YESTERDAY'S "WAR" NEWS.

Telegrams from Different Points Treating on the War Alarm—Uncle Sam not Sleeping.

NO HOLIDAY. Norfolk, Va., Monday.—Orders are expected at the navy yard instructing that work be continued on Washington's birthday.

WASHINGTON INEVITABLE. Washington, Monday.—A report circulated this morning and generally credited is to the effect that three members of the diplomatic corps have notified their governments that war is inevitable unless something unforeseen occurs to change the situation.

THE "JOURNAL" DID IT. New York, Monday.—The Journal this morning publishes the following cable from Madrid: The Spanish papers publish statements saying that the Evening Post of New York declares that a man in the pay of the New York Journal blew up the Maine in order to create disturbance.

They also say that W. R. Hearst, the proprietor of the Journal, made a bet of \$100,000 that he would provoke war.

WAS MUST COME. Ciudad Juarez, Mex., Monday.—Lieutenant Palmo of the Spanish navy passed through here yesterday. He talked freely of Spain's relations with the United States and said the former country was being driven to war and that it would soon come. Spain, he said, had been actively preparing for

that event while the Americans were talking and is better prepared to strike than the Yankees think. Spanish military officers, he declared, had procured drawings of the fortifications of the principal American ports. None of them, with the exception of New York, were sufficiently strong to withstand even one of Spain's ships.

ON THE PACIFIC. San Francisco, Monday.—In compliance with orders from General Miles, troops have taken station at the high power guns at the Presidio and Lime Point and the chain of sentinels has been reinforced. A full supply of shot and shell has also been forwarded.

Portland, Ore., Monday.—General Merriam has returned from a three days' inspection of the new fortifications at Fort Stevens and Scarborough Head. It is stated that both fortifications will be fully garrisoned as soon as the barracks are ready for occupation.

MOBILIZING OF WARSHIPS. Washington, Monday.—A naval officer calls attention to the mobilization of United States warships in three different quarters and this action is significant. The rendezvous of the North Atlantic squadron near the Florida coast and its advantageous position for an attack on Havana should the emergency arise is pointed out.

The vessels here available are the New York, Texas, Massachusetts, Indiana and Nashville and the torpedo flotilla. On the north coast of South America are four American ships—the Brooklyn, Cincinnati, Castine, and Wilmington—cruising about, and their position is favorable for capturing ports on the south coast of Cuba should war occur.

the Olympia, is assembling at Hong Kong, where operations against the Philippine islands could be begun should the necessity arise.

AMERICAN LINE STEAMERS. New York, Monday.—It was reported to-day that the American Line Steamship Co. had been ordered to hold its steamships in readiness. The St. Paul, St. Louis, New York and Paris are all in the list of the United States reserve vessels.

RUSH WORK. Philadelphia, Monday.—Activity in all the various departments of repair at the League Island navy yard has been noticeable for the past few days. The Columbia is in commission and ready for duty at any time and her sister ship, the Minneapolis, is ready for sea, with the exception of her hull, which is not painted. Thirty painters were set to work on her to-day. Ship joiners are busy on the modern double turret monitor, Miantonomah, and her machinery has been carefully examined.

SOLDIERS IN KANSAS. Fort Riley, Kan., Monday.—Everything at the post here has been assuming a warlike appearance for the past few days. All soldiers out on furlough have been ordered to report at the post for duty at once. Orders have been issued from the headquarters that no more leaves of absence shall be allowed until further orders. All privates were ordered Saturday to get their accoutrements in good condition at once.

PLENTY OF MONEY. Washington, Monday.—Congressman Dockery, of Missouri, says that in case of war we would have plenty of money at hand to maintain an army and navy large enough to wipe the greatest foreign power off the face of the earth.

A WARLIKE DIVINE. Chicago, Monday.—From the flag-draped pulpit of Centenary Methodist church, Rev. C. H. Hirst last night said that the Spanish nation should be obliterated from the face of the earth. No sooner had the high-pitched utterance died out than the vast congregation joined in an outburst of applause. Such expressions as "good," "that's right," "that's the way to talk," came from men and women in all parts of the auditorium.

BABY'S SHARP EYES. —We have a dozen old sows to let out on shares, must be taken this week. Inquire at the Hub grocery store.

We hear much of the "sharp" eyes of little children. What a pity that when we need sharp eyes most we have so neglected and wronged these "wells of kindness" that they become wells of darkness instead. Do not allow this to be in your case there is yet time. We make a specialty of fitting glasses to both old and young and guarantee satisfaction. Do not neglect your eyes. M.M.
