THE continued rise in wheat and the rapid decline in the price of silver seems to be a sticker for our friends, the populists. They seem very timid in advancing an explanney, who is generally so prolific in explanations, seems at a loss to account for the prevailing prices of the two commodities.

WITHIN the present year large numbers of rural telephone lines have been contructed, each farmer contributing poles and work in hauling and setting them. An experienced man places the instruments, which cost from \$10 to \$16. Farmers are delighted with their enterprise as they can order goods, boats or teams for transportation without being compelled to send a messenger several miles across the country as was formerly necessary.

THE pension roll of the United States has almost reached the million mark. Commissioner Evans has just issued a statement showing that at the beginning of this fiscal year the pensioners numbered just 983,528 an increase of 12,350 for the past year. During that year 50,101 new pensions were granted, and 3.671 persons were restored to the rolls. Old age and disease, however, is working great inroads into the lists, for there were 31,690 deaths during the year. Other sources of loss were 1,074 from remarriage of widows, 1,845 orphans attained majority, 2,783 failures to claim pensions, and 3,560 losses from unrecorded causes.

The passengers and of nominating a clerk of the court of appeals, was entirely harmonious in its

SAN FRANCISCO, Aug. 7 .- Speaking of the Kloudike output of gold, the chief clerk of the mint said: "All the gold brought to this city from the Alaskan mines will not exceed \$8 0,000, and all that has been taken this year and sent to other mints of the country will not exceed \$2,000,000. The gold from that part of the country is generally from 700 to 800 fine, and some of it ran to 900, the average being worth from \$15 to \$17 an onnce." A few days ago R. P. Colonel Mosby and the Virginians. Said a Virginia politician recently: 'Poetry may be losing its hold on some people, but it is still pretty strong in Virginia. A happy quotation from Byron recently made capital for Colonel John S. Mosby all over the state. When it was announced that Colonel Mosby would apply to President McKinley for an office, some of his old opponents opened fire on him again for going over to the Republicans after the war and particularly for his always cordially expressed admiration for General Grant. It was rather poor business, and for a time Colonel Mosby paid no attention to it, but finally, when the hope was expressed that if appointed he would not be credited to Virginia, the colonel prepared a card in reply, and it appeared in the newspapers. He reviewed briefly his career as soldier and citizen, stood by his guns and reminded his opponents that he was no longer a citizen of the state. He would abide by the record, he said. He had done his duty, and if Virginia chose to reject him let her, said he, quoting from 'Childe Harold:'
