Sheriff Keliher went to Hershey yesterday afternoon to apprehend an insane woman who has been wandering around the country since Sunday. She was in town Sunday afternoon. While here she went to the Schatz residence and asked permission to come in and rest for a few moments. Her request was granted and she went in the house and lay down on a couch where she was soon fast asleep. When she awoke Mrs. Schatz gave her some money to get a room at the hotel for the night. Instead of doing that she started to walk west along the railroad track. The family noticed that she acted rather queerly but thought it was due to her exhausted condition. She made her way to Nichols Monday and since then she has been wandering around between there and Hershey. She is not at all inclined to be violent but as she is apparently quite irresponsible some of the Hershey citizens wired down for Sheriff Keliher to come and take her in charge. She will be taken before the board of insanity at once and will probably be sent to the asylum.

Owing to a re-survey of part of the old Ft. McPherson military reservation which has been made the interior department has ordered a new appraisal to be made. The appraisal will be made by Fred Hoisington, a special agent of the United States land office, and two local appraisers. The new survey takes in some of the island which was not included in the former survey and cuts off two lots which were included. The work will be commenced as soon as the appointment of the local appraisers is confirmed by the interior department.

#### Postmasters' League.

The Lincoln county league of postmasters of fourth class post-offices held a meeting at the court house yesterday afternoon. A constitution and by-laws were adopted. It was decided best to hold but two regular meetings in each year, one on the second Thursday in January and the other on the second Thursday in July. A copy of the resolutions passed at the last meeting of the league urging the Nebraska senators and representatives to support the Cumming's bill had been sent to Senators Allen and Thurston and Representative Neville. Letters were received from each one acknowledging the receipt of the resolutions and the senators promised to help the measure along. Congressman Neville evidently thought that the resolutions were meant to apply to the measure which he recently introduced and consequently he wrote that he would file the copy of the resolutions as supporting his bill. The secretary was instructed to write him that it was the Cumming's bill they wished passed and not the Neville bill. The league adjourned to meet the second Thursday in July.

## The Difference

"I've been reading your ads about Sleepy Eye Flour for a number of days," remarked a man in our place the other day, "and for the life of me I don't see how you can find so much to say about it."

Well, the trouble is we cannot say enough about it. If the people who read these ads knew how good this flour was—how much better it is than other flours—we would sell a sack to every family in this town.

#### Y. M. C. A. Improvements.

Sec'y McDill, of the international Y. M. C. A., has been here for several days consulting with the board of directors and the local secretary concerning some improvements in the rooms that are absolutely necessary. He has decided to devote some of the Dillon fund which is at the disposal of the Y. M. C. A., to the improvements in the bath rooms. Three new porcelain tubs will be added and the tank will be moved further back in order to do away with the extra heat in the summer. These improvements will be paid out of the Dillon fund but funds will be needed to refurnish the rooms and the members of the association and the citizens will be asked to contribute towards this part of the expense. This request for contributions ought to meet with a hearty response as the need is a pressing and vital one. The Christian members of the community ought to realize that an institution which is making an effort to look after the young men who are without homes or any particular family ties is worthy of self-denying support. The only way that the association can ever be made the power it ought to be is for those who are interested in the moral welfare of the town to give it their earnest support.

#### The Union Pacific's Back Taxes.

The compilation of the delinquent land taxes of the Union Pacific railroad was completed in the county treasurer's office yesterday. The total amount of taxes due is \$64,271.06, the interest is \$13,424.03 and the advertising is \$1,424.70 which makes the total amount which the road owes upon its taxes, \$79,437.79. The amount which the road proposed as payment for this claim was \$37,300.52, less than half the amount which is due. The highest amount of taxes assessed in one year was in 1896 when they amounted to \$20,288.60. The 1899 tax amounts to \$9,700.16. This indicates that there is some force in the road's contention that the assessments have been exorbitant but there is a question whether theirs was any more exorbitant than that of other property holders in the county who have been compelled to pay their taxes in full. This statement will be turned over to the county attorney and he will then decide what steps to take to follow out the instructions of the commissioners to sue the company.

## Railroad Notes.

H. V. Hilliker has been appointed acting chief dispatcher of the middle district and the branches.

Chas. Yost has returned from a visit in the eastern part of the state and resumed his work on the road.

Engine No. 1808 has been brought down from the Fourth district and will be given an overhauling here.

Yardmaster Vernon, who had been laying off for a few days on account of his wounds, resumed work Wednesday morning.

Engine No. 611 came out of the shops yesterday and after being broken in will be sent to Julesburg to go into service on the Julesburg branch.

The Pennsylvania railroad has again made a world's record in car hauling. This time it hauled 165 cars with one of its new engines. The Union Pacific officials will have to tack on a few cars if they are going to maintain their supremacy.

The ninth train crew was put into service on the Third district yesterday with Jas. Dorram as conductor and Chas. Yost and Ed Rannie as brakemen. O. K. Peck takes Dorram's place as brakemen. Another crew was also put into service on the Fourth district. It business continues to improve another crew may be added in about two weeks.

Additional men have been put at work on all of the sections. Each foreman has been given permission to hire one more than he had

last season as there is considerable work to be done. The heavy engines and the heavy trains which have been hauled during the past few months have raked the track more than the lighter ones did and necessarily there is more than the usual amount of spring repair work necessary.

Two ballasting gangs, each consisting of sixty men will be put at work on the Third district between Ogallala and Julesburg next Monday. They will first be put at work getting the track in shape for the ballast. The heavier part of the dirt work was completed last fall but there is some trimming to be done and some fills to be made to put the track in condition for the gravel. The ballasting this year will be in charge of the operating department instead of the engineering department. Roadmaster Connors will be in immediate charge of the work on the Third district.

North Platte lovers of baseball will have an opportunity to enjoy a good game on Friday, May 4th, as the Omaha western league team has consented to stop here and play a game on that date with the Union Pacific nine while enroute to Denver to play a game with the Denver nine. Just as soon as the weather will permit the local nine will begin hard practice.
