Broke Jail.

Wednesday night Donnelly the man who was confined in our county jail, on complaint of Fred Zimmerer for the crime of forgery, succeeded in making his escape. He was the only occupant of the jail and it seems that the sheriff did not confine him in his cell as it was hot, but permitted him to occupy the room or corridor outside the cell. The prisoner in some way succeeded in removing some bricks from the partition wall and by that means got into the outside hall. He then took the outside door off the hinges and was then in the open air, and departed for parts unknown. The man, it will be recollected, passed a forged check upon Mr. Zimmerer some time ago, being accompanied by a woman. The pair went to North Platte and the same game was played there by the woman. Mr. Zimmerer had the man brought here, on the charge, but up to the time of his escape he had had no preliminary examination—Clipper Citizen.

How Women May Keep Young

The real secret of youthful features in women is regular menstruation. If there is an irregularity of any nature—if the menses be suppressed or too scanty, too profuse or painful—the trouble will show in the face. The eyes will be encircled with black, the skin sallow; blotches and pimples will appear, and the sufferer, although young in years, will appear old in looks. The unfailing remedy is

ACCORDING to the English press when Sir Alfred Milner was leaving England for the cape, he explained the British policy by asking: "If you saw a solid pile of gold worth £500,000,000 over there with 20,000 Boers armed to the teeth sitting upon it what would you do?" One of the leaders of the Outlanders' movement has been frank enough to say: "We don't care about the franchise; we want the mines." At the recent rate of interest the Transvaal mines will yield annually in dividends, in a year or two, about \$75,000,000. That is the real explanation of the British attitude toward the South African republic.—Boston Advertiser.

A SPECIAL telegram from New York to the St. Louis Globe-Democrat says that local silverites are greatly disturbed over an announcement made by Willis J. Abbott that Bryan is ready to have silver retired to the rear in the democratic national platform of 1900. Those who know Bryan well do not doubt it. He will make silver and anti-imperialism hot issues right up to the time of the convention, but he will be prepared to take any line of policy that in his judgement will add the greatest strength to his candidacy, should he be the nominee.—Kearney Hub.

Earnest Calling sold 270 head of cattle this week to J. H. Norsworthy for the consideration of \$10,000. This purchase by Mr. Norsworthy practically makes him the cattle king of Dawson county as he now controls over \$50,000 worth of cattle. Mr. Calling bought his stock last spring and has cleared by the sale over \$2,000, and if shipped by Mr. Norsworthy at the present time he would realize a good profit on the purchase.—Gothenburg Independent.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J.
