A Surrender to the Railroads.

The fusion members of the State Board of Equalization have fixed the assessment of railroad property in Nebraska for the year 1900 at the same figures as last year, with the exception of additional mileage constructed since that time. The total as it stands upon the assessment roll is \$26,287,570—this in spite of the fact that under a republican administration in 1893, with a smaller mileage, the assessment had been as high as \$28,661,822.

No more complete surrender to the railroads, on the part of public officers sworn to uphold and protect the interests of the people, is recorded. The members of the state board elected on pledges of reform and promises of relief from railroad oppression have turned their backs upon the farmers and producers and make common cause with the great corporations.

Will any one contend that the railroad property in Nebraska is worth less in the year 1900 than it was in the year 1893? Every railroad doing business in the state has a greater earning capacity at present than ever before. Every railroad is carrying more rolling stock and more expensive rolling stock than ever before. The increase in the price of steel makes its trackage more valuable, to say nothing of the natural increment of the right-of-way.

Most of the Nebraska roads have put hundreds of thousands of dollars into improvements during the past year, yet not one cent is added to their taxation. If the farmer builds a barn or enlarges his house the assessor quickly discovers the fact and makes note of it on his assessment. But the railroads, by the connivance of the sham reformers in the state house, have all their improvements marked off. Not a cent is added to represent the value of the new Union Pacific station at Omaha, the new Elkhorn station at Lincoln, the new Burlington station at Kearney and new stations at a dozen other Nebraska points.

The taxes evaded by the rail-

roads are, of course, shifted to the shoulders of taxpayers, of whom the farmers constitute the vast majority. Will the taxpayers of Nebraska endorse this betrayal of confidence by retaining in office a party whose subservience to the railroads is blazoned in this railroad assessment?—Omaha Bee.

GROWING out of Wilson-Bill Wilson's visit with J. Sterling Morton at Nebraska City, the latter gentleman was asked by an eastern party to confirm the truth of Mr. Wilson's alleged utterances on certain questions. Mr. Morton's reply was characteristically Mortonesque. He said:

"Ex-Postmaster General Wilson denied to me that he ever predicted democratic success either upon a silver platform or any other form of Bryanarchy. The man who can drink water after eliminating hydrogen and oxygen therefrom can swallow the Chicago platform and not take financial fallacies nor detect a flavor of lawlessness in the denunciation of the federal court. Bryan is 16 to 1. Silver at 16 to 1 is Bryan. A majority at Kansas City in favor of either is an endorsement of both. There can be no united democracy with either. Bryan may hope as to the gold standard democrats of whom he declared vehemently at Richmond and other places: 'They shall not come back.' Not one of them in all the republic is prepared to renounce honest money and accept Bryan and his vagaries instead.

The Word-Herald correspondent in Washington gives the straight of the Neville-Greene salary matter which has been exploited so prominently by the Holt County Independent. He states that the general deficiency bill which passed the house on Monday contained an item of \$3,845.89 for Mrs. Greene, wife of our late congressman. The correspondent states that Mrs. Greene has already received \$1,250. From this statement it will be inferred that Mr. Neville drew the salary for the full term, as has been stated, but the difference is that Mrs. Greene is not the loser, because congress has established the precedent—as the Hub understands it—of making deficiency appropriations as has been done in this instance.—Kearney Hub.
