One Year, cash in advance, \$1.25
Six Months, cash in advance, .75 Cents

THERE will be heavy hearts in North Platte the next few days, but the grief is not likely to be borne by republicans.

THE Fifty-first Iowa Volunteer Regiment arrived at Council Bluffs yesterday forenoon and were accorded a very hearty greeting.

AT the request of certain individuals in the United States, Aguinardo has named his new son George Washington. Let us hope that he will grow to be a better citizen than is his father.

IF the figures of the republican state central committee are verified to-day, the funeral of the once great populist party in Nebraska will be held to-morrow. If not to-morrow then one year hence.

THE chairman of the Ohio republican state central committee claims that state by a plurality of 55,000, but the republicans of the country will feel satisfied if the plurality is 40,000.

REPORTS are current in Lisbon that General White, the English commander at Ladysmith, has surrendered to the Boers, but no news has been received at London confirming the report.

IT will be in order to-morrow to congratulate the much maligned Judge Grimes. It will not be necessary to wait for official returns, as his election is as certain as though he had no opposition.

THE president has issued an order to the effect that packages intended for Christmas gifts for soldiers in service in the Philippines can be sent through the mails subject only to the domestic rates and rules.

TO DAY Hastings will vote on a proposition to issue twenty thousand dollars in bonds for the purpose of purchasing the electric light plant which has been in operation there. The proposition twice carried, but each time there was a legal technicality.

THE republican organization of the state should remain intact during the winter months, so as to be all the more effective for the campaign of 1900. To obtain the best results the organization of a political party should never be allowed to drop into a state of lethargy; it should be always active.

THE campaign in the Philippines is now on in earnest and the Tagal rebels are being driven from pillar to post. The movement against Aguinardo's strongholds has begun and in skirmishes yesterday sixty insurgents were killed, two hundred wounded and seventy-eight taken prisoners. The American force had eleven men wounded.

GENERAL FRED FUNSTON predicts that in one year's time the island of Luzon will be as quiet as Massachusetts. He thinks that when the leaders of the insurrection see that their resistance is about to collapse they will gather up what money they can and leave the island. The General believes all the serious fighting will be over by next March or April.

IN Newton, Mass., the public schools are closed on stormy days, but as it devolves upon the superintendent to determine what constitutes a "stormy day," the pupils frequently have no means of knowing whether or not school will "keep" when the weather is threatening. Arrangements have now been made whereby the Boston weather bureau will send a forecast to Newton each morning, and upon receipt of the same signal flags will be hoisted over the schoolhouses for the guidance of the pupils.

TARIFFS MUST STAY.

NECESSARY TO EXCLUDE CHEAP FOREIGN LABOR.

Their Removal Would Injure the Country's Prosperity Without Providing Any Adequate Solution of the Trust Problem.

Senator Chandler of New Hampshire has some views on Havemeyer's recent declarations on trusts and the tariff. He characterizes the sugar trust boss as a plutocratic Democrat. Havemeyer, according to Chandler, is a multimillionaire Democrat, who, false to his own party, cannot influence ten votes. Neither can he influence votes by his money. He will not dare give it to Bryan, and there is no one else to whom he will dare give it.

The Republican party is not afraid that any capital can be made against the tariff on account of trusts. These exist everywhere, all over the world, in free trade as well as in tariff countries.

"The Republican doctrine as it will be enunciated at the next national convention, which will renominate Mr. McKinley," said Mr. Chandler, "is that it is unnecessary to destroy any industry in this country in order to restrain trusts. We want home industries, and we don't want trusts."

"In order to maintain the home industries we must have high tariff duties against the cheap labor and the cheap products of foreign countries. The maintenance of the tariff as an American doctrine was settled beyond peradventure by the election of McKinley in 1896 and the enactment of the Dingley bill. We are not going to destroy the tariff as a means of checking trusts."

"But how are you going to check trusts?" "They can be restrained easily and absolutely if the people and their legislatures and congress wish to do it by suitable laws. There can be no huge and dangerous trusts maintained by partnerships of individuals. They can only flourish through immense corporations issuing stocks and bonds. These corporations can only be created by state legislatures, and the same legislatures which create them can destroy them."

"Without completely destroying them a legislature can limit their functions and powers, can absolutely determine the business in which they shall engage and prevent them doing any other. It can fix and limit the amount of their capital stock and the bonds which they can issue. Every state legislature can thus control the corporations of its own state and with greater or equal facility can restrain or control the corporations of other states. Congress can control or destroy the transportation trust and some others. State legislatures can do the rest."

Senator Warren of Wyoming is another visiting statesman who bears testimony to the public interest in the trust question. He says: "In the west the people are beginning to see that the trust business has been overplayed. It will cease to have its present terrors by the time the national conventions meet. The question may figure in the campaign, but it now looks as if it will be too far in the past to have any particular weight in the coming elections."

"Out in my section the administration's policy with respect to foreign questions is receiving a loyal support. Every one is not an expansionist as that term is understood, but all are giving the president a support that indorses his policy of maintaining the honor of the flag and the integrity of the government."

"Generally speaking, the conditions in the west are good. The crops, with exceptions here and there, are excellent, and the farmer has promise of an abundant harvest. I noticed coming through Nebraska that the winter wheat was a failure, but the corn crop is good. Throughout the whole west there is a feeling of contentment and a belief that the brighter days will remain with us. Much of this is due to wise legislation by the Republican congress, and it will find a responsive echo when the election days come again."

"The sheep men are just emerging from their depressed conditions. The enormous importation of wool under the Wilson law in anticipation of the Republican action weighted down our American wools and flooded the country with foreign wools that came in free of duty. That surplus is gradually disappearing, and, although there still is much of it in the warehouses, it is rapidly being used, and the near approach of its full disappearance is starting the price of American wools upward. Our western sheep men are taking courage, and our cattlemen can only hope that, through the unfortunate attack on the beef supplies to the army, they will not be made to suffer too long."

A third contribution on the trust question is from ex-Representative Farquhar of New York, a member of the industrial commission. When asked what he thought would be the recommendations of the commission on the trust question, Mr. Farquhar said that he was unable to forecast it, but he did not see how corporations can be declared unlawful.

"Trusts," said he, "are formed for the avowed purpose of cheapening production, controlling prices and regulating the output. According to the universal laws of trade this cannot be declared illegitimate. The formation of trusts is nothing more than the outgrowth of new business conditions in the country. We as a nation are producing a vast amount more than we consume, and the combination is nothing more than an effort to get products on the market in the cheapest way. It is not due to a desire to make more money, but to make as much as was

ANGEL CHILDREN.

Is there any happier woman in this world than that mother whose each successive little one seems to her but one more darling angel to continually lift her thoughts toward the sunshine of perfect happiness? But sorry is the lot of that poor mother to whom motherhood has ceased to be a cause of rejoicing, but has become instead a burden to be dreaded and looked forward to with melancholy and apprehension. "About three months before our last baby was born (which is our fourth), writes Mrs. Nellie Carl, of Myrtlepoint, Coos Co., Oregon, "my health was very poor. I had been troubled for about eight years with female disease. I doctored with good physicians but obtained no relief, so I wrote to the World's Dispensary Medical Association, and was advised to take Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery.' I did so, and am happy to say my health began to improve and I did my work up to the last, and felt splendid. I got along finely during confinement, and have the healthiest baby I ever saw. When he was three months old he weighed eighteen pounds; he is now seven months old and weighs twenty-four pounds. I can say I have had no return of my old troubles. I thank you very much for the good you have done me."

ANY woman may write to Dr. R. V. Pierce, of Buffalo, N. Y., a statement of her case, which will be considered in absolute confidence by this physician who stands among the foremost specialists of the century in the treatment of women's diseases. He will send her (in a plain, sealed envelope) sound, sensible, valuable advice free of all charge. Dr. Pierce's great thousand-page, illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 21 one-cent stamps, to pay the cost of mailing only, or cloth-bound for 31 stamps.

WHEN President McKinley greeted the returning Thirteenth Minnesota volunteers he gave his boutonniere to the little daughter of F. L. Stetson, of Minneapolis. Her brother was a volunteer, but was behind on sick leave. She had told the president so, and he replied: "Then give him this as my greeting when he returns." Private Stetson got the flower on Thursday.

WHEN Miss Sarah Norlin, of Topeka, Kas., returned from her vacation Charles Eckstrom, a friend met her at the station and shook her hand so vigorously that Sarah fell and broke her leg. Eckstrom paid her doctor's bill, and thought the matter was settled finally until he got notice that Miss Norlin had entered suit for \$3,000 damages. When the case was called Eckstrom testified that his violent handshake was merely an exuberant expression of his joy at seeing Miss Norlin again and that he meant her no harm. The jury thought that Eckstrom had done about the right thing when he paid the girl's doctor's bill, and rendered judgment in his favor.

A CUBAN correspondent of the Philadelphia Record says: "The country around Puerto Principe is the best in Cuba for grazing purposes—vast grassy plains, where millions of cattle might be well sustained. Yet to this day Cubans generally go without butter or pay \$1 per pound for vile smelling stuff brought in tin boxes from Denmark and not fit for wagon grease. Enterprising Americans can find no better field than right here, in well conducted cattle farms. The industry would not require large capital, like sugar and coffee, and would bring sure, speedy and bountiful returns. Some tobacco is grown in the neighborhood, and a great deal of sugar cane; and wild honey, produced by the stingless bees of the country, is exported in considerable quantities."

THE preparations for moving the telegraph office to its new quarters in the superintendent's building have been commenced. A gang of men is at work setting the poles necessary for re-stringing the wires.

Place your confidence in a remedy that is GUARANTEED to cure. "I coughed constantly and my strength was all exhausted; I looked more like one dead than alive. Beggs' Cherry Cough Syrup entirely cured me."—Mrs. S. D. Harsh, Fairport, Kan. For all throat and lung troubles, IT HAS NEVER FAILED. A. F. Streitz.

ONLY ONE CURE FOR SCROFULA.

S. S. S. is the Only Remedy Equal to this Obsolete Disease.

There are dozens of remedies recommended for Scrofula, some of them no doubt being able to afford temporary relief, but S. S. S. is absolutely the only remedy which completely cures it. Scrofula is one of the most obstinate, deep-seated blood diseases, and is beyond the reach of the many so-called purifiers and tonics because something more than a mere tonic is required. S. S. S. is equal to any blood trouble, and never fails to cure Scrofula, because it goes down to the seat of the disease, thus permanently eliminating every trace of the taint.

The serious consequences to which Scrofula surely leads should impress upon those afflicted with it the importance of wasting no time upon treatment which can not possibly effect a cure. In many cases where the wrong treatment has been relied upon, complicated glandular swellings have resulted, for which the doctors insist that a dangerous surgical operation is necessary. Mr. H. E. Thompson, of Milledgeville, Ga., writes: "A bad case of Scrofula broke out on the glands of my neck, which had to be lanced and caused me much suffering. I was treated for a long while, but the physicians were unable to cure me, and my condition was as bad as when I began their treatment. Many blood remedies were used, but without effect. Some one recommended S. S. S., and I began to improve as soon as I had taken a few bottles. Continuing the remedy, I was soon cured permanently, and have never had a sign of the disease to return." Swift's Specific—

S. S. S. FOR THE BLOOD—is the only remedy which can promptly reach and cure obstinate, deep-seated blood diseases. By relying upon it, and not experimenting with the various so-called tonics, etc., all sufferers from blood troubles can be promptly cured, instead of enduring years of suffering which gradually but surely undermines the constitution. S. S. S. is guaranteed purely vegetable, and never fails to cure Scrofula, Eczema, Cancer, Rheumatism, Contagious Blood Poison, Tetter, Pimples, Sores, Ulcers, etc. In fact upon S. S. S. nothing can take its place. Books on blood and skin diseases will be mailed free to any address by the Swift Specific Company, Atlanta, Georgia.

Legal Notices. PROBATE NOTICE. State of Nebraska, Lincoln County, ss. In the County Court, October 24, 1899. In the matter of the Estate of James R. Bangs, deceased.

IN THE MATTER OF THE ESTATE OF ALVIN C. BACON, Deceased. This case came on for hearing upon the report and motion of Orin C. Bacon, administrator of the estate of Alvin C. Bacon, deceased, for the confirmation of the sale of the Southwest quarter of Section 8, in Township 10 north, of Range 23 west, in Lincoln county, Nebraska, said land having been sold on the 30th day of September, 1899, by the said administrator by virtue of an order of sale issued by me on the 10th day of June, 1899.

NOTICE OF SALE. Notice is hereby given that by virtue of an order of sale made on the 28th day of October, 1899, by the Hon. M. M. Grimes, Judge of the Third Judicial District of Nebraska, sitting at chambers in the City of North Platte, in and for the County of Lincoln, I will on the 1st day of December, 1899, beginning at the hour of 9 o'clock A. M. of said day, sell at public vendue to the highest bidder, the following property to-wit:

ALL the assets not adjusted and collected remaining in my hands of the State Bank of Wallace, Lincoln county, Nebraska, consisting of some secured and some unsecured, a full and complete statement of which, with the kind and character of security therewith belonging, may be found in the office of the Clerk of the district court of Lincoln county, Nebraska. All the real estate belonging to said bank, described as follows, to-wit: Lots 11 and 12 in Block 11 in the town of Wallace, in said county, on which is located a 2-story brick building, 32x36, with one story kitchen, 10x20, also well and pump.

ONLY ONE CURE FOR SCROFULA. S. S. S. is the Only Remedy Equal to this Obsolete Disease.
