PURE LAKE ICE

I am again in position to supply the people of North Platte with a superior quality of pure ice frozen from well water. It is as clear as crystal and of good thickness; not frozen snow and slush. A trial order will convince you of its quality. I have plenty to last through the season.

More or Less Personal.

The Era positively declines to say a good word for Wm. Neville in his effort to secure the nomination for the supreme judgeship. Why is this so? Has Mr. Cheney had a tip from the state house ring at Lincoln, or has his local political mentor something to do with this careful avoidance of Mr. Neville and his boom?

Mr. Cheney beseeches the populists to put up a clean ticket at the convention next Saturday. Are we to infer from this that there are unclean men in the populist ranks? For nearly two years past the Era editor has attempted to make the people believe that all unclean and unwholy men were members of the republican and democratic parties, but now by his own pen he virtually admits that there are rascals in the populist fold.

The democrats of Lincoln county will no doubt file away a copy of the Era of August 19th containing that pleasing article "A Hold-up game." In the course of a couple of months from now the article may come handy.

E. W. Crane says his appointment as time-keeper at the Omaha exposition grounds will not interfere with his candidacy for the county judgeship. It is true, which is doubtful, it will make grief for Father Buchanan and son Butler.

C. C. Wetzel will come down from Hershey to the populist convention like a wolf upon a sheep pen, and demand a nomination on the first ballot or by acclamation. In the mean time Gus Huffman, in his quiet way, is gathering in the support of the farmers who are likely to be delegates to the convention.

An orchard covering 125 acres in Atchison county, Kansas, has brought its owners \$14,000 for the apple crop of this season. It is another case where a single crop brings back the original cost of the land and all the care that has been put upon the orchard since it was planted. Some day there will not be a quarter section in the southeastern corner of Nebraska without an embellishment of apple trees. The crop will fall now and then, but every few years it will turn out to be a veritable Klondike.—Journal.

Educate Your Bowels With Cascarets. Candy Cathartic, cure constipation forever. 10c. If C. C. fail, druggists refund money.

\$100.00 REWARD

Will be paid for the arrest and conviction of the party who took six or more head of steers and one cow from my pasture on the night of August 4th, and for return of stock. Cattle branded 77 on right hip.
H. J. HANSEN,
North Platte, Neb.

Lincoln county also offers a reward of \$50 for the arrest and conviction of the party taking the above stock.

What a Prominent Insurance Man Says.

H. M. Blossom, senior member of H. M. Blossom & Co., 217 N. 3d St., St. Louis, writes: I had been left with a very distressing cough, the result of influenza, which nothing seemed to relieve, until I took Ballard's Horehound Syrup. One bottle completely cured me. I sent one bottle to my sister, who had a severe cough, and she found immediate relief. I always recommend this syrup to my friends.

John Cranston 908 Hampshire Street Quincy, Ill., writes: I have found Ballard's Horehound Syrup superior to any other cough medicine I have ever known. It never disappoints. Price 25 and 50c. Sold by The North Platte Pharmacy, J. E. Bush, Mgr.

OUR TEACHERS AND THE WORK ACCOMPLISHED.

Nothing more need be said about the excellent work that has been done by the different instructors. The work has been good from opening to close.

The Teacher's Association of Lincoln county held its meeting yesterday, and everything passed off in the most pleasant manner possible.

Several of the narratives prepared on history brought out through the Laboratory method were read before the Association, and every one of them was exceptionally good. Mr. Rader read a very interesting paper on the benefits of teaching history after the source system, in which he brought out many very many good points. This was followed by a paper read by R. H. Langford, on the present methods of teaching geography and history. The Association then proceeded to the election of officers for the coming year. Miss Sarah Ferguson was chosen president, and Miss Adda Kocken, secretary.

In the afternoon Dr. Bowls delivered a lecture on "The Evolution of the United States" which was very instructive and was highly appreciated by those who heard it. Every one speaks very highly of the way the Institute was conducted, and much credit is due Mrs. Franklin.

Lieutenant-Governor Harris who was to lecture last night, failed to keep his appointment, but Dr. Bowls kindly consented to talk to the large audience, and conducted them on a trip from Cleveland, Ohio, along the Lake, through the St. Claire flats, and to Port Huron, then on the train to Kingston and from there by boat down the St. Lawrence to Montreal. This imaginary trip was very pleasant, and told in the Doctor's style was highly entertaining.

The lecture on Election by Harry Trambull Sutton was the only failure, directly, or indirectly, connected with the Institute, and it was a failure of the most pronounced character. If his was election, deliver us from ever hearing anything elocutionary again.

The examination of teachers is now being conducted at the school house, and as soon as that is over, the teachers will repair to their respective homes, we are convinced, feeling well satisfied with the two week's work; and they will begin at once the preparation for the fall term school.

RESOLUTIONS.
Whereas, the members of the Lincoln County Institute, and teachers of Lincoln county, duly appreciate the class of work done by the instructors, Dr. Bowls, Miss Haas and Prof. Orr, and Whereas, they are also highly pleased with the manner in which the Institute was conducted under the direction of Mrs. Franklin, our efficient Superintendent of schools, and

Whereas, Miss Lulu Salisbury deserves more than great credit for the trouble she has taken to accommodate the Institute in acting as organizer for them during the two weeks' session, and

Whereas, the Board of Education kindly supplied furniture and apparatus for the use of the Institute: Be it resolved: That the sincere thanks of the teachers of this county be tendered to the instructors,

for the pleasant manner in which they have conducted the different recitations; to the organist for her extreme kindness; and to the superintendent for the careful supervision which she has exercised over the Institute work; and to the members of the Board of Education for their kindness.

Committee, { ADDA KOCKEN,

J. Pierpont Morgan puts \$100 into the contribution plate every Sunday morning and has given \$1,000,000 to the New York Lynging hospital. His benefactions are said to reach \$50,000 a year. George Peabody's "fad" was the promotion of education. He gifts an amount to more than \$10,000,000. Asa Packer had the same "fad," his benefactions amounting to about \$4,500,000. He founded Lehigh university.

When Brer Bryan preaches Nebraska and runs over in to Iowa, Kansas and Illinois he will likely say, "Is this the same country I passed through with the band playing, 'See, the Conquering Hero Comes?'"

One the Bryan organists that has shouted loudest, "No prosperity under the robber tariff," says: "The product of Missouri farms this year over last will amount to \$22,900,000."

Thousands are rushing off to the Klondike, but the sure gold diggers are on the farms, all over the great west, and will rest in peace and comfort when the storms of the winter blow and the fire burns brightly in the great fireplace.

EVENTS IN NEBRASKA.

The Grand Island creamery turned out 48,000 pounds of butter during the month of July.

The two-year-old son of Fred Landenburg of Norfolk fell into a tub of water and was drowned.

The loss of cattle by wolves around Dorrington, Scott's Bluff county, has run up to twenty-five so far this year.

Mrs. Joseph Kresser of Orleans, broke her leg in two places below the knee by being tipped out of a wagon during a runaway.

Mr. and Mrs. John S. Davenport, the first white couple married in Nebraska, celebrated their golden wedding Monday last at Hubbell.

The Niobrara Tribune avers that the calamities of Knox county are climbing one by one into the republican band wagon. It is a noble ambition.

Carl Schmiedberg and William Volk, two Norfolk men were caught under a falling clay bank and sustained severe injuries. The former will probably die.

Thos. Russell, of Cedar Rapids, was stabbed and mortally wounded at a dance held at the Alterton ranch. Four young men are under arrest charged with committing the assault.

Two Hastings men have been engaged this week in panning the sand in the Blue river, but have not yet found gold in sufficient quantities to pay them for their trouble.

Two hundred and sixty-five head of cattle recently shipped from Arkansas to Webster county are infested with ticks which dry up and blow away and give the Texas fever to other cattle.

A disease, presumably blackleg, broke out in a herd of cattle belonging to Adam Walter of Cambridge and in a short time nine cattle were dead. Adam thinks he has a "corner" on the disease now.

The Lincoln authorities are going after the gamblers again, and the gentry are wondering if the officials really mean business or are playing another tune to the grand stand. They are nonplussed for moment.

Mrs. Hughes, of Greeley Center, who was struck on the head with a hammer by her father, John D. Maw, died Tuesday. The murderer is considered a sort of a lunatic yet this does not quiet the talk of holding a lynching bee.

Edward Risum Hansen, a Davey Dane who is locked up in the Lancaster county jail for bigamy, took a dose of lye with a hope of severing his several marriage bonds all at one swoop. The lye failed to work and he will have to confront his wives in a court here below.

Two thousand pounds of dirt from the Nuff farm near Crete, this state, were taken to St. Louis and tested for value. The result was one-half ounce of gold, worth \$10.33, and seven and three-fourths ounces of silver, worth \$4.57, a total of \$14.90 to the ton. Mr. Bruben, who had the test made is so satisfied with it that he will bring back with him a forty ton smelter and start the work in earnest.

The weekly weather report shows that Nebraska has been blessed with more than enough rain to mature the corn. We now need a few weeks of dry warm weather to put the late crop out of danger of frost. In two weeks the early corn will be beyond all possibility of damage. Conditions generally are reported to be favorable, and it will require an extraordinary combination of circumstances to cut short the great crop that the farmers of the state are expecting to harvest.

The farmers and land men from east of the Mississippi who are now touring Nebraska as the guests of the Burlington railroad are encountering no end of surprises, but their chief wonderment will be that such productive soil can sell for so few dollars an acre. Nebraska land at prevailing prices is better than a speculation on securities on the New York exchange during the bull market. The prospects for a profit are flattering and there is no possibility of encountering a loss.

John Lakey laughed so hard at a ball game near Carlisle, Pa., when the ball struck another spectator's head and bounded high in the air, that he could not close his mouth again, and had to be carried a mile and a half to a surgeon.

If youth be imbued with love of pursuits that employ the intellect, and it is furnished with refined pleasures, he is more likely to become a good man, a useful, honorable citizen, than if subjected to the strictest moral discipline and kept in the most unsuspecting ignorance of the vice and wickedness of life. A proper knowledge of the nature of evil is the best armament against becoming subject to it.—The Outlook.

A novel deed was filed for record in Philadelphia a few days ago. It gives one Charles Banks the privilege of allowing the eyes of his new house to encroach on the property of Mrs Sarah Edwards to the extent of four inches, and binds the heirs of Mrs. Edwards for the same encroachment. The consideration named is \$40. The transaction recognizes the legal principle that the owner of lands owns all above and all below it.
