### NEIGHBORHOOD NEWS.

Frank P. Morgan, for a number of years editor of the Chappell Register, left that town last week for the east to look up a location.

About three thousand acres of land in the abandoned Sidney military reservation will be sold at public auction on September 5th.

The Bridgeport Blade, published by Cary & Lowley, has reached this office. It is a neat, newsy paper and deserves to succeed.

A young son of N. C. McClain, of Ogalalla, was thrown from a hay wagon and one wheel passed over his head, almost tearing off an ear and otherwise lacerating his face.

The Gothenburg creamery used 2,198 pounds of butter fat last month, and also purchased 8,000 pounds of butter of the Gothenburg merchants. The butter was worked over and sold at an advanced price by the creamery company.

Walter Couse, living near Gothenburg, threshed two acres of irrigated wheat which produced seventy bushels; and from forty-eight acres of wheat on land not irrigated he threshed the same number of bushels. This is pretty conclusive evidence that it pays to irrigate.

One of the graders on the Fourth district of the Union Pacific met with a peculiar death last week. He had been moving dirt up on the track embankment with a grader, had leveled the dirt for the passage of train No. 4, and stepped down in the ditch. As the engine came along the pilot struck a stone along the rail and threw it with great force against the grader's head, killing him almost instantly.

Contractor Griffith, who has just finished a large contract south of Sidney, in an interview with a reporter of the Telegraph, says: "I have been in the railroad business for twenty years and know that I have been busiest under a republican administration. During two years of McKinley's term I employed more men, did more work and made more money than during the whole eight years of Grover Cleveland."

Keepers of hotels and restaurants about the exposition grounds in Paris are complaining that the crowds are so much smaller than had been expected that they must be ruined if they continue to pay their concessions. Expositions are not so novel as they were once and besides why should people go abroad for excitement when they can stay at home and read about China?

G. L. Mudd of the Paxton ranch unloaded a couple of cars of lumber at Hershey last week with which he will raise the barn on the ranch six feet and erect other out buildings on the place.

The prospects at the present time are not very flattering for an alfalfa seed crop in the valley this season as the grasshoppers are taking the blossoms in most fields as fast as they come out.

A passing train set fire to Seeberger & Co's. hog sheds at Hershey Saturday night and only for timely assistance the whole affair on the north side of the track would have gone up in smoke.

with the intention of making it their future abiding place but were sadly disappointed in the surroundings in many ways and decided to return and make their home in this section.

There are now on the way to China from San Francisco four batteries of field artillery, besides 1,000 men of the Fifteenth infantry, the Third cavalry and the corps of engineers. With these reinforcements General Chaffee will have about 3,600 foot, 1,200 horse, a company of engineers and twenty guns—an ideal force. But there are still to go the rest of the Fifteenth Infantry, a battalion of the Third cavalry, the Ninth cavalry and one battalion of marines. Then, after these have gone, there are still four infantry regiments under orders to be in readiness to proceed to China. In six weeks the United States can have 15,000 men on the scene.

A majority of the democrats of the country are still wandering what in thunder Adlai Stevenson was put on the ticket for.
