LEGISLATIVE CANDIDATES.

The republican conventions at Sidney last Tuesday nominated two strong and excellent men for the legislature, and their election is sure to follow. Senator E. D. Owens, who was renominated, made a clean record and proved a hard worker in the senate two years ago, and with the advantage of the experience of that term, he will be in a position to do even more effective work in the coming session. Mr. Owens' push and intelligence, together with the spirit of fairness which he at all times exercised, made him a favorite in the senate and he was one of the recognized leaders of that body. He goes before the voters with a good record and will undoubtedly receive a larger majority than he did two years ago.

John E. Evans, of this city, who received the nomination for representative, did not seek the honor, it came to him unsolicited, and was bestowed upon him by reason of his fitness and popularity. Mr. Evans has been a resident of Lincoln county for a quarter of a century and has ever proven a progressive and enterprising citizen. In the politics of western Nebraska he has always been an important factor, his stalwartism and steadfast adherence to republican principles being at all times worthy of emulation, and in local politics he has always proven to be a sound advisor. He has filled several positions with much credit. In the early 80's he was elected county clerk, and discharged those duties faithfully. He occupied the position of deputy under Secretary of State Piper and proved a valuable man in the position. Last year he was selected as state commander of the Grand Army and as such won many good words by the earnest work he performed. Mr. Evans has a state wide acquaintance and this of itself will prove a great advantage to him in his duties as a legislator, and the influence which this acquaintance will bring will add to the effectiveness of the work which he can do for his particular district. We feel confident that the republicans of the district will heartily support Mr. Evans, and that he will receive many votes from populists and democrats. The legislative ticket is all right; let all republicans work for its success.

DEMOCRATS are entitled to all the comfort they can get out of the result of the Maine election. The republican majority in that state does not show as much of a slump as did the democratic majority in Arkansas two weeks ago.

GENERAL CHAFFEE has orders to remove the troops from China as soon as they are no longer needed for the protection of American residents from rapine and slaughter. This is a strong way for the government to express itself against the dismemberment of China.

THE fusionists are growing desperate early in the campaign over the strength of Dietrich and the weakness of Poynter and are resorting to all kinds of vile insinuations against the character of the republican nominee. But do what they may, Poynter can not be saved, his defeat is certain and it will be well deserved.

AFTER a season of painstaking figuring Collier's Weekly comes to the conclusion that Bryan cannot be elected by any combination of states that can be induced to vote for him. Conceding to him everything that is reasonably doubtful, enough remain in the republican column to settle the election. This view, which is held so generally over the country, is vigorously combated by the republican national committee, for the purpose, of course, of doing away with the apathy that has thus far prevailed in the campaign. The committee wants to get out the votes of all the men who prefer a continuation of present conditions to the uncertainties of a change, and allow reports of a disquieting character to leak out of Chicago two or three times a week. The committee does not want the republicans of the nation to go to sleep.—Lincoln Journal.

Always on the Wrong Side.

Omaha Bee. In his speech at Youngstown, Ohio, on Friday, Senator Foraker said that the democratic party has been on the wrong side of every great question for more than fifty years. "Slavery was abolished, the union was preserved, the constitution was amended, our finances were re-established, specie payments were resumed, our credit was restored and prosperity was made universal by the republican party," said the Ohio senator, "not only without the help of the democratic party but in spite of its bitter and determined opposition." This is unquestionable. The statesmanship that has made this nation great in material power and in moral influence has been republican statesmanship and every achievement for national progress has been won against the most determined democratic opposition.

This is familiar to every intelligent student of our political history for the last half a century. There has not been a great question during that period, affecting the well-being of the government and people, as to which the democrats have not been on the wrong side. In 1864, in the midst of the civil war, that party declared that the effort to put down the rebellion was a failure. After the war it opposed every proposition for the reconstruction of the union. It denounced as unconstitutional the issue of paper currency by the government to carry on the war and later opposed the legislation that made this currency as good as gold. The policy of protection, under which the United States has attained industrial pre-eminence and American labor has reached a higher standard than that of any other country, has been always fought and is still opposed by the democratic party.

During all this period it has been the party of obstruction and reaction and it is as distinctly so now as at any previous time. It is not less unsound now in regard to the currency than it was thirty years ago; it is equally hostile to protection; it puts

itself in the path of national progress and with even greater boldness and recklessness than ever before it makes war on established institutions, even threatening to take from the highest judicial tribunal its independence and subject it to the party will. In all these years the democratic party has taken no position which was justified by events; has made no prophecy that was fulfilled.

This is notably true of the last eight years. That party came into power in 1892, when the country was prosperous. It gave us a tariff law that brought with it industrial stagnation and business depression. In 1896 it assailed the gold standard, demanded the free coinage of silver and prophesied immeasurable disaster if that demand was rejected. The people would not be again fooled and events have shown how false was the democratic position and prophecies. A party that has been uniformly wrong upon every great question has no claim upon the popular confidence. In view of past events what faith can be placed in the judgment of the democratic party regarding present questions? Where is the wisdom or the statesmanship in the democracy at this time which gives it a superior claim to the support of the American people?

THE COUNTY OF LINCOLN, A Corporation. By H. S. Ridgley, its Attorney.

THE COMMISSIONER OF PUBLIC Lands and Buildings will offer about 7,500 acres of school land for lease at public auction at North Platte at the County Treasurer's office, beginning at 9 a. m. September 28, 1900, under the following provisions of the new school law:

"If, after using due diligence to lease said land, at an annual rental of six per cent upon the appraised valuation, the Commissioner is unable to do so, he may offer the same for lease at less than the appraised valuation and lease it to the person or persons who will pay six per cent on the highest offered valuation, as annual rental. If in his judgment, it is to the best interest of the state to accept such bid."

Persons desiring to examine the lands to be leased may secure lists of the same, showing the present appraised valuation thereof, as well as any other information, upon application to the County Treasurer, or by addressing the Commissioner, at Lincoln. At the beginning of the auction, the Commissioner will gladly answer all inquiries in regard to the school land business or the workings of the new law.

Skin Diseases

When the excretory organs fail to carry off the waste material from the system, there is an abnormal accumulation of effete matter which poisons and clogs the blood, and it becomes sour and acid. This poison is carried through the general circulation to all parts of the body, and upon reaching the skin surface there is a redness and eruption, and by certain peculiarities we recognize Eczema, Tetter, Acne, Salt Rheum, Psoriasis, Erysipelas and many other skin troubles, more or less severe. While the skin is the seat of irritation, the real disease is in the blood. Medicated lotions and powders may allay the itching and burning, but never cure, no matter how long and faithfully continued, and the condition is often aggravated and skin permanently injured by their use.

The disease is more than skin deep; the entire circulation is poisoned.

The many preparations of arsenic, mercury, potash, etc., not only do not cure skin diseases, but soon ruin the digestion and break down the constitution.

S. S. S., nature's own remedy, made of roots, herbs and barks, of great purifying and tonic properties, quickly and effectually cures blood and skin troubles, because it goes direct to the root of the disease and stimulates and restores normal, healthy action to the different organs, cleanses and enriches the blood, and thus relieves the system of all poisonous secretions. S. S. S. cures permanently because it leaves none of the original poison to referment in the blood and cause a fresh attack.

Healthy blood is necessary to preserve that clear, smooth skin and beautiful complexion so much desired by all. S. S. S. can be relied upon with certainty to keep the blood in perfect order. It has been curing blood and skin diseases for half a century; no other medicine can show such a record.

S. S. S. contains no poisonous minerals—is purely vegetable and harmless. Our medical department is in charge of physicians of large experience in treating blood and skin diseases, who will take pleasure in aiding by their advice and direction all who desire it. Write fully and freely about your case; your letters are held in strict confidence. We make no charge whatever for this service. Our book on Blood and Skin Diseases will be sent free upon application.
