### BETWEEN THE RIVERS.

Henry Fulk and crew are putting up hay on the Paxton ranch. John Walters is sick in bed at the home of Grant Dowhower at this time.

Another U. P. fence gang is working between Sutherland and Hershey.

The Ware boys will soon have their steam threshing machine on the road.

M. Mickelsen has lately enclosed his stock of cigars in a dandy new show case.

Politics since the Kansas City convention have been very quiet in this vicinity.

Mrs. D. M. Leybold has returned from an extended trip to Omaha and Belvidere.

Geo. E. Sullivan of Nichols, has about recovered from a long and serious spell of sickness.

New baled hay is being loaded on the cars at nearly every station along the line of the Union Pacific.

A large part of the spring grain in this section is in the shock and is far better than was anticipated.

Night Operator Williams of Hershey and Night Operator Brown of Big Springs, have lately exchanged jobs.

Mrs. W. H. Hill has been visiting at Lodge Pole for the past two weeks, where her husband is temporarily located.

Saturday was pay day for the patrons of the Nichols cream separator which put in circulation quite a bit of hard cash.

John Kay on the Clark farm over south, is at the present time loading baled hay at Hershey that he had sold to Seeberger & Co.

V. M. Loker, who is at work on the section just east of the North Platte bridge, is with his family at Hershey on a sick furlough.

The Carpenter boarding house at Hershey is at this time over crowded with guests, the U. P. fence crew of eight making the surplus.

Grasshoppers are fast disappearing from this section of the country greatly to the satisfaction of the

farmers, as well as the business men. In certain localities the earth is nearly covered with dead ones caused by some unknown reason.

Louise Seeberger and Dora Wright were passengers to the county metropolis from Hershey Thursday night.

The farmers in the valley are more cheerful than they were a couple of weeks ago when it was thought that the grasshoppers would take everything.

By invitation several of Mrs. A. A. Leister's friends assisted in celebrating her birth anniversary by taking dinner at her home in Hershey last Monday.

H. B. Hungerford is loading baled hay at Nichols for W. J. Shinkle, who is cutting and baling the hay on the old canal company's land for Seeberger & Co.

S. J. Koch has his hay camp planted on the Hope land on the south side opposite Spuds, where he is cutting and baling. It will be loaded on the cars at Spuds.

### Imperialism not the Issue.

United States Senator George F. Edmunds follows the example set by Senator Hoar with reference to the issues in the present campaign. Edmunds and Hoar have been long-time republicans but permitted themselves to go wrong on the Philippine question. Senator Hoar was interviewed a few days ago and said:

"Imperialism is not the sole issue—it is a question of men and of entrusting power to a party."

"Saying that imperialism is the issue does not make it so."

"Mr. Bryan's election would be unfortunate in every respect."

"Colonial acquisition has not been established as a principle, it has happened as a fact that can be retrieved."

"Peace in the Philippines can be restored immediately."

"I am averse to the nomination of another republican ticket, as that would, in effect, be helping Mr. Bryan."

### The Tragedy At Peking.

If Americans had been cooped up in Havana, surrounded by a howling mob, aided and abetted by Spanish troops, and no word could have been received from them, the situation would have been much the same as that in Peking, with the difference that all of the great powers are interested in the situation in China. Americans, British, Germans, French, Austrians, Russians, Belgians, Italians, Japanese, Dutch, Swedes and possibly Spaniards are numbered among the diplomats, missionaries, engineers, traders and soldiers from whom there is no word.

The situation of these people—some 700 to 800 souls—hoping against hope for succor, penned in by a cruel and murderous mob, is one of the most terrible chapters in modern history. To see the end approach, although the whole world is interested in their rescue; to wait in vain for the succoring column of the most powerful nations on the globe; to die with thoughts of the awful mystery of why the combined forces of Christendom have delayed—what could be more tragical?

Could the powers have known—could the United States have realized—surely there would have been 100,000 soldiers on the way to Peking by this time. Surely the United States would have gathered all its forces, from far and near, and pressed every ship into service, to go to the rescue. The thrill in the hearts of the besieged people in Peking, as they saw the Stars and Stripes in the distance and heard the American bugle and saw the long blue lines of United States troops sweeping all before them, would have been worth every cent of every million of the cost.—Kansas City Star.

One day last week lightning struck a shock of wheat on a farm near Lexington and ignited it. The flames from the shock set fire to the stubble and before extinguished one hundred shocks of wheat were consumed.

### AN IDEAL CLIMATE.

The first white man to set foot on Utah soil, Father Silvestre Valez de Escalante, who reached the GREAT SALT LAKE on the 23rd day of September, 1776, wrote in his diary, "Here the climate is so delicious, the air so balmy, that it is a pleasure to breathe by day and by night." The climate of Utah is one of the richest endowments of nature. On the shores of the Great Salt Lake especially—and for fifty miles therefrom in every direction—the climate of climates is found. To enable persons to participate in these scenic and climatic attractions, and to reach the famous HEALTH, BATHING, AND PLEASURE RESORTS of Utah, the UNION PACIFIC has made a rate to OGDEN and SALT LAKE CITY of one fare for the round trip plus \$2 from Missouri river, to be in effect June 21, July 7 to 12 inclusive, July 18, and Aug. 2; return limit Oct. 31, 1900. For full information, call on or address JAS. B. SCANLAN, Agent.
