British Forces Are Advancing North Through Enemy's Country.

REST THREE MILES OF VET RIVER

Boers on Opposite Bank Are in Considerable Strength-Good Work Done by Hamilton's Forces-Barton's Brigade Meets With Success in Storming Hilly Positions.

LONDON, May 7 .- The War office has published the following dispatch from Lord Roberts, dated Vet river, Saturday, May 5, 7:15 p. m.:

"I marched here today with Pole-Carew's division. Headquarters and Wavell's brigade of the Seventh division are two miles in the rear. Maxwell's brigade of the Seventh division is the same distance to our right.

'The enemy are in considerable strength on the opposite bank of the river. Our guns engaged theirs for some three hours without our being able to force a passage of the river, but shortly before dusk the mounted infantry, under General Hutton, turned the enemy's right and in a very dashing manner pushed across the river under heavy shell and musketry fire.

"We are now bivouncking for the night within three miles of Vet river. Our casualties, I hope, are not numerous.

"Hamilton was in action yesterday and succeeded in preventing a junction of two Boer forces by a well executed movement by some of the Household cavalry, the Twelfth Lancers and Kitchener's horse, who charged a body of the enemy and inflicted serious loss. The enemy fled, leaving their dead on the field and their wounded to be attended to by our dociors.

'Macdonald's Highland brigade dislodged the enemy on the right flank under cover of the naval guns, in which operation the Black Watch distinguished themselves and were very skillfully led.

"Hamilton was advancing this morning to a difficult drift over the Kleinevet river.

"Hunter reports that Barton's prigade was heavily engaged this morning two miles north of Rooidan. The enemy's position was quite four miles long and strongly held. He states that our men marched magnificently and carried ridge after ridge in grand style.

'Casualties in this force, in Hamilton's and Hunter's will be reported as soon as possible. "Captain Miller, who was taken

prisoner near Thaba N'Chu, has been sent to Rundle's camp by the enemy with a severe wound in the abdomen.

'Brabant reports that one sergeant and three men were captured on May 2 while on patrol and that one of them, who had been brutally illtreated and left for dead by the Boers, was found the following day.

"Lieutenant Lilley, Victoria Mounted Rifles, reported missing, was found at Brandfort dangerously wounded and has been most carefully attended by the Netherlands ambulance.'

WARRENTON, May 7.-Yesterday General Barton drove from 2,000 to 3,000 Boers from hilly positions at Rooidan, where they awaited them. They retreated after stiff fighting, umber of dead on the The British casualties were slight. General Barton is still pursuing. Windsorton and Klipdam have been evacuated.

CONGRESS AT ROUTINE WORK Nothing of Special Interest is Promised

for the Coming Week.

WASHINGTON, May 7.-Routine business probably will occupy the greater part of the senate's attention during the present week. The resolution offered by Teller, expressing sympathy for the Boers and a desire

that the government extend to both Great Britain and the South African republics its friendly offices in bringing the present war to a close will be called up tomorrow. It is the intention of the Colorado senator to press his resolution to an early vote. It probably will be referred to the committee on foreign relations, but Teller will insist that it be reported in some form

at an early date. Hale, either tomorrow or Tuesday,

will bring forward the naval appropriation bill and very likely the greater part of the week will be devoted to its discussion. With the latitude of debate allowed under the senate rules, it is quite probable that senators will discuss the Boer resolution, the Philippine question and other matters relating to the foreign affairs of the government while the naval bill is under onsideration.

On Thursday the Montana senatorial case will be called up, but it will not be allowed to interfere with the consideration of the appropriation bills. It is the undoubted purpose of the senate leaders to bring about an adjournment early in June, the first week if possible, and unless the unexpected should happen, nothing will be permitted to delay adjournment beyond the middle of June.

The attention of the house th's week will be occupied with various miscellaneous business, except such time as may be devoted to the consideration of conference reports on appropriation bills, which will be given the zight of way. The desire for an adjournment early in June makes it absolutely necessary to expedite the supply bills.

The most important piece of general legislation to be acted upon during the week will be the amended senate bill to amend the general pension lews. This is known as the next Grand Army of the Republic bill. The principal changes it purposes to make in existing laws are provisions for aggregating disabilities and equalizing ratings and to increase the limit of income of widows pensionable under the act of 1890 to \$250. This bill will be placed upon its passage tomorrow under suspension of the rules. The bill appropriating \$1,000 for the militia of the several states also may be called up under suspension of the rules.

Tuesday, under an order made on Friday, will be given to the committee on claims and Friday the war claims. It is not improbable that the contested election case of Pearson against Crawford, from the Ninth North Carolina district, may be called up Wednesday or Thursday.

SUCCESS FOR THE NATIONALISTS

Victory for the Party in the French Municipal Elections.

PARIS, May 7 .- Although it was fully recognized that the nationalists intended to make a determined fight in all the wards of Paris on the occasion of the municipal elections held yesterday throughout France it was never seriously contemplated that their efforts would be crowned with such success as is shown by the results, which must be recognized as dealing a serious blow to the republicans and radiA WRECK BY THE WIND Wilsonville and Vicinity Ravaged by a

WILSONVILLE, Neb., May 8-Ruin and desolation reign in the path of Sunday's storm, the demon doing its work well, and complete families whose homes are now a mass of splinters are being cared for and everything possible is being done to make them comfortable. Returns from the stormswept district bring new catastrophes to light and it is little short of a miracle that as yet there are no fatalities. The worst injured are Mr. and Mrs. Towers, who are in a precarious condition.

At the time the storm struck the place Mrs. Tower and daughter were in the house. They were trying to raise a trap door to get into the cellar, when the house commenced to Suddenly everything became shake. dark and flying debris commenced to strike them. They were carried for some distance, and were then thrown to the ground with some or the ruins on top of them. Mrs. Tower succeeded in extricating herself and crawled some distance, where she lay until found about an hour later. Little Goldie was held prisoner by boards across her chest, with big hallstones striking him in the face until relief came. Mr. Tower and son Addison were in the barn, when it went to pieces. Addison escaped with slight injuries. Mr. Tower started to go, too, when something struck him and he knew no more. He has one leg and several ribs broken and is badly bruised about the head and chest Mrs. Tower has a collarbone broken and is seriously injured about the back and chest. Little Goldie has an ugly gash in her head and is bruised about the body, though not dangerously. All of the buildings were blown to atoms, the loss being \$2,000. on which there is \$500 insurance. One horse was killed.

H. A. Bourne is another victim who suffered some injuries, as did also Mrs. Borne, who has a wrist broken. Mr. Bourne is badly injured about the head and chest. He was in the house at the time it was blown to pieces and was hit by a flyingboard. A11 their buildings, consisting of their house, barn and out-houses, were completely demolished. Loss, \$1,000, part of which was covered by \$500 insurance on house.

E. P. Lavine and wife, whose house was completely wrecked, had an exciting experience. Mrs. Lavine and son Enoch were carried thirty feet high with the house and landed 200 fret from the foundation. Enoch was but slightly injured, while Mrs. Lavine was injured on the leg and head. Mr. Lavine, who was out of the house when the tornado struck it, received a wound on the shoulder. The house was new and was not quite finished. The barn was also blown down. Mr.

FIGHT ANIMAL DISEASE

PREVENTIVE OF HOG CHOLERA 4

United States Bureau of Animal Industry Cooperating With State Divisions in an Important Work-A Bulletin Dealing With Animal Diseases About to Be Issued.

LINCOLN, Neb., May 7 .- The division of animal pathology of the state university, in co-operation with the United States bureau of animal industry, has recently distributed to Nebraska farmers a large quantity of blackleg vaccine for use as a preventive of hog cholera. Reports received at the station from farmers and others who have used the vaccine indicate that it has reduced the mortality among hogs to a considerable extent and that absolute satisfaction has been given in 69 per cent of the cases heard from.

A special news bulletin issued by the university shows that during the year 1899 the division furnished blackleg vaccine to 203 applicants in fifty-six counties, the total number of doses being 23,256. Since the 1st of January the division has furnished the vaccine to 211 applicants in forty-seven countles, the number of doses aggregating 15,000. In the corresponding period of 1899 twenty-three applicants received 1,500 doses, or one-tenth as much as the present season. This greater demand for vaccine is due rather to an increased knowledge of and confidence in the remedy than to an increase in the prevalence of the disease.

The records show that the calls have come from persons that used the vaccine last year and from their neighbors

The station is now preparing a bulletin which deals with this subject in a popular way, giving the cause of the disease, symptoms, etc., and a full discussion of the treatment by vaccination.

The division of animal pathology is making plans for the coming year's campaign against hog cholera. A number of different experiments will be tried in an attempt to stamp out the disease.

Poisoned by Chicken Pie.

FREMONT, Neb., May 7.-Mrs. Orissa K. Bennett, wife of James Bennet, died after a short and violent illness. The physician in charge has decided that her death was due to poisoning, probably from eating chicken ple. Mrs. Bennet was first taken with violent vomiting fits, and the doctor who was called in saw symptoms of poisoning. She had been to a church supper and eaten heartily of chicken pie. Doctors maintain that the fact that none of the others who ate at the same place that night were afflicted does not disprove that she may have contracted the evil effects in that manner as chicken pie polsoning is not unusual and cases quite similar to this

been put through a process of preservation by Secretary of the Commonwealth Griest, says the Philadelphia Record. For years these records have been kept in tin boxes, and, as they were occasionally searched, the result was much confusion in the arrangement of papers. Many of the old wax seals were lost, and the crumpled papers were more or less damaged. Peculiar interest attaches to the Indian signatures, which are yet quite distinct on many of the documents. A large parchment contains the treaty of the Penns with the sachem of the Schuylkill Indians, and embraces the transfer of all the tracts of land or lands lying in or near the River Schuylkill and its branches, under date of September 7, 1742. The consideration for this land, as stated on the deed, included twenty brass kettles, 100 blankets, sixty linen shirts, twenty hats, six coats, twelve pairs of shoes and buckles, thirty pairs of stockings, twenty guns, twelve gunlocks, 300 pounds of gunpowder, 600 pounds of lead bullets, sixty hatchets, fifty planting hoes, 120 knives, 160 pairs of scissors, 100 tobacco tongs. twenty-four looking glasses, forty tobacco boxes, 1,000 flints, five pounds of paint, twentyfour dozen garters, six dozen small silk ribbons, twelve dozen rings, 100 pounds of tobacco, 400 pipes, twenty gallons of rum and £60. There are several large deeds transferring land from the Indians to the Penns, all bearing the peculiar signatures of the Indian chieftains, representing all manner of animals, reptiles, fishes, birds and insects. The most important of these deeds is that conveying to the Penns the territory controlled by the Six Nations, for which a consideration of \$5,000 was paid. The signatures of the Indians to this document give the Indian names and their

WANTS TO SELL HIS BODY.

Contortionist Wants a Customer for His Corpse.

Although by no means desiring to shuffle off this mortal coil, Walter Wentworth wants to sell his body. He has done it twice already in his lifetime, and now, although in his seventy-fifth year, he is looking about for another purchaser, and if he finds one, he thinks he has a good chance of surviving him, too, says the New York Herald. Walter is what is ordinarily called a "freak." He is a contortionist, and the queer things he does with his legs and his arms, and even his spinal column, are enough to make the eyes of the ordinary person bulge out to a dangerous extent. Even physicians are puzzled at the curlous way in which he handles himself, and it was a doctor who first suggested to Wentworth the idea of selling his body. It was just sixty years ago that Wentworth ran away from his home near Detroit, Mich., to ride race horses, Then he joined a traveling circus and went the whole world over. With all is knocking about and the seventy-

General Paget's brigade is attacking the Boer position at Warrenton.

The engagement yesterday was severe and lasted from 9 in the morning until 4 in the afternoon. More than

once the British infantry were obliged to engage the Boers at close quarters and the Boers only retired when their retreat was nearly cut off. The British losses were five killed and twentyfive wounded-mostly Welsh Fusileers. The British took a batch of prisoners, including the Swedish ambulance, which they allowed to return. Boers, in their hurried retreat, left thirteen doad.

Today General Paget made a strong demonstration against the Boer position east of the bridge, thereby preventing Boer, reinforcements going to assist in checking General Barton's advance.

The results show fifty definite elections in Paris. In thirty wards second ballots will be necessary. The nation-alists have gained eight seats, five from the republicans and three from the radicals. The successful candidates include MM. Gaston-Mery, Galli, Lepelletier and Barretier.

The republicans have secured eight seats, including seven members of the old council. The radicals and radical socialists ten and the conservatives eight.

In wards where second ballots are necessary the nationalists obtained the most votes in eleven cases, but the total votes polled by their competitors was higher than the number obtained by them.

To Study American Methods.

SAN FRANCISCO, May 7 .-- R. Kondo, president of the Nippon Yusen Kaisha, one of the leading steamship companies of Japan, has come to this country to make a study of the methods of transportation by rail and water lines. He wil visit the Pacific coast centers and then go east to New York. "The building up of trade on the

Pacific coast from 1893 to 1898 justifies the prediction," he said, "that the progress of development during the next few years will be greater than ever before. We favor an open-door policy and I believe that if we can make a commercial compact with the United States we can control the trade of China. We need capital for the development of our manufacturing industries. If we can get it from America we can do the rest and make large profits for both countries. Personally, do not believe that there is any danger of war with Russia."
