In saying the drink of water, which he gave to that wheat has gone up because of the failure of the crop abroad and that silver has gone down because the world is dropping it from the coinage, he confesses that the assertion of the voking together of silver and wheat was a popocration fraud. He acknowledges that the advance in wheat will help the farmers and do much to restore prosperity, but he intimates a sort of doubt that high prices will benefit the people. Last year, however, all the pepocratic orators, from Bryan down were howling that the gold standard reduced prices, and were saying that one of the benefits of a silver standard would be to advance prices. Every expression which a Bryanite has made on the general conditions which prevail now shows that the populist leaders are badly "rattled" by the

State Health Officers Fully Satisfied That the Fever That Has Appeared In Sevaral Southern Cities Is Yellow Fever-Autopsy Reveals the Unmistakable Cause

NEW ORLEANS, La., Sept. 7 .- The Louisana state board of health kept faith with its sister bodies of the south and the rest of the country yesterday afternoon when it made official announcement as the result of a careful autopsy that Raoul Gelpi, 13 years of age, had died of yellow fever. Gelpi was born of prominent people here and had been spending some time at Ocean Springs, where he was taken down with fever and brought here. Soon after arriving, despite the best medical attention, he died.

Dr. Theard, the attending physician, immediately reported to the board of health and expressed the opinion that death was due to yellow fever. An autopsy proved that Dr. Theard's idea of yellow fever was correct. Steps were promptly taken to prevent a possible spread of the disease. As the case was one of importation, the doctors expressed confidence that they would be able to check the spread of disease.

The death of young Gelpi naturally caused no little excitement in the city among the lay public. Physicians, however, expressed no apprehension, and stated their belief that it was quite possible to arrest a spread of the fever. The board during the day had ordered a rigid quarantine against all points on the galf coast, and had taken every precantion to guard against the entry into the city of any persons from Ocean Springs, Biloxi or other points on the sound, which, it was thought, the fever might reach.

It was on account of expressions made by Gompers in reference to the recent convention of labor leaders at St. Louis. He is credited with making unkind remarks about the gathering and casting reflections on those who were foremost in the meeting.

During the discussion on a proposi tion to take some action on the St Louis platform, M. P. Carrick, presi dent of the Brotherhood of Painters and Decorators, referred to Gompers as a plug-hatted, greasy tool of capital.

War In India About Over. SIMIA, Sept. 9.—In official circles here it is believed the bottom is dropping out of the rising of the tribesmen against he British. The general officers commanding report that the Afridis have dispersed, the news that the Zakkakhels are removing their families from the Khyber district to Thah is confirmed, and there is no longer any doubt that that dread and insidious foe, consumption, the enemy is leaving the Samana terri-

SULLIVAN RECEIVES NOMINATION. after the decree is entered and it there- the night of May 1, but he stuck stoutly | Three Silver Parties Unite on the Columbus Man For Judge.

For Supreme Judge-JOHN J. SULLIVAN of Platte. (Democrat.) For Regents University of Nebraska-

E. Vor FORELL of Buffalo. GEORGE F. KENOWER of Cuming (Silver Republican.

LINCOLN, Sept. 3.-As predicted at the start by the party leaders, the three parties, Democratic, Populist and Silver Republican, joined hands in fusion, and the ticket placed in the field is: For supreme judge, John J. Sullivan, Democrat, Columbus; for state university regents, E. Von Forell. Populist, of Kearney, and George F. Kenower, Silver Republican, Wisner. Many delegates maintain that the fusion was perfectly harmonious, while there are others who claim that there may yet be dissension on the Silver Republican ceiving the news at Folsom, a posse was | side, as about one-third of these delegates went home early in the morning posse also started from Trinidad at 2 a. | before fusion was effected. For a while m. The railroad company has offered | in the three conventions it looked a reward of \$500 for the capture of the rather precarious for harmony, as the Silver Republicans had a very warm time, a number of the middle-of-theroad delegates talking in favor of the nomination of a straight ticket in order to preserve their organization.

Finally it was announced that the Democrats and Silver Republicans had agreed upon John J. Sullivan for supreme judge and signs of fusion began to appear. Even then it was not until Judge Neville urged the indorsement of Mr. Sullivan that the Populists gave in. At noon the agreement to fuse was finally reached and the rest of the proceedings were of short duration. It became very evident near the close of the convention that neither Scott, Neville or Thompson could be nominated by any two of the conventions and the maneuver of the Democrats in substituting Sullivan was considered a coup de etat that cut short what might have resulted in a long drawn knotty convention, full of fight and ultimately separating the three parties so widely that fusion would have been an unknown condition for years to come. It takes nerve to face an enraged bull and flaunt in his face the color that he hates. It is a foolish and reckless thing for any man to do, but thousands upon thousands of men and women are daily facing a peril before which the bull fighter's danger fades into insignificance. The bull fighter is armed, trained, and fully prepared for his battle The thousands who stand face to face with are but illy equipped for the struggle. The man or woman who would successfully withstand the inroads of the deadly germs of consumption needs to have arteries bounding with the rich, red, life-giving blood of health. Dr. Pierce's Golden Medical Discovery is without an equal as a bloodmaker and fiesh - builder. It cleanses and strengthens the lungs and cures of per cent. of all cases of consumption

Miss Lucy Kloeffler, of Armada, Mich., writes:
"When I was about eight years of age I had inflammation of the lungs, and from that time up I
was sick nearly all the time and had a doctor
nearly all the time. I would take cold so easily it would go right to my lungs. At the age of nine-teen I was very bad, there was pain in my lungs, lickling in my throat and my throat was studded with ulcers; there was hoarseness and partial sup-pression of voice, and difficulty of breathing. I doctored with one of our best physicians and he said he could not help me and just prescribed coll liver oil and told my mother I could not live longer than three months. I kept getting weaker every day, when at last a friend asked me why I did not try Dr. Pierce's Golden Medical Discovery. I thought there was no use, no more help for me as consumption was in our family. My father and also my sister died with it; but after taking the first bottle I seemed to feel better. My appetit was better and I kept right on taking it, with bottle of the 'Pellets' once in a while 'until I fel real well. Before taking it, I weighed one him
