In view of the many reports which have been circulated in the country tributary to the city in which the small-pox condition in North Platte has been so greatly exaggerated, we desire to state that at present there are but four cases of small-pox; that these cases are of a mild form, and that the victims have been transferred to the fair grounds, which are nearly a mile from the center of town. Every precaution to prevent any possible spread of the disease is being taken.

Explicitness in Language.

Explicitness in business matters is of the utmost importance, as was shown the other day by a New York mercantile house of high reputation, which closed its doors for a day out of respect to the memory of a deceased partner. The fact was telegraphed to another city, which interpreted "closed its doors" as meaning that it had failed. From this beginning the whole country was soon flooded with a report of a great mercantile disaster. Before the report could be denied it had served completely to demoralize the cotton market and had depressed the stock market.

Away Up

in the estimation of the experienced housewife will be found our latest acquisition in velvet blankets and warmth engendering "comfortables" and quilts. Makes me warm just to look at them—no talk of "cold feet" when you get under them. The only thing low in temperature about them is the price.

City Schools Closed.

The Board of Education held a meeting last night and ordered the city schools closed until Monday, November 19th. This action was taken by reason of the four cases of small-pox which developed Sunday, and the action was more or less influenced by a number of citizens who suggested that the Board take such action.

While it is not likely the disease will spread or become epidemic, this precautionary measure is in our opinion a wise one.

Railroad Notes.

Under the new time-card Andy Walsh goes on a passenger run between North Platte and Cheyenne.

Work was commenced on the new Union Pacific ice house, which will have a capacity of nearly six thousand tons.

Two crews were pulled off the Third district Sunday, the conductors affected being Charley Breternitz and A. C. Howard.

Mike McLaughlin, who has been stationed at Cheyenne for several months, is in town today enroute to Columbus, where he will take charge of the coal shutes.

Considerable company coal is now being stored at this point, the traffic on the road having dropped to such an extent as to permit the hauling of coal for the road.

Several shopmen who had been boarding at the houses in which the small-pox patients resided when the disease first developed, were not allowed to go to work in the shops yesterday.

Supt. Soper, who has had charge of the fruit express line at this station, left Saturday for Chicago, and from there will go to Kansas City, where he will be stationed during the winter.

There is a railroad rumor in the air now to the effect that the Burlington will build a road from Kearney west to Bridgeport, the junction of some of their branches. The new line will most probably follow the Platte valley west to North Platte and thence up the valley of the North Platte river. Whether it will touch at Gothenburg remains to be seen.—Gothenburg Independent.

A new time-card became effective on the Union Pacific this morning. The only change of time at this station are in trains No. 102 and No. 6, the former leaving here at 7:50 a. m., and the latter at 8:50.

Heretofore train No. 102 has only run from North Platte to Omaha, but under the new card it will run from Ogden to Omaha. Train No. 5, which has been purely a Denver train that switched off the main line at Julesburg will hereafter run through. As a result of the changes in No. 102 and No. 5, an additional passenger crew will be put on between North Platte and Cheyenne.
