Eight Big Loaves!

—that's your PROFIT!
—that's your GAIN!

where Sleepy Eye Flour is used.

It has been demonstrated time after time—proven conclusively—that Sleepy Eye Flour makes from eight to ten loaves of bread more to the sack than other flours. That's quite a saving, and it will do it, too. A trial sack convinces; then trial users become steady customers.

Leo Tobin was notified by the war department Saturday afternoon that he had failed to pass in mathematics and that the appointment to West Point had therefore been given to the alternate, C. O. Meals, of O'Neill. Leo passed a very creditable examination in all of the other branches. He will now remain here and devote his time for the present to business in the Harrington & Tobin store. If he decides to adopt a business career he will undoubtedly make a success of it as he is a very bright, energetic and capable young man.

Orange specials still continue to come, the seventy-fifth one having gone through yesterday afternoon. The winter fruit traffic has been unusually heavy and there is every indication that the summer traffic will show a corresponding increase and if it does the vast amount of ice stored here will probably prove to be none too much to keep the fruit properly iced.

No appointment of a successor to W. A. Whitney as chief dispatcher at Grand Island will be made until April 1st.
