The Chicago & Northwestern, Union Pacific and Central Pacific are figuring on a new fast overland train between Chicago and San Francisco. The distance is to be covered in seventy-two hours. The schedule which is talked of at present is to leave Chicago at 6:30 p. m. and arrive at San Francisco at 5:15 p. m. on the third day. The return train will leave San Francisco at 8 a. m. on the third day. If it is decided best to put on the train it will probably make its initial trip, October fifteenth. It will be a limited train and the stops will only be at division points and large towns. It is expected that the new train will greatly relieve the present exceedingly heavy traffic on trains No. 1 and No. 2. Union Pacific officials have been in Salt Lake City for several days consulting with the officials of other lines concerning the new move. If the train is put in service the Rock Island and Rio Grande will probably put on a similar one.

For Cold and Stormy Weather

No garment has yet been devised which exceeds, for comfort and serviceability, and good appearance, an ulster which we here illustrate. We are selling an excellent quality of BlackFrieze for

\$10.

Top Coats--

They're the short coats, made of light-colored covert. No prudent man ought to be without one these chilly nights. Besides, a man looks odd these cool evenings without a Top Coat, whether he feels chilly or not. The ones we have are the proper styles—cut just long enough, cut just right. The tailoring is up to The Star's standard, which means best for the money.

The prices run from **\$6.50 to \$15.**

Some other fall wants are here—LONGLEY HATS—Seen them yet?

All the old slate has been removed from the round house roof and the work of re-roofing will be commenced as soon as the material arrives. The new roof will probably be a gravel one. Considerable delay in the work has caused by the non-arrival of the smoke jacks which are being built in Omaha. An entire new set of jacks is necessary as it is planned to head the engines in instead of backing them in as is at present done. Nearly all of the doors are hung and the windows are all in place.

Pillsbury's Best flour is the best Minnesota flour sold in the west. \$1.15. Harrington & Tobin.

Dewey, the young son of Wm. Foster, met with a very serious accident Sunday. The family lives over the Co. E armory and the little boy was playing around on the second story balcony where he suddenly lost his balance and toppled off. He struck the side walk underneath and the result was a broken limb and some serious bruises. When he was picked up it was thought he was dead but he later regained consciousness. He is in a very dangerous condition and he may not recover.

\$3.00 FOR MEN'S WINTER SHOES.

Men's Shoes for Three Dollars that are sold for three fifty at most places. Winter styles that have the style, the fit, the comfort, the service, of the higher priced goods. Made from such leathers as Box Calf, Gem Calf, Heavy Vici Kid, Light Vici Kid. Some are leather lined and some have heavy drill lining. All have double soles except the light vici, which is single sole. The toe shapes vary from medium to the wider styles, but all are this season's popular shapes. The soles are all sewed by the Goodyear welt process, leaving insoles perfectly smooth, more pliable and makes a shoe that is easier and better fitting.

A Small Burglary.

Harry Fon, a tramp to whom Claude Weingand had given employment for a week because he was starving, repaid the kindness of his benefactor by rifling one of the rooms over the restaurant, of an overcoat and a coat and vest on Saturday night. The clothing belonged to Diffin, one of the employes of the restaurant. As soon as the theft was discovered a warrant was sworn out against Fon, and officials along the road notified. He was arrested at Columbus Sunday and brought to this city last night by Sheriff Keliher.

A New Patent.

Louis Bagger & Co. patent attorneys of Washington, in their weekly report state that last Tuesday a patent was granted to W. L. Park, R. W. Baxter and W. R. McKeen, Jr., on a car uncoupling device. It is known as the "Sure thing uncoupler" and its principal parts consist of an iron bar and a wedge. It is used to spread couplings apart and is particularly valuable with a Miller hook coupling. Its great object is the saving of time but it is also a safety uncoupler and will probably be the means of saving a good many brakemen's fingers. The patentees expect to dispose of quite a number of the uncouplers to the roads which are still using the Miller hook. Railroad men who have seen the device and witnessed its work are quite enthusiastic over it.
