and that these islands shall become an integral part of the territory of the United States. The government of Hawaii also cedes to the United States all public lands, public buildings and public property of every description. Congress shall enact special laws to govern the disposition of the lands in the Hawaiian islands. All the revenue from these lands shall be used solely for the benefit of the inhabitants of the Hawaiian islands for educational and other public purposes. The Hawaiian islands shall be admitted into the Union as a territory of the United States. Local laws to be passed by a local legislature, but subject to the approval of the president. Until congress shall apply the laws of the United States to the islands the present laws of Hawaii are to govern.

Electric Bitters.

Electric Bitters is a medicine suited for any season but perhaps more generally needed when the jaundiced, exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison, headache, indigestion, constipation, dizziness, yield to Electric Bitters, 50 cents and \$1.00 per bottle at Streitz's Drug Store.

ern the islands. The present treaties and laws governing Hawaii's commercial relations with foreign nations shall remain in force until congress shall take action. Further immigration of Chinese laborers is prohibited pending congressional action, and the entry of Chinese from Hawaii into the United States likewise is prohibited. The United States assumes the public debt of Hawaii, but with a stipulation that this liability shall not exceed \$1,000,000. The treaty, before it becomes effective, shall be ratified by the proper authorities of the United States and of Hawaii. No mention is made of any gratuity to Liliuokalani or Kaiulani.

Japan's Protest.
The Japanese government has filed a protest against the Hawaiian treaty on the ground that it promises to lead to a breach of treaty stipulations between Japan and Hawaii.

Minister Hoshi of Japan declined to be seen today about Japan's protest, and Secretary Mutsus refused to discuss the matter in any way, but it is learned that the Japanese protest was made in person to the state department yesterday by Minister Hoshi. The news of the protest was a great surprise to the Hawaiian legislators, and as intelligence of it was obtained Minister Hatch started out to learn the particulars.

The essential point as to the protest, it is said at the legation, is whether the protest is against the annexation of Hawaii or is merely a protest reserving to Japan all her rights under the existing treaty with Hawaii. It is believed that it is the latter. The Japanese treaty with Hawaii was made in 1871, and provides that natives or citizens of one country shall have the same rights as to enter into, reside and trade in the other country, and also shall have all the rights and privileges enjoyed by the people of any other country under treaty stipulations with Japan.

INDIANS WOULD HONOR DEAD.

Seek Permission to Erect a Monument at Wounded Knee.

RAPID CITY, S. D., June 17.—The remaining braves of the Sioux tribe have petitioned the government for permission to erect a monument over the graves of the dead warriors slain at the battle of Wounded Knee seven years ago.

The government has marked the place where many of the soldiers are buried with a fitting monument, and now the remaining Sioux braves have asked that they may erect a shaft 15 feet high, six feet at the base and tapering to an apex of six inches at the top in commemoration of their dead. The cost will be borne entirely by the Indians. It is desired to have appropriate epitaphs engraved on it in their own language, and as an evidence of good faith to the government it is further desired to imprint thereon words that shall proclaim Wounded Knee to be the last battle-field on which the Indians shall show hostility to his white brother.

SUCCESSOR TO TAYLOR

Stewart L. Woodford of New York Is Nominated.

OLD FRIEND OF SENATOR PLATT.

He Was Vigorously Urged by the New Senator For a Cabinet Position—Republican Friends Speak of Him as a Natural Diplomat—Has Made a Fortune in His Law Practice.

WASHINGTON, June 17.—The president has nominated Stewart L. Woodford of New York to be minister to Spain.

Mr. Woodford is an old friend of Senator Platt, who vigorously urged him for a cabinet position, trying to have him made secretary of the interior. Mr. Woodford made a fortune in his law practice and Republican friends speak of him as a natural diplomat. His nomination has been foreshadowed in gossip about the Capitol for some weeks, but the actual decision to appoint him was not reached until Wednesday. The cabinet talked the matter over Tuesday and the president referred to several persons suggested for the post and intimated that his preference was with Woodford.

The question was brought up again Wednesday and late in the afternoon Secretary Bliss was called to the White house and shortly after the nomination was sent to the senate. Mr. Woodford has been summoned here and will have a talk with the president. There is excellent authority for the statement that Mr. Woodford will accept.

Sketch of Woodford's Life.

NEW YORK, June 17.—Stewart L. Woodford, the newly appointed minister to Spain, was born in this city Sept. 3, 1835, and is descended from early settlers of Connecticut. He graduated from Columbia college in 1854. He was admitted to the bar in 1857 and later became assistant United States district attorney for New York. He resigned to enter the army as a volunteer. He was made captain and served in Virginia, South Carolina and the District of Columbia. He was brevetted brigadier general for gallantry in action. He resigned his commission in 1865 and resumed his law practice. In 1867 he was elected lieutenant governor on the ticket with Governor Fenton, the youngest lieutenant governor up to that time. Colonel Woodford was the unsuccessful candidate for governor against John T. Hoffman, and in 1896 he was a candidate in the Republican national convention for vice president, receiving 60 votes.

SENATE DOES PAPID WORK.

Dispose of the Agricultural Schedule After a Lively Contest.

WASHINGTON, June 17.—The senate made rapid work on the tariff bill Wednesday. There were no long speeches and the debate was of a snappy character, which at times enlivened, but did not delay the serious work of the bill. Thirteen pages were disposed of, carrying the senate through the agricultural schedule and up to schedule H, relating to spirits, wines, etc. During the day the paragraphs on dairy products, farm products, fish, fruit, nuts, meat products and miscellaneous agricultural products were acted on. The finance committee proposed many changes, in the main advancing rates somewhat over those heretofore reported. The committee was sustained on every vote, although a contest was made on almost every paragraph. Mr. Vest's motion to restore salt to the free list was rejected, yeas, 34; nays, 81. The important paragraph proposing a tax on tea went over at the suggestion of Mr. Allison, who expressed the hope that the duty on tea might be dispensed with.

Goldschmidt For Consul General.

WASHINGTON, June 17.—The president also sent the following nomination to the senate: Julius Goldschmidt of Wisconsin, to be consul general at Berlin.

DES MOINES, June 17.—The annual meeting of the Iowa Swine Breeders' association has closed. There were over 400 leading swine raisers in attendance and the session was devoted largely to a discussion of the condition of the swine industry in view of the recent terrible losses by cholera. The common agreement was that Iowa has in the last year lost \$35,000,000 by cholera and that it will take three or four years to restore the industrial equilibrium. The question of curing cholera was discussed at length, but the best authorities agreed that the cure has not yet been discovered.

MORE OFFERS FOR THE HOME.

Rev. Dr. Kuhns of Omaha Makes Lutheran Another Proprietor.

MANSFIELD, O., June 17.—The committee of the Lutheran synod, to which was referred the offer of Dr. W. H. Kuhns, Omaha, to donate 13 lots, comprising a square in Omaha, for the establishment of an orphan's home, reported this morning that Senator Charles E. Bogardus of Paxton, Ills., had telegraphed an offer to locate the home at Paxton, and another telegram with a similar offer had been received from Sedalia, Mo. Dr. Kuhns secured the floor and said he had 20 acres of land lying eight miles out of Omaha which he would donate for the founding of the home if the synod preferred a country site.

The synod instructed Professor Hammar to appoint a standing committee to consider all offers, form plans for the charter of the institution and report at the next general synod, two years hence. The committee appointed was: Rev. M. F. Truxell, Springfield, Ills.; W. H. Dunbar, Baltimore; C. B. King, Allegheny; L. P. Sudden, Lincoln, Neb.; H. J. Penfold, Omaha.

A resolution was passed instructing the deacons board to look for a permanent location for the mother house and report at the next biennium.

They agreed, earnestly, for a co-operation for a 9-hour day and pointed out proposals for carrying it out. E. A. Struby of Detroit, of the Book Binders' union, supported the movement on behalf of the trade.

President Galowski of the Pressmen's union assured the printers' representatives that action would certainly be taken by this convention and a committee appointed to act jointly in a 9-hour movement with the printers.

GUTHRIE, O. T., June 17.—A delegation of Cheyenne Indians interviewed Governor Barnes regarding the enforcement of the law abolishing polygamy, which takes effect July 16. The governor informed them they would have to choose one from the many wives and abandon the others. He would do nothing in the matter, he said, until Major Woodson, in charge of the Indian reservation at Washington, where he had come regarding the matter.

BETTER HEALTH

Mrs. Rev. G. H. Moulton, Weeping Water, Neb., is one of our respected members of the town. Her husband is a member of the Methodist Episcopal church of Weeping Water. She writes: "I had suffered from a great ailment of the head, and for the last six months from a form of nervous catarrh of the throat. My whole system was in a greatly debilitated condition. There was great mental depression, bearing down pains, weakness and nervous prostration and general debility. Much of the time I had been compelled to lie down every few minutes while doing my household work. I had been with me for some time ago. I felt a great change after the first month's treatment, and for the last three months I have been almost entirely free from pain. The catarrh of the throat, which I had given up all hopes of finding help for, is practically cured, and I am free from nervous prostration and general debility. I can now do all about it. Dr. SHEPARD and his associate physicians have been established in Omaha six years and have the most extensive offices and practice in the west. The Omaha office is at 311-12-13 N. T. Cancer Of the Breast.

Mr. A. H. Cransby, of 128 Kerr St., Memphis, Tenn., says that his wife paid no attention to a small lump which appeared in her breast, but it soon developed into a cancer of the worst type, and notwithstanding the treatment of the best physicians, continued to spread and grow rapidly, eating two holes in her breast. The doctors soon pronounced her incurable. A celebrated New York specialist then treated her, but she continued to grow worse and when informed that both her aunt and grandmother had died from cancer he gave the case up as hopeless. Someone then recommended S.S.S. and though little hope remained, she began it, and an improvement was noticed. The cancer commenced to heal and when she had taken several bottles it disappeared entirely, and although several years have elapsed, not a sign of the disease has ever returned.

Marvellous Results.

From a letter written by Rev. J. Gunderman, of Diamond, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Rives Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results. Trial bottles free at A. F. Streitz's Drug Store. Regular size 50 cents and \$1.00.
