Officer McNamara, charged with shooting with intent to wound, in which Dave Beightel was the complaining witness, had his hearing in Judge Baldwin's court Wednesday. After hearing all the evidence the Judge dismissed the case. There was no evidence to show that McNamara fired with intent to wound; the shot being fired in the air. KILLED BY THE CARS. Word reached this city Wednesday forenoon that a man had been found dead along the railroad track at Nichols. Coroner McCabe and Sheriff Keliher drove up and empaneling a jury held an inquest. The testimony showed that the man had been found at seven o'clock, and that life had apparently been extinct for several hours. One leg was severed at the instep and the other foot was badly mangled. Very little blood came from the wounds, but at his head was a pool of blood, showing that he had bled from the mouth, probably due to being thrown to the ground with great force. Twenty feet west of where the man lay the rail was covered with blood, showing that he had either attempted to get on or had fallen from an east bound train.

The man's clothes were searched and from papers it was learned that his name was George H. Worrick and his home at Mauch Chunk, Pa. On his person was found \$3.50 and a silver watch. The unfortunate man was about twenty-five years of age.

The remains were brought to town, the relatives in the east notified, and through directions of the Mauch Chunk J. O. U. A. M., of which the deceased was a member, the body will be shipped to that place to-night.
