Sugar Beet Demonstration.

General Manager Ferrar of the Grand Island beet sugar factory accompanied by Mr. Ewell, agriculturalist of the same establishment, were in town yesterday. They had been in Hershey for a few days closing a deal whereby the Grand Island factory and the North Platte Land and Water Co. will jointly plant and have cultivated sixty acres of sugar beets in the vicinity of Hershey. To cultivate the beets a colony of Russians, numbering about fifty men, women and children, will be imported from Kansas City, and they are expected to arrive early next month. Suitable houses for them will at once be constructed. This move on the part of the factory and the water company is for the purpose of demonstrating to resident farmers on irrigated land the profits which accrue from the raising of sugar beets. Messrs. Ferrar and Ewell are confident that this demonstration will be very successful and that both the yield in tonnage and in purity will be above the average. The total acreage of beets now contracted between North Platte and Sutherland is 104 acres, and several more applications for contracts have been made. A practical beet grower will be sent here when the beets are planted and will remain until the beets are harvested. He will be employed by the factory and his duties will be to give such advice from time to time to beet raisers as in his opinion is necessary. He will personally inspect every beet field which is planted within the territory named, and his assistance will be of material benefit to the growers. The sugar factory people believe that the irrigated section of Lincoln county offers unusual advantages for the cultivation of sugar beets, and they believe that this season's demonstration will lead many farmers to engage in beet raising next season.

The city election will be held on Tuesday of next week. So far there has been no campaign owing to the fact that it was only last Saturday that any opposition to the republican ticket materialized. On that day there were filed with the city clerk the following nominations by petition: Mayor, J. H. Cunningham; clerk, J. E. Quinn; treasurer, A. F. Streitz; city engineer, P. G. Meyer; councilman, First ward, P. H. Sullivan; coun-

cilman Third ward, Frank Foster; members of school board, F. E. Bullard and J. G. Beeler. While these nominees are by petition, each nominee is either a democrat or a populist, or more properly speaking all are fusionists, and it is therefore evident that they desire a drawing of the party lines. It is claimed by some that these candidates constitute a citizens' ticket, and that it is not partisan. This claim is made only for the purpose of securing republican votes, and thereby weakening the republican ranks to such an extent that it will have an effect upon the election this fall. But republicans are not likely to be hoodwinked by such claims—they realize that the fusionists are schemers, and that every fusion move is in the interest of the fusion party. At the head of this page will be found the republican ticket. There is not a man on it who is not deserving of the vote of every republican in the city. Let every republican get to the polls and vote the straight ticket.

THE republican nominee for city clerk is disabled from manual labor by reason of physical infirmities. He has a large family dependent upon him for support and he needs the salary of the office. The young man opposing him is working at a trade which pays him seventy-five or eighty dollars per month, and has but a small family to support. The republican nominee is in every way competent to fill the office creditably, is obliging and will be accessible at all hours of the day, as he will have office room in the central part of town.

In a letter to the State Journal of yesterday F. A. Harrison says that there are rumors in the air at Washington to the effect that Assistant Secretary of War Meiklejohn will actively enter the fight for one of the senatorships from Nebraska, and that he will possibly do so by way of the gubernatorial nomination. It is further stated that Mr. Meiklejohn will visit Nebraska during April, and make a sounding of the situation.

THE election of H. S. White means a continuation of the business-like administration which has prevailed in city affairs for the past two years. By good management the city's floating indebtedness has been reduced over two thousand dollars since May 1st, 1898, and with Mr. White in the mayor's chair one year hence the entire debt will be wiped out.

BISHOP POTTER has been to Manila. He was an Atkinsonian anti-expansionist before he went there, but returns convinced that the United States can give the Filipinos a much better government than Aguinaldo can and that our plain duty is to go on with the work already begun. He went, he saw, he was conquered.

THE present fusion candidate for mayor was repudiated at the polls one year ago, when only about two-thirds of the republican vote was cast. This year, with a full vote, he will be covered so deeply that it will require considerable time and exertion to extricate himself.

CANCER Cannot be Cut Out or Removed with Plasters

Surgical operations and flesh destroying plasters are useless, painful and dangerous, and besides, never cure Cancer. No matter how often a cancerous sore is removed, another comes at or near the same point, and always in a worse form. Does not this prove conclusively that Cancer is a blood disease, and that it is folly to attempt to cure this deep-seated, dangerous blood trouble by cutting or burning out the sore, which, after all, is only an outward sign of the disease—a place of exit for the poison?

Cancer runs in families through many generations, and those whose ancestors have been afflicted with it are liable at any time to be stricken with the deadly malady.

Only Blood Diseases can be Transmitted from One Generation to Another

further proof that Cancer is a disease of the blood. To cure a blood disease like this you must cure the entire blood system—remove every trace of the poison. Nothing cures Cancer effectually and permanently but S. S. S.

S. S. S. enters the circulation, searches out and removes all taint, and stops the formation of cancerous cells. No mere tonic or ordinary blood medicine can do this. S. S. S. goes down to the very roots of the disease, and forces out the deadly poison, allowing the sore to heal naturally and permanently. S. S. S. at the same time purifies the blood and builds up the general health.

A little pimple, a harmless looking wart or mole, a lump in the breast, a cut or bruise that refuses to heal under ordinary treatment, should all be looked upon with suspicion, as this is often the beginning of a bad form of cancer.

Mrs. Sarah M. Keesling, 941 Windsor Ave., Bristol, Tenn., writes: "I am 41 years old, and for three years had suffered with a severe form of Cancer on my jaw, which the doctors in this city said was incurable, and that I could not live more than six months. I accepted their statement as true, and had given up all hope of ever being well again, when my druggist, knowing of my condition, recommended S. S. S. After taking a few bottles the sore began to heal, much to the surprise of the physicians, and in a short time made a complete cure. I have gained in flesh, my appetite is splendid, sleep is refreshing—in fact, an enjoying perfect health."

Our medical department is in charge of physicians of long experience, who are especially skilled in treating Cancer and other blood diseases. Write for any advice or information wanted, we make no charge whatever for this service. THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.
