THE HUB.

Messrs. Bratt and Iddings, members of the committee appointed by the Commercial Club, returned from Omaha Saturday where they had a conference with Freight Agent Lane, of the Union Pacific, in regard to the extension of the district in which the feed-in-transit rate holds good. When approached on the subject Mr. Lane expressed surprise that the district did not extend to North Platte, as he was of the opinion that it did. Investigation proved that he was in error, and he at once extended the district to Paxton. The securing of this privilege means much to the farmers in the valley between here and Paxton, as it enables western stock shippers to unload on through billing and feed and pasture stock, thus making a home market for the feed the farmers have for sale. Many western shippers will take advantage of the concession made by Mr. Lane.

The electric light proposition, in the form of an ordinance, will be introduced in the city council this evening. If it is a reasonable proposition the council should lose no time in accepting it; if it is unreasonable, then the projectors and the council should get together and make such changes as will prove satisfactory to both. We need the light; it has already been postponed too long. Undue haste should be avoided, but let the matter be brought to a focus as rapidly as possible.
