Reason and facts.

What is known and sold as ready-made clothing, is clothing cut out by machinery, put together by machinery and with the aid of STARVING FEMALE LABOR. Such a garment stamps the wearer on sight as dressed in slops. He not only looks it, but as a consequence feels it. Men are learning that they cannot afford to be ill-dressed. Slops have had their day. Our ready to wear clothing expresses exactly what the name would imply—quite ready to wear; made by tailors, designed by an artist, sewed with the best linen and silk, cut to fit the form of man be he tall, short, stout or thin. Any man not a positive malformation can be fitted by our clothing. By fitted we mean dressed so that he looks a gentleman and possesses that feeling of comfort and air of ease that always marks the well dressed happy man. See our

Orders were received from the general manager on Tuesday to reduce the station force. This lets out Dennis Redmond, night check clerk. John Taffe will now do the night work.

Tuesday five night operators were discharged between Grand Island and Cheyenne. This forces the agents to do all night work. Such wholesale reductions at this time of the year are in the nature of a surprise to the men, because usually, at this time of the year, new men are being taken on.

The experiments with the new alkali-killing chemical on the 937 are proving very successful. She made her fourth trip to-day without having her boiler washed out. Ordinarily that has to be done every other trip and without the aid the chemical it would be an utter impossibility to make four round trips without washing the boiler. About a gallon of the chemical solution is used in the engine tank.
