THE TRIBUNE joins the bride's many friends in extending congratulations to Mr. and Mrs. Mitchell.

## Union Pacific Improvements.

The Union Pacific annual report says: "Surveys have been made and some are still in progress for important changes of line, particularly in Wyoming between Cheyenne and Evanston, looking to a future material reduction in the length of line and in its curvature and the establishment, if possible, of a uniform maximum gradient of forty-three feet per mile in either direction between those points in place of the present maximum of seventy-six feet per mile excepting possibly on the section of line between Laramie and Cheyenne traversing the Sherman divide which presents unusual obstacles to overcome." It begins to look however as if the extraordinary obstacles, of which the report speaks, are to be overcome by a tunnel as the plans for it are nearly perfected, Chief Engineer Berry having recently devoted a great deal of time to it.

Horses are being bought up quite thoroughly in the eastern part of the state. The supposition is that a good many of them are being purchased for the British army. Farmers who previously thought themselves unfortunate because of the fact that they had a number of horses on hand are now beginning to realize something on them.

An eighty-acre farm situated near Fremont was sold at sheriff's sale Saturday afternoon for seventy-eight dollars an acre, the highest price ever paid for farm land in Dodge county. The large price which it brought was due in a measure to the fact that two farmers wanted it and their bidding forced the price up.

During 1899 county refunding bonds were issued in Nebraska to the amount of \$168,000 and original bonds were issued to the amount of \$16,000. The total issue of original bonds, school bonds and precinct bonds was considerably less than for a similar period in a number of years.

The wrangle between Auditor Cornell and the other members of the state printing board over the compilation of the senate and house journals still goes merrily on. The latest development is the ousting of J. O. Berkly and A. G. Keim, who were authorized by the legislature to prepare the copy from the office of the secretary of the state where they were preparing it from the official records. R. H. Langford, who was originally awarded the contract but later enjoined from carrying it out, is still patiently awaiting developments.
