FOLE, STAND.

EVENTS IN NEBRASKA.

George Meeker, of Beatrice, and his brother, Thaddeus, of Valley Falls, Kan., were reunited last week, not having seen each other for thirty-five years after having mourned for each other as being dead. The story of their separation is one of many resulting from the war.

A stranger, who was employed by Walter Valley west of Plattsmouth, decamped some time during Tuesday night and took with him \$71 in money and a revolver, all belonging to H. T. Flock, a fellow laborer. No trace has thus far been found of the thief, whose name is Frank Heftt.

A wandering negro broke into the Missouri Pacific depot at Nebraska City for a night's lodging. He rolled up his coat for a pillow, placed it under his head and dozed off into a deep sleep. Rude policemen discovered him and invited him to accept the hospitalities of the county jail.

Richard J. B. Waidley, a well known young man of Nebraska City, has mysteriously disappeared. He was married last Monday morning in Omaha to Miss Kittie Felthaus, also of that city, and arrived there with her on the afternoon train. He placed his wife in a hack, remarking that he would ride up town on the street car. There is no trace of him since that time. No motive can be ascribed for his strange action.

Dr. Sidney Goodmansson, who was tried and acquitted on the charge of poisoning his wife, became involved in a quarrel at Ponca last week and received a severe beating. It was not thought his injuries would prove dangerous until within a few days, when erysipelas set in with great violence. In the fight his nose was broken and his face was badly demoralized. The cause of the trouble is alleged to have been on account of derogatory and abusive language on the part of Goodmansson.

A great many cars were

shipped in the month of October and more are yet to be shipped from this place if the weather is good, if not, they are to be shipped from points west.

Ross L. Hammond entered upon the duties of postmaster of Fremont Sunday. For the present the old force of employees will be retained and no change will probably be made except in assistant postmaster. Mr. Hammond will still conduct the editorial department of his paper.

The sheep still continue to come into Colfax county to be fed. Within the past week Adolph Dwork received 5,000 head. C. H. Chase 2,500, George Little 2,500 and John Prokes 2,000. These came by the B. & M. and Tuesday J. A. Knollin, the big Kansas City firm which is feeding so extensively there, received thirty-one carloads more.

A wreck on the B. & M. railroad occurred at Broken Bow Sunday morning about 2 o'clock. The engineer, Fred Naden, on the east-bound stock-train was killed. No one else was hurt. Five cars of wheat, which were just being taken from the sidetrack and had reached the main line were demolished. The engine on the stock-train was badly disabled.

In 1891 Judge Post received an aggregate of 76,447 votes; in 1893 Judge Harrison received 79,291. This year Judge Post's vote exceeds 90,000, or nearly 14,000 more than he got six years ago and 11,000 more than was ever cast in Nebraska for any republican candidate for supreme judge. In 1893 the combined opposition mustered 109,598 votes out of 181,600, while in 1895 it mustered 103,625 out of 182,900. This year the fusion candidate has received 104,000 and the combined opposition vote will not exceed 106,000 out of a total of 196,000.—Bee.

In speaking of the late election the Omaha Bee says: The total vote will aggregate a little over 194,000, of which Sullivan, successful fusion candidate for supreme judge, receives 102,737. The total vote polled by judge Post, the republican candidate, is 89,921, the fusion plurality being 12,816. The vote for Switzer, the candidate of the national democrats, while not given in the table, does not exceed 800, while the vote of Strong, prohibitionist, approximates 1,600. Kayley, republican candidate for regent, has run ahead of Post by 644,

while Dryden, the other republican candidate for regent, has polled substantially the same vote as Post. On the other hand Von Forell and Kenower, the fusion candidates for regents have fallen behind Sullivan by 5,000 votes, so that the average fusion plurality on regent is only 7,990

SUTHERLAND.

G. W. Snider of Madrid has been in town this week.

Wm. Holtry shipped a car of hogs to Denver on Thursday.

Fred Pierson spent Friday in North Platte.

Geo. Godfrey traded for a farm south of Wallace on Wednesday.

Nels Anderson of Paxton was on our streets Thursday.

E. C. Brown has erected a stable on the lots west of the hotel.

Geo. Emerson is doing business in Omaha this week.

J. Bowman has moved his stock of goods to the Abshire building lately vacated by W. C. Blackmore.

C. W. Burklund and G. C. White were in North Platte on Thursday.

Attorneys Wilcox and Davis of North Platte were in town on Monday on the Burklund sheep case.

Jac. Bratt of North Platte passed through town on Friday.

Chas. Nelson of Wallace was in town on Wednesday.

Geo. White shipped a car of hogs on Friday.

C. J. Farnham returned from the north country on Sunday.

Geo. Shoup has purchased the Bell house and moved it to the Foyer land which he leased for a term of years. This house is one of the old land marks on the tableland south of town and will be missed.

Mr. Gorman of Maryland has been in the United States for eighteen years, at a salary of \$5,000 a year. He was without an estate when he assumed senatorial dignity, and is now reputed to worth \$3,000,000. A man who can save \$3,000,000 out of an aggregate income in eighteen years of \$90,000 is no slouch of a financier, and can be trusted to keep out of the poorhouse after his working days are over.

Mrs. Hannah Gould's band of sixty women to sail from New York Dec. 1 for Dawson City is composed, according to their chaperon, of "widows and bachelor maids." It is extremely probable that in a very short time after their arrival on the Klondike such designations will cease to be applicable to any of these female argonauts.

THE CITY GUARDIANS.

At the regular meeting of the Council last evening there were present Mayor Day and Councilmen Cunningham, Thomson, Scott and Evans. Clerk Ginn being sick, John Sorenson was deputized as clerk for the evening.

A notice was served on the mayor and members of the council notifying them that W. R. Morgan had obtained a judgment against the city in the sum of \$135.30, for salary for the months of August and September. On motion of Thomson a warrant for the amount was ordered drawn on the salary fund; also that a warrant for \$3.20, covering costs of suit, be drawn on the general fund.

Assistant Chief Downie appeared before the council and asked that an appropriation be made to defray expenses of chief and delegates to the state firemen's convention to be held at Kearney in January. Upon motion the clerk was instructed to draw a warrant on fire fund for \$40 for the above purpose.

The Council instructed the street commissioner to notify Messrs. Hinman, Ottenstein, Foley, McDonald and Einstein to have cesspools made for the accommodation of families living in their respective brick buildings. It has been the custom for tenants to throw their slops and refuse in the alleys at the rear of the buildings, and thus create a nuisance. To abate this nuisance the cesspools are ordered put in.

The members of the council discussed at some length the outstanding claims against the city, but none seemed able to suggest a plan whereby these claims could be paid.

Treasurer Sorenson made a statement of balances in the respective funds, viz: water fund, \$790; poll fund, \$23.46; dog fund, \$12; special levy fund, \$15. Upon motion the latter amount was transferred to general fund. Eight hundred dollars belonging to the water fund are in the hands of the county treasurer, making a total of \$1,590 tied up by reason of the suit now in court, and upon which sum the city is paying interest.

Several minor matters were discussed, and then the council adjourned.

POTATO CROP HARVESTED.

The potato crop has been harvested and has proved to be quite a profitable crop in most instances. A number of those who have raised potatoes this year believe they can make potato raising profitable at 20 cents per bushel. As the price now stands at about forty cents, the margin surely shows quite a profit on this year's potato crop. And there is no doubt but this price will hold good and is liable to advance rather than go down. The improved methods of planting by machine and harvesting by improved potato diggers make the aforementioned statement come within the bounds of reason. If we omit the increased cost of the seed potato crop, now being grown almost as cheaply as corn and the enlarged yield per acre give it an advantage over corn.—Sutherland Free Lance.

Educate Your Bowels With Cascarets. Candy Cathartic, cure constipation forever. 10c. If C. C. C. fail, druggists refund money.

A few days ago one of the leading populists of Lincoln county gave his opinion of the state house gang at Lincoln, in which he characterized the state officers, with the exception of Meserve, as extremely "light weights," and strongly intimated that they were worse in many respects than the republican officials who had preceded them. The populists of the state will, before next fall, learn that the present state house ring is about as corrupt as it is possible for a ring to become.

Royal makes the food pure, wholesome and delicious.

ROYAL BAKING POWDER
Absolutely Pure

ROYAL BAKING POWDER CO., NEW YORK.

PENALTY OF THE LAW.

Affixed to Sale of Alum Baking Powder.

SECTION 1. Every person who manufactures for sale within this State or offers or exposes for sale, or sells, any baking powder, or any mixture or compound intended for use as a baking powder under any name or title whatever, which shall contain, as may appear by the proper tests, any alum, in any form or shape, unless the same be labeled, as hereinafter required and directed, shall be deemed guilty of a misdemeanor, and upon conviction, shall for each offence, be punished by a fine not less than twenty-five (25) or more than one hundred (100) dollars and costs, or by imprisonment in the county jail, not exceeding thirty (30) days.

This is from the law as it stands to-day on the statute books of the State of Minnesota.

GUILD ENTERTAINMENT.

The following programme will be rendered this evening, commencing at eight o'clock, in connection with the fair and supper given by the ladies' guild at the opera house:

- Trios..... Mr. and Mrs. Doolittle and Mr. Bare
- Reading..... Miss Fannie VonGoetz
- Vocal Solo, "Il Trovatore," Alvin Poole
- Whistling Solo..... Miss Cummings
- Chorus, "This Morn'g"..... Episcopal Choir

AN ARTFUL DODGER.

The Story of a Stolen Watch and a Truly Penitent Thief.

Being rich and proud, the old railroad magnate would give a reasonable fortune if this incident in his career had never become public. He had left his office one afternoon, and in front of the building found a crowd, attracted by a passing procession. He was pressing his way through when stopped by a brilliantly handsome young woman whose face wore a troubled look. She wanted to reach a street in the north-western part of the city and was at a loss what route to take. He gallantly helped her out of the crush, put her on the right car and told her where to get off. Wanting to know the time a few minutes later, he dove into his watch pocket, only to find it unoccupied. A little profanity was followed by a chuckle, for the watch taken was a cheap affair he was carrying while his timepiece was being repaired.

He had never suspected the beautiful young lady, but the next day she appeared in tears and restored the stolen watch. She was sorely pressed for money, had no one to whom she could go for help and had yielded to a momentary impulse. But her conscience gave her no rest until she repented and made restitution. She had thrown herself on his mercy, and the old gentleman was deeply moved. He insisted on her taking \$50, to be returned if she was ever in a position to repay, otherwise to be regarded as a gift. Overcome by a joyful reaction, she almost fainted and would have fallen but for the support of her benefactor. When she was gone, he felt as a man who had done a good deed and was on the best of terms with himself. He even looked in the glass to smile congratulations at himself. There he discovered that his big diamond pin was gone. The long pocketbook was missing from the inside pocket of his coat. With a weak hand he reached for his own \$500 chronometer, and that, too, had vanished. He told no one but his wife, whom he swore to secrecy. That is how the affair got out.—Detroit Free Press.

OLD TIME SWEETNESS GONE

Molasses Is Now Made Into Rum and Brown Sugar Can't Be Bought.

"The old fashioned molasses is rapidly disappearing as an article of commerce," said a prominent grower, "and in its place have come a number of sirups which are more costly and by no means as satisfactory, especially to the little ones, who delight, as we did when we were young, in having 'lasses on their bread. Most of the molasses goes into the distilleries, where it is made into rum, for which, notwithstanding the efforts of our temperance workers, the demand is constantly on the increase, especially in the New England states and for the export trade. The regular drinker of rum will take no other liquor in its place if he can help it. It seems to reach the spot more directly than any other dram.

The darker brown sugars have also disappeared, and they are not likely to return, owing to the methods of boiling and the manufacture. Granulated sugar is of the same composition, as far as saccharine qualities are concerned, as loaf, cut loaf cube and crushed and differs from them only in that its crystals do not cohere. This is because it is constantly stirred during the process of crystallization. The lighter brown sugars taste sweeter than the white, for the reason that there is some molasses in them. Housekeepers have difficulty these days in finding coarse, dark sugars, which are always preferred for use in putting up sweet pickles, making cakes and similar uses. As they cannot get brown sugar any more, it may be well for them to remember that they can simulate brown sugar by adding a teaspoonful of molasses to each quart of a pound of the white granulated sugar. This combination does as well in all household recipes that call for brown sugar as the article itself, and besides it saves them a great deal of hunting for brown sugar, which, as said before, has disappeared from the market."—Eastport Sentinel.

SPECIAL NOVEMBER SALE!

BOSTON STORE.

Bargains in the large store in every department. We are overstocked with goods—we are not after profits—we must unload the immense stock. Our goods are of the best quality made, latest in styles. Seeing is believing that no one can undersell us.

as everybody knows we are headquarters for nice goods, and this year we will have a larger and better assortment than ever and at prices lower than before.

C. M. NEWTON ...

AFRAID OF THE HOODOO.

Why the Street Car Conductor Would Not Cut the Pageant in Two.

A hearse crossed the track and the motorcar put on the brakes so suddenly that the car nearly stood on its nose. Then he set down on the front seat to await the passing of the long string of carriages following the black draped vehicle.

A fat man who had nearly been thrown over the front rail by the sudden stopping of the car snorted angrily: "Why don't you cut across? I've got to catch a train. I can't wait here all day."

"Can't help it, boss. You'll have to wait and catch another train."
"Well, I'll report you to the company. That procession will take five minutes in passing us."
"Report away. I can't help it if the procession takes 20 minutes. You couldn't hire me to run this car across that funeral procession for the best job on the line. That's the worst hoodoo a man could run up against."
"Bah!" said the fat man.

"All right, boss. I know what I'm talking about. One of the best men on this line crossed a funeral procession soon after the trolley system was put in. A live wire dropped on the back of his neck and electrocuted him before he'd gone a block. A little while later another poor fellow cut across back of a hearse. He ran over three children in as many weeks. He quit the road as crazy as a loon. Now the conductor on that same car has lost every cent he had in the world, and his wife and child have died. Bah, yourself! I'd like to see you get off this car and walk across in front of one of those carriages. I'll bet you'd be catchin' your last train in this world pretty quick. Jest hop off and try it now."
But the fat man only shifted uneasily about on the hard car seat and waited silently until the last carriage had passed.—New York Telegram.

How Bees Enbalm.

Bees, says Horbis, can enbalm as successfully as could the ancient Egyptians. It often happens in damp weather that a slug or snail will enter a beehive. This is, of course, to the unprotected slug a case of sudden death. The bees fall upon him and sting him to death at once. But what to do with the carcass becomes a vital question. If left where it is, it will breed a regular pestilence. Now comes in the cleverness of the insects. They set to work
