THE special congressional committee which investigated the case of Roberts, the polygamist member from Utah, will lay its report before the house to-day, and he will be promptly thrown over the transom.

WE : issue in supplement form today the speech recently delivered by Senator Beveridge of Indiana, on the Philippine question. The Senator spent part of last year in the Philippines studying the conditions of the islands, and is therefore well versed in the question he discusses.

As exchange says that applications for pensions have been made , by 6,520 men who participated in the battle of San Juan. Of this number 2,962 come from the regular army soldiers and 3,558 from volunteers. Twenty-three regiments of regulars were in the battle and nine regiments of volunteers. One regiment did not have a man killed, wounded or missing, yet from this regiment alone 912 applications for pensions have been filed.

No. country inquirer, Senator Clark, of Montana, who purchased his election at the rate of ten thousand dollars a vote, is not a republican. In 1896 he was one of Bryan's good angels and contributed liberally, yes, very liberally, to the campaign fund, and since then has been a rampant sixteen-to-onerprobably because he is a silver mine owner. He is a "reformer," and the investigation now in progress at Washington shows that as such he is on a par with the "reformers" in Nebraska.

LAST week a dispatch was sent out from Chicago giving some details of a reported close combination which the great railroads of the east had made, or would make. The plan as outlined was the

The new canal, which will be under control of America, will make a direct waterway from the eastern and southern coast to Hawaii, China, Japan, Australia and the Philippines, and means much for the commercial interests of the country. With north and south railroads to the gulf, the people of Nebraska and other western states

will have competitive lines to bid for their products which are to be shipped to the Orient. Since the United States is reaching out into and across the Pacific, the need of the 1sthmus canal is more apparent and it remains for a republican administration to push it through.

The new financial bill is still before the senate, with a prospect of another week of debate. Senator fill vacancy. Allen has not yet talked on the bill. and it is said that be is to close the debate, Washington papers board intimate that he will take two or three days to finish his remarks.

It has been noticed that every time the Philippine question comes up in the senate, as it does once or twice a day, Senator Allen takes no part, but often slips out to the cloak room to wait for the storm to pass. Since his speech made last winter, in which he upheld the war and denounced the Philippinos as "worse than Sioux Indians," he has no anxiety to go on record as opposed to the war this winter.

The effort being made in Ne- play will agree that a better selecbraska to bind the pop party hand tion could not have been made. and foot and turn it over to the democrats is attracting much attention in the east, and the activity of Senator Allen in the work is causing much comment. The suspicion is abroad that Allen has his own eye on the presidency. It is thought that a deal has been made whereby Allen is to take the leading part in delivering the pop party this year. under the promise that he may be the democratic candidate for president in 1904. There may be something in this, as the bills the Senator has been introducing of late indicate that he is trying to attract

# **Results Fatally in Nine** Cases Out of Ten—A Cure Found at Last.

This fearful disease often first appears as a mere scratch, a pimple. or lump in the breast, too small to attract any notice, until, in many cases, the deadly disease is fully developed.

Cancer can not be cured by a surgical operation, because the disease is a virulent poison in the blood, circulating throughout the system, and although the sore or ulcer-known as the Cancer-may be cut away, the poison remains in the blood, and promptly breaks out afresh, with renewed violence.

The wonderful success of S. S. S. in curing obstinate, deep-seated blood diseases which were considered incurable, induced a few despairing sufferers to try it for Cancer, after exhausting the skill of the physicians without a cure. Much to their delight S. S. S. proved equal to the disease and promptly effected a cure. The glad news

spread rapidly, and it was soon demonstrated beyond doubt that a cure had at last been found for deadly Cancer. Evidence has accumulated which is incontrovertible, of which the following is a specimen :

OUT at Oakland, Cal., Sunday last Rev. McInness, of the Congregational church, announced his retirement from the ministry, and in his remarks said: "The ministry is no place for a young man who wants his personal liberty. He must use too much hypocrisy, and overlook too much hypocrisy in others." It is quite evident that McInness missed his calling when he entered the ministry, and it is perhaps well for the church, over which he administered, that he has retired. It may be true that a minister must overlook hypocrisy. for there are hypocrites in every church, but no true minister will use hypocrisy. As efor personal liberty, it is presumed that a man enters the ministry for the purpose of teaching morality and saving souls and in doing this there is necessarily an abandonment of certain liberties.

OUR WASHINGTON LETTER.

WASHINGTON, D. C. Jan., 20, 1900. Special Correspondence.-There is one proj. ct that has interested the people of the United States for years, and that is the building of a canal across the Isthmus of Panamr.. This is pretty certain to be provided for by the present con gress. President McKinley has expressed an anxiety to see the canal put through, and almost every member of congress is also in favor of it. The bill appropriating \$40,000,000 to build the canal has been favorably reported, and is likely to be adopted without serious division.

# Old People Made Young.

J.C. Sherman, the veteran editor of the Vermentville (Mich.) Echo, has discovered the remarkable secret of keep ing old people young. For years he has avoided Nervousness, Sleeplessness, In-digestion, Heart trouble, Constipation and Rheumatism, by using Electric Bitters, and he writes: "It can't be praised too highly. It gently stimu-lates the kidneys, tones the stomach, aids digestion, and gives a splendid ap petite. It has worked wonders for my wife and me.
