Cullins Bros. show exhibited in Gandy yesterday. The pull through the sand hills must have been a hard one. It is wonderful that the horses with the show look as well as they do, considering the work they do in transporting the show wagons through the sand hills of western Nebraska.

Local fusionists are working hard to induce a sufficient number of men to fill a Pullman car to attend the national convention at Kansas City, but they are still considerably short of the required number. The plan is to charter a Pullman and use it in Kansas City for sleeping purposes.

The games of ball at Grand Island Saturday and Sunday between the team of that city and a Lincoln nine proved to be considerably one-sided, the scores standing twenty-eight to five and eighteen to two, in favor of Grand Island. The Lincoln team is weak but it is stated that it will be strengthened before it plays in this city this week.

A Shocking Accident.

Mrs. Harry Kitzmiller was instantly killed Friday afternoon by the accidental discharge of a shot gun, the accident occurring north of the north river bridge. About two o'clock Mr. and Mrs. Kitzmiller left the city for a drive in the country, taking with them a hammerless double-barreled shot gun. When reaching a point a short distance north of the bridge, they saw a bird, and Mrs. Kitzmiller, who was quite an adept with a revolver and target rifle, expressed a desire to try her skill with a shot gun. The request was granted and getting out of the buggy she fired one barrel. She then placed the gun in the buggy with the barrel resting on the seat, climbed in and was just ready to sit down when the horse gave a sudden jerk and the remaining cartridge in the gun exploded—just how will never be known. The charge struck Mrs. Kitzmiller on the right side of the head just below the ear, carrying away a part of the skull and making a gaping wound from which the brain oozed forth. Death was instantaneous. A young man by the name of Cully who was riding through the country heard the shot and saw the horse running rapidly. He stopped the horse and found Mr. Kitzmiller almost paralyzed with agony, supporting his wife on his arm. Cully led the buggy with the occupants to town, where the husband was taken in charge

by relatives and the body removed to Warner's undertaking rooms and properly cared for.

Later in the afternoon a coroner's jury was empaneled, the testimony of Cully taken, and then adjourned until the following afternoon when a statement was made by Mr. Kitzmiller. The verdict of the jury was that death ensued from the accidental discharge of a gun.

Mr. and Mrs. Kitzmiller had been married but a few weeks, their marital relations had been happy and blissful, and the sad end of that relationship is an awful blow to the young husband. To him and the relatives of his wife the deepest sympathy of our people go forth.

The funeral was held from the Episcopal church yesterday afternoon, a large concourse of people attending.

Gentry's Dog and Pony Show.

Prof. Gentry's Dog and Pony Show which will exhibit in North Platte Saturday, June 23rd, afternoon and evening, is perhaps one of the most wonderful of its kind in the United States. The intelligence of these ponies and dogs is truly wonderful, and it is all done by kindness. Every animal answers promptly to his name, and does everything he is told to do except talk. Prof. Gentry has 124 dogs, 57 ponies, 25 monkeys and 2 small performing elephants 42 inches and 45 inches high. The ponies are all Shetland except "Eureka" and "Dotty Dimple," which are East India "horses," the only two of the kind in the country. The dogs comprise every species from the Russian poodle to the Indian cur, but they are smart. The backward somersault, the lame dog, the clown dogs, the leaping of the troupe of grey-hounds, and above all, the trick of "Omaha" and "Major" and the remarkable acting of "Colonel" are very fine. The pony drill is superb, as is all the mischief making of "The Tough."
