Mr. Whitell, representing Geo. Wilkes & Co. of Denver, a corporation which owns a number of electric light plants in Colorado, is in town with a view of submitting a proposition to the council to put in a plant in this city. As the city council is not favorable to granting a franchise to a corporation, it is not likely any proposition will be seriously considered.

Elmer Baker says that the grasshoppers are doing a great amount of damage to the corn crop at the Pawnee ranch. He says that the present indications are that the yield will not exceed ten bushels per acre, whereas had it not been for the grasshoppers it would have been from three to five times that amount. As there are several hundred acres in corn, the loss will be quite heavy.

The Cody Dancing Party.

The dancing party given Friday evening by Miss Irma Cody in favor of her guests, was a pronounced success, over one hundred young society people enjoying the hospitality of the popular young hostess.

The grounds were profusely illuminated and decorated with Chinese lanterns, and hammocks were swung in profusion. On the east lawn a dancing pavillion was erected, where the lovers of Terpsichorean activity enjoyed themselves for a couple of hours to music rendered by a mandolin and guitar orchestra. For those who did not dance other amusements were provided.

During the evening punch was served by Ione Neir, Helen Hershey, Laura Letts, Mamie Edmonds, Flo Stamp and Herald Hershey, each of whom were appropriately costumed. Later other seasonable refreshments were served.

Miss Cody's party proved a most pleasant one, and the guests seem to be a unit in giving expression to the good time they had.

Fire at Sutherland.

The store building at Sutherland owned by C. W. Burkland and occupied by Owens & Lyon with a stock of general merchandise valued at about four thousand dollars, was destroyed by fire last Saturday morning at five o'clock.

The origin of the fire is unknown. A lot of refuse matter was burned in front of the store in the evening before and possibly the wind tanned the embers and blew sparks on the building or the fire may have originated from sparks thrown from a passing locomotive. When first discovered the flames were well under headway, and the efforts of the villagers were directed toward saving the surrounding buildings, which were successful.

Owens & Lyon, who purchased the stock about sixty days ago, carried an insurance of two thousand dollars. Mr. Burkland carried no insurance on the building.

A. W. Kirby, purchasing agent for the Westinghouse air brake company, was the guest of his nephew W. R. Soper last Saturday.
