Two Second district brakemen had a little fun with a farmer boy in town last night, which may result disastrously to them. The farmer boy desired to secure a position as brakeman, and the two Second district men learning of this represented to him that they were the officials who examined applicants. They took the boy to a box car and gave him instructions in signals, for which they charged him a fee of three dollars. They then wrote out what purported to be a pass to Grand Island and gave it to the applicant, telling him to go to the Island on No. 4 last night and there he would find a job awaiting him. The boy attempted to go down on No. 4, but of course his "pass" was not recognized. He reported the matter to the police and it is likely the two smart Second district brakemen will have some little trouble getting out of the snap into which they plunged themselves.

If we had a marshal, Mr. Cheyney, who knew his duty and had the courage to perform it, it would not be necessary for any citizen to file a complaint against the saloon keepers for keeping their back doors open on Sunday. But you know, Mr. Cheyney, W. R. Morgan as an officer is far from being a glittering success; you know that only a few months ago you said that Mr. Morgan only saw the landscape in front of him; that he could not see a street fight which occurred just in front of him. If Morgan, as an officer of the law, would go to the saloon-keepers and demand that they keep their places closed on Sunday, there is no doubt in our mind that they would comply with the instructions. What Morgan needs is a tonic that will strengthen his nerves and give him sufficient courage to perform the duties which he knows he should perform. The city has had marshals who saw that the saloons were closed on Sunday; if Morgan cannot keep them closed he acknowledges his inefficiency, and should resign the office he is attempting to fill.

The national democrats of Nebraska met in convention at Omaha Wednesday evening and nominated J. M. Woolworth for supreme judge and J. C. Crawford and J. Laboring under the impression that the ground occupied by the show Wednesday was outside of the city limits, the city authorities did not collect the fifty dollars license provided by ordinance. It turns out now that the location of the show was within the limits of the city.

I. B. Bostwick, who has lived southwest of town for many years, leaves Sunday night for Johnson county, Wyoming, where he may decide to locate. Bernard Beer owns an irrigation canal and 2,000 acres of irrigable land in that county and it is on this land Mr. Bostwick will locate if he finds conditions favorable.

In transcribing the minutes of the city clerk Tuesday, the writer made a rather serious blunder, which he desires to correct. The motion made by Mr. Thomson should have read "that the city attorney be instructed to defend THE CITY" and not "that the attorney be instructed to defend the MARSHAL." This correction is made in justice to Mr. Thomson.

Smoke Wright's Havana Rose five cent cigars.

There is no better evidence of improving times than the fact that there is an unusual demand in North Platte for houses. They are so eagerly sought after that would-be tenants offer bids, one applicant raising the price offered by another applicant. It is generally conceded that North Platte's resident population is greater today than ever before in her history.

It is a rather peculiar coincidence that when Wallace precinct was strongly republican the farmers there raised better crops than in any other part of the county. But for the past six years the precinct has been strongly populist and during that period not a full crop has been harvested. There was a time when the precinct was dubbed "Egypt" on account of the bountiful crops, but that cognomen was dropped several years ago.

RENNIE'S OLD STAND.

RAILROAD NOTES.

S. H. Donehower has been promoted from fireman to night hostler. Fireman Jeffrey has been ordered to take an examination for engineer.

Engineers are being run hard these days and nothing short of a doctor's certificate will secure a trip lay-off.

Ex-conductor Blood has gone to Denver to investigate the chances of securing employment in that section. Since the above was put in type we learn that Mr. Blood has secured a passenger run on the Cheyenne Northern, running from Cheyenne to Orrin Junction.

Joe Roddy made his first trip as an engineer yesterday, going to Julesburg and bringing down a stock train. He has Tracy's engine during the latter's absence, and has for a fireman his brother, Jim facetiously remarked that he thinks he can make a good engineer out of Joe if he stays with him long enough.

While coming up on No. 3 Tuesday night, Engineer Whittlock struck a flock of sheep just west of Brady and killed fifty-six. A tramp riding on the pilot of the engine, was struck by several of the carcasses and when he got off at this place he was smeared from head to foot with blood, entrails and wool, and presented a sickening sight. He, however, was not injured.

North Platte printers are rapidly leaving the trade and taking up railroading. H. L. Walsh was the first to go to fring, then Joe McGraw went on as a switchman, Roy Vernon followed as extra caller. Charley Samelson is on the extra fireman's list and Frank Baldwin on the extra brakeman's list at Grand Island. Will Leonard may possibly be the next "to throw up the case."

There is still talk among local railroad men in regard to a new time card, and also extending the run of train No. 5 through to North Platte. Passenger travel over the Union Pacific is very heavy and it frequently occurs that passengers leaving North Platte on No. 2 are compelled to stand until the train reaches Kearney or Grand Island. The same crowded condition exists

on train No. 3. If train No. 5 was run through to this city it would relieve the crowded condition of the other trains.

John Taffe, the efficient car checker, has taken his annual lay-off and has been spending the time in Omaha.

There were three sections of train No. 2 yesterday, the Gulf train, coming in at 9:45, the Overland at 10:35, and a stock train following later. It is a little unusual to run a stock train as a section of a passenger train.

N. Enright, of Brady, was a TRIBUNE caller. He says the dry weather has affected the corn somewhat, yet there will be a good crop in that section.
