calamity howlers to ponder over.

IN 1890 there were only \$350,000 invested in the beet sugar industries in the western states. To-day the capital invested is \$6,500.000. It is said that several million dollars will be invested in the industry in California within the next year.

AFTER September 1st every subscriber to THE TRIBUNE will be required to pay for his paper in advance. There will be no exceptions to this rule. All accounts due at that time will be placed in the hands of an eastern agency for collection.

BRER BRYAN is now in the west telling his audiences that the promised return of prosperity is a flat failure, and that people must hustle or starve until reliet comes in 1900. Inside of twelve months his tune.

"THE Chicago platform,"says ex-Goy. Boies, of Iowa, is no longer binding upon the conscience, political or otherwise, of any democrat in the United States." There is no question but your uncle Horace voices the sentiment of thousands of democrats in Iowa.

THE office of the county judge of Lincoln county pays about \$400 a year, but to show the unquenchable hunger of the populists for office, it is only necessary to state that there are a half dozen candidates for the nomination. Among those who would like this shriveled plum are E. W. Crane, P. H. Sullivan, O. H. P. Buchanan, George Golvin and Lawyer Grant.

WHEN a tax-payer walks into the county treasurer's office these days and pays a greater tax on his property than he has at any other time since he owned property in Lincoln county, he is led to wonder where the much vaunted economical administration of county affairs under populistic rule comes in. The excuses offered by the populist county officials for this increased tax ation is certainly very amusing.

In speaking of the candidates for the supreme judge nomination degrees of importance, which must be in the free silver convention the reconciled between the two branches of Llewellyn, as she steamed up the sound Lincoln Journal says "Neville is tired ot running for office, and T. Fulton Gantt has too clean a record to be honored by the gang." The Journal is in error. Neville is not tired of running for office. He may grow weary in working up a case in court but in his chase for office weariness has never been within four thousand miles of him. POPULISTS in the country precincts of Lincoln county say that none of the populist officials or deputies will be given a nomination this fall. This is foolish talk. The populists in the country don't have any idea of the populist ring in North Platte else they would not make such statements. The North Platte ring will control the convention at its own sweet will. and among the nominations that will be made are Orr for treasurer, Huffman for clerk, Miller for sheriff and Mrs. Franklin for county superintendent. The county judgeship will go to the country. The above is the ring slate, and treated as though they were active op- an expense to warrant the service to so from the track. The storms and winds of trouble and sickness assail the mariner on life's scas. He must be clear-headed and strong-bodied if he would successfully combat them. The man who works with his hands, and the man who works with his brains, must have a healthful, wholesome body, or he will fail. A blacksmith can't do good work if he is weak and sick from impure blood, poor digestion and weak lungs, The lawyer cannot strongly plead his client's cause if the brain is full of impurities and his nerves are racked by sleeplessness and unrest.

Dr. Pierce's Golden Medical Discovery is a money maker because it puts body and brain in perfect trim for work. It makes stomach, liver, bowels and kidneys do their proper work. It helps the food to digest and supplies blood and nerves and brain with just the material each needs. Weak and nervous men and women become strong and vigorous with its use. For thirty years it has been recognized as the best of all tonics and blood makers.

Nine-tenths of all the ills that human flesh is heit to are due to constipation. If people never became constipated, or promptly relieved that constipation by a resort to the right remedy, the doctors would starve to death. Headache, heart-burn, sour stomach, biliousness and a thousaud other ills are due to constipation, and const tion is promptly and permanently cured by Dr. Pierce's Pleasant Pellets. One "Pellet" is a gentle laxative and two a mild cathartic. They never gripe and do not get you up at night. Druggists sell them. Nothing else is "just as good."
