There are ten road districts in Lincoln county that have no qualified overseers. The law provides that poll tax may be sworn off if citizens are not notified to work the same. It also provides that three-fourths of the road tax may be worked out. The question has arisen in the minds of some as to whether or not the road fund will suffer the loss of tax and parties escape working poll tax in the event no overseer qualifies to give the necessary notice. Overseers can qualify any time between now and the first of October and it would be well for the citizens of the various road districts to give this matter some attention. There are thirty road district books still in the clerk's office ready for overseers.

#### Directors' Meeting.

The board of directors of the Y. M. C. A. held their regular monthly meeting at the Y. M. C. A. parlor Saturday night. A report was made of the amounts donated for the remodeling and renovation of the association rooms. It showed that \$100 had been donated by the Keith estate, \$225 by the Dillon estate and \$285 by citizens. The latter amount was largely raised by personal solicitation by the members of the finance committee. The membership committee asked for the appointment of another person to serve upon it. The report of this committee showed that forty new members had recently been added to the association.

The devotional committee reported that the Sunday afternoon devotional meetings had been resumed. It was decided to have a union service at the rooms Easter afternoon. A new constitution was presented and acted upon. W. M. Cunningham made a very brief but forcible address to the directors upon the need of more aggressive association work and suggested various ways in which the rooms might be made more attractive.

H. B. Hollingsworth presented his resignation as secretary but the board deferred action upon it until after General Secretary McDill's visit here the latter part of this week. Mr. Hollingsworth has been secretary of the association here for six years, and during that time he has been earnest and untiring in his efforts to further Christ's kingdom among men. If his resignation is accepted he expects to go to Chicago and attend the Moody Bible Institute for at least three months and possibly a year and may decide to remain there and identify himself with city mission work.

Millinery opening at The Leader April 10th, 11th and 12th.

W. M. Hinman has recently been notified that the court of claims has dismissed one of his Indian claims amounting to over \$7,000, because the members of the court have decided that the evidence shows that the Indians who committed the depredations were hostile. As this is the court of last resort as far as Indian claims are concerned this claim of Mr. Hinman's seems doomed unless the amendment, which is now before congress to reconsider all claims even those for damages by hostile Indians, is passed.

## Railroad Notes.

John Baker returned Sunday night from a brief business trip to Omaha.

Boyd Dickinson returned Sunday night from a business trip to Omaha.

Fred Douglass leaves for Cheyenne tonight to resume his work as brakeman on the Fourth district.

The work of repairing the elevators at the icehouse was completed Saturday morning and they are again operating smoothly.

All of the ballast cars scattered along the Nebraska division have been ordered sent to the Wyoming division to be in readiness for the ballast as soon as it can be gotten out of the gravel pit.

All of the passenger engines are to be fitted with electric headlights. Several of the engines already have them. One of them has been set up in the district foreman's office for the instruction of the engineers.

A runaway created considerable excitement around the station Saturday night as the team headed for the tracks and went across them in such a fashion that the occupants were thrown out. No serious damage was done although both of them received a severe shaking up.

Engine No. 492 brought the pile driver in from the east this morning.

Several new machinists and boiler-makers will be added to the force here within a few days, the amount of work to be done here rendering such a course necessary.

John Lanktree came in from Omaha last night, bringing with him the pile driver and its gang. They will go to Big Springs to do some work bridging.

Gus Fries, who has spent the past eight months here looking after the repairs and alterations that were made in Union Pacific property, left last night for his home at Omaha. This summer he will have charge of the construction of several new depots in the eastern part of the state.

Another crew was put on the Third district, Sunday. It is in charge of John Simpson, Robt. Mason, Chas. Bogue and E. Kiser are the fortunate brakemen whom it puts on regular crews. There are now ten crews on the Third district and seven on the Fourth, only one less on each district than there was at the same time last year when the standards were still in service. This is a very good criterion of how business is increasing on the Union Pacific as the tonnage of the trains is very much greater than it was last year.

We are showing over thirty styles in Gowns, twenty in Corset Covers and an endless variety in Drawers and Skirts.
