A FULL LINE OF
John W. Masury's
Celebrated Paint
ON SALE AT.....

Davis' Hardware Store.

When you get ready to paint your house,
call on us and let us sell you first-class
Paint at reasonable prices.

All Wines

get older and better at the same time. Louis XV's highest praise for any fruit of the grape was to call it drinkable. Speaking in like parlance, we can say that our stock includes the most delightfully drinkable productions of the European and American vineyards. For the table and for invalids we show everything on the preferred list.

HENRY WALTERMATH.

THE QUESTION is often asked, What Paint shall we use?
THE ANSWER: If you are looking for covering capacity, wearing qualities, general appearance, and your money's worth, you must buy

THE SHERWIN-WILLIAMS PAINT.
Durable, Most, Looks Best, Wears Longest, Most Economical, Full Measure.

Our prices are for "best goods" first, last and all the time. We are in the business to stand and S. W. P. stays with us.

BETWEEN THE RIVERS.

S. J. Koch is loading baled hay at Spuds at this writing. Louis Toillon has returned from a business and pleasure trip to Fremont.

A number of fine fish have been caught in the south river in this locality lately.

H. B. Hungerford and family are now demicled in the Johnson residence in Hershey.

Mr. and Mrs. D. A. Brown of the county seat are visiting relatives and friends in the valley.

W. J. Shinkle moved his hay camp from Nichols up about two miles west of Hershey week.

Seeberger & Co. we understand have lately purchased the hay on the Feeken land near Nichols.

The Ware boys have added a new swing stacker and self-feeder to their threshing machine this season.

Ralph Wiseman of the county seat was up this way Tuesday repairing the old canal company's and the North Platte telephone lines.

Charles McAllister recently sold 100 tons of alfalfa hay of the second crop which will be baled and shipped to Overton later in the season.

The populists in this locality are not discussing to any great length the platform that was manufactured at the recent Kansas City convention.

G. L. Mudd on the Paxton ranch has purchased the Xavier Toillon threshing machine complete with which he will do his own threshing this season.

John Adrian, wife and children who had been visiting Mrs. A's brother and wife and Mr. and Mrs. L. E. Jones, departed for their home in Illinois Wednesday.

C. W. Brinstad, of Omaha, secretary and general missionary of the Nebraska Baptist state convention, preached in the church at Hershey last Sunday evening.

D. M. Leyoldt, Del Brownfield, Frank Carpenter and Mr. and Mrs. W. R. Everly of Hershey were at North Platte Tuesday as witnesses in the case of the State vs. Stone.

H. Newberry of McPherson county was down to his farm in the valley this week and took a load of cats as far as North Platte on his return where he sold them for 36 cents per bushel.

Jim McMichael, of North Platte, was up to Hershey the fore part of the week where we understand he put in a bid on the new school building soon to be erected at that place. He was accompanied by T. M. Cobagen.

DICKENS DOINGS.

Mr. Hodges of Ogalalla arrived a few days ago and is visiting with his brother. Mr. Hodges will take a homestead south of town and start a cattle ranch.

Miss Naomi Dowell has been selected as principal of the Dickens school the coming winter. Miss Dowell has resided near Dickens for several years and is well known by every body. She will undoubtedly make a good teacher, having taught school for several years.

The school board has decided to put a brick foundation under the school house which needs a good foundation. The brick have arrived and they will proceed in a few days to lay the foundation and fix the school house up in good shape. A town like Dickens should by all means have a good school house.

Crops in this community have made wonderful progress the last week, corn especially. The hoppers are not so bad as they were a week ago. The watermelons are doing fine, they are not very large, the average being about like quart cups; every farmer in this vicinity has in from ten to thirty acres of watermelons. If they do well, "we'll have watermelons to throw at the birds."

MYRTLE NEWS.

Arthur Mills of North Platte, was in our midst Saturday.

Frank Keslar was transacting business in North Platte Monday.

A little boy came to gladden the home of Mr. and Mrs. J. E. Fuller on the 7th.

Mr. Shaffer and daughter, from the state of Washington, are visiting at the home of H. Phillips.

Will Daly and family of Tryon spent several days the first of the week calling on old acquaintances. Mrs. Blanche Wright spent Wednesday afternoon at the Sunshine office unpacking a box of reading matter and scrap pictures and getting them ready for distribution.

A special meeting was held in school district No. 54 Saturday afternoon to determine whether the location of the school house should be changed. The probabilities are it will be moved farther east.

The following new names have been enrolled for 1900 in the I. S. S.: Miss Lena Parkhurst, Effie New-

berry, Katie Newberry, Chas. Daly, Geo. Dolph, Ella Parkhurst. Mrs. Geo. A. Dolph of Tryon, Nebraska, would be glad to exchange calico pieces for a few silk scraps. Mrs. F. Hogeboom has scattered sunshine by passing on magazines to a family in McPherson county. Mrs. Blanche Wright has also passed on reading matter.

Those who attended the Sunday school convention, held at the Red Brick school house Sunday were: Mr. and Mrs. C. A. Moore, John McNicol, Will Reid, and the Misses Reid, and Mr. and Mrs. A. E. Moore.

That Fusion Electoral Ticket.

In the division of nominations agreed to between the three fusion state conventions at Lincoln a week ago the places on the electoral ticket were apportioned so that the populists should name four, the democrats three and the silver republicans one. The populist wing of the three-ringed circus had in its platform declared fealty to Bryan and Towne as its presidential ticket, while the other two side shows had accepted Bryan and Stevenson as the choice imposed upon them by the Kansas City convention. The false impression is therefore sought to be conveyed that should fusion again carry Nebraska the electoral vote would be cast solid for Bryan for president, but divided four and four on vice president between Stevenson and Towne, as it was in 1896 between Sewell and Watson.

That this not the real intention, whether both tails to the ticket stay in the field or not, is, however, privately admitted by all the leaders of the fusion machine. There is just as much certainty that the votes of every man on the electoral ticket will go to both Bryan and Stevenson if Nebraska is again in the fusion column as that they will go for McKinley and Roosevelt if it is carried by the republicans. The four populist electors bearing the label for Towne are simply decoys to help catch populist suckers who would not permit themselves to be landed by the direct route in the democratic camp. These populist electors at best will carry the populist banner up to the day of election and then if given credentials will promptly throw it aside to march along with the democratic procession.

The question is, will any intelligent voter in Nebraska submit to such a piece of brazen imposture? Can a political combine whose leader boasts so freely of open-dealing with the plain people hope to fool the people by resorting to such professional trickery? If it pays to be honest with the public in politics as in business, is not such dishonesty bound to react on those who expected to be its beneficiaries? If the fusion electoral ticket is pledged to the democratic candidates why persist in the farce of putting different signboards on the various members and pretending that only half of them are democrats and the other half populists?—Bee.

On the new locomotives of the Denver & Rio Grande railway nozzles have been placed on the roofs of the cabs pointing at the rear of the tender and the platform of the front end of the baggage car. These connect to the hot water of the boiler through a cock convenient to the engine driver or fireman, who can instantly send a jet of mixed steam and boiling water, at 200 pounds pressure that would effectually kill anybody happening to be in its range. The jet is for protection against train robbers.

Chas. Hupper, who has been living near St. Louis for a number of years, arrived in town Wednesday night and will visit his parents for a couple of days.

Notice to Hunters.

Any violators of the game laws in the vicinity of Hershey will be prosecuted. Farmers will please notify the undersigned of any one shooting prairie chickens or quail during the closed season.

THE HERSHEY GUN CLUB.

AN IDEAL CLIMATE

The first white man to set foot on Utah soil, Father Silvestre Valez de Escalante, who reached the GREAT SALT LAKE on the 23rd day of September, 1776, wrote in his diary, "Here the climate is so delicious, the air so balmy, that it is a pleasure to breathe by day and by night." The climate of Utah is one of the richest endowments of nature. On the shores of the Great Salt Lake especially—and for fifty miles therefrom in every direction—the climate of climates is found. To enable persons to participate in these scenic and climatic attractions, and to reach the famous HEALTH, BATHING, AND PLEASURE RESORTS of Utah, the UNION PACIFIC has made a rate to OGDEN and SALT LAKE CITY of one fare for the round trip plus \$2 from Missouri river, to be in effect June 21, July 7 to 12 inclusive, July 18, and Aug. 2; return limit Oct. 31, 1900. For full information, call on or address JAS. B. SCANLAN, Agent.

It is Hot Weather

There is no question about that but the question before North Platte people is "WHAT SHALL WE EAT THIS HOT WEATHER?"

HARRINGTON & TOBIN

Are in the lead as usual and have
