NEIGHBORHOOD NEWS.

Over 500,000 lambs are in the feeding pens about Greeley, Ft. Collins and Ft. Morgan. The profit will be about one dollar a head. Think of it. The cleaning up of half a million dollars from the winter's feeding.

The Blade is not the repository of the secrets of the B. & M. road but it predicts that within two months dirt will be flying on the extension west, and that within a year the gap between Bridgeport and Kearney will be built.—Bridgeport Blade.

The last issue of the Bridgeport Blade says: Surveyors on the new line from Kearney to Bridgeport are about fifty miles below town working west. The road is liable to be constructed sooner than the Blade prophesied.

Mr. Carother, representing the Allen-Davis Cattle Company of Omaha, has been purchasing calves in this vicinity this week. He expects to buy 550 head, and will ship them to Petersburg, Boone county, to feed during the winter.—Ogallala Argus.

Workmen are now engaged in digging trenches for the U. P. water tank east, in which a ten inch cast iron pipe will convey water from the tank several hundred feet east in order that locomotives may take water while baggage, express matter and passengers are being placed on or removed from trains.—Lexington Pioneer.

The seal of Callaway, Loup Valley & Northern railway was exhibited at this place yesterday. It is reported that work on the new road will begin in about twenty days, and that it will be built on the old grade from Pleasanton to Callaway. We are informed that a force of men are now in Grand Island awaiting orders to begin work.—Callaway Courier.

A sheriff came up from Kansas to Callaway last week to arrest a young man. When he got to Callaway the young man was a down with typhoid fever and the sheriff was going to drag him from his bed and take him back. In fact he did pull him out of bed and began to cuss him, when the doctor had pronounced him in a critical condition. The sheriff barely escaped being lynched by the people of Callaway.

Ed Smith of Camp Clarke, came up to Alliance Tuesday for the purpose of depositing in the bank \$500 he had won on bets made with the gang that Jimmy McIntosh would not be elected county attorney for Cheyenne county. The moral manhood of Cheyenne county only needed the leadership of men of mental and physical courage to show the old gang how weak they really were. Smith Bros. seem to have filled the bill just about right.—Grip.

Sheriff Hays has confined in jail at Lexington two men, one being arrested at Omaha the other at Marysville, Mo., believed to have been connected with the robbery of the postoffice and jewelry store at this place. They are held awaiting identification by parties who saw them the day after the robbery making across the country from Brady toward Cambridge or in that direction. There is seemingly good grounds for believing that at least one of them was connected with the burglary.—Cozad Tribune.

The Lexington Pioneer is informed that about one thousand cattle have died in the last month in Custer county and that the state veterinary has been called there. He is credited with saying that animals only die which have been turned into stalk fields in the hail belt. That where hail stones bruise the stalk a fungus growth follows, and it is this fungus that causes the death of the animal that eats it. The Pioneer further says that in the vicinity of Lexington the loss will probably foot up two hundred, including horses and cattle, and other parts of Dawson county suffering equally as bad.

In speaking of the coming senatorial struggle, the Ogallala Argus says: If we could spare him from the judicial bench in this district, we would suggest Judge H. M. Grimes, of North Platte, as a man upon whom all republicans could unite, and who would be an honor to the state in the Nation's councils.

BETWEEN THE RIVERS.

M. McKellips and family have departed for their new home in Adams county. His partner J. L. Strickler and family, are still at Hershey.

A few from the vicinity of Hershey attended an entertainment at Sutherland last Friday evening given by the Royal Neighbors of that place. All returned speaking in glowing terms of the affair.

G. W. Brown is siding up the north side of his store building at Hershey.

L. A. Rengler has returned from Overton.

I. V. Bostwick is done shipping baled hay for this season. He has shipped several car loads.

Chris Pearson's new residence is completed. It is among the finest farm residences in the valley.

E. C. Von Ohlen has finished shipping alfalfa hay from Hershey to Overton for this year.

The revival meetings that have been going at Hershey for some time, closed last Thursday evening. Rev. Wimberly of North Platte, preached the closing sermon.

D. M. Leypoldt of Hershey accompanied a car load of hogs to Cheyenne the last of last week.

O. H. Eyerly has about forty April pigs that will at this time average close to 200 pounds each.

There was a new conductor on the milk route leading to the Nichols creamery from the northeast the last of last week, the former one being on the sick list at that time.

Mrs. Emma Ross of Winterset, Iowa, is at this time visiting her sister Mrs. Trent, who resides with her daughter Mrs. O. H. Eyerly in the valley. She arrived Friday last.

E. C. Hitch of Hastings supreme deputy of the Loyal Mystic Legion was looking after the welfare of the local order at Hershey last week.

W. J. Shinkle and crew will begin baling hay again on the old canal company's land as soon as the sloughs freeze up so they can be crossed with loads.

R. W. Calhoun returned a few days ago from McPherson county with a small herd of cows and calves which he will winter in the valley.

E. McCord held a turkey raffle at Hershey last Saturday night where several parties procured turkeys for their Thanksgiving dinner.

Logan Loker and wife returned to Holdrege where they will remain the coming winter.

A. A. Leister, the Hershey blacksmith, has been off duty for nearly two weeks caused by falling over a wheelbarrow that a neighbor had just returned home and had left in the pathway leading to his residence from the street, and the night being dark he was unable to see it. He was badly bruised about the chest.

Several head of cattle have died lately in this locality from eating dry corn stalks that did not contain moisture enough to digest them. Geo. Refior, C. A. Loker and J. M. Dwyer are among the heavy losers.

Mrs. D. B. White was the victim of a surprise party on Wednesday evening of last week when about thirty of her young friends called upon her at her home and informed her that they had come there for the purpose of assisting her in celebrating her birth anniversary. The evening was pleasantly spent in various ways. Oysters were served as refreshments after which all returned to their homes feeling that it was good to have been there.

John B. O'Neal of Odessa, Buffalo county, claims to have realized six hundred dollars from the alfalfa seed grown on twelve acres, besides two cuttings of hay.

BRADY NEWS.

From the Review.

In the Fickenger law suit against the railroad company for damages resulting from the prairie fire on April 16, 1899, which was tried at Lexington this week, the jury awarded them \$1,750 damages.

While absent from his ranch, at the head of Pawnee creek, Mart Holcomb's frame house in which he "batched", was entirely destroyed by fire, burning up some of his clothes and a number of valuable papers. Mr. Holcomb has no idea how the fire started, as everything appeared in good shape when they left.

Gus Miller who works for R. C. Burke on his ranch west of town was thrown from a horse Thursday and knocked unconscious. He remained in that condition for about twenty minutes and when he came to found himself lying on the ground with a large gash cut in his head from just above his left ear to the back of his neck and cut clear to the skull and so deep that the scalp could be raised from his head. He got down to Brady in the afternoon and Dr. Ward was called. The doctor was compelled to take seven stitches to sew the wound together. At this writing he is resting easy.

Every woman loves to think of the time when a soft little body, all her own, will nestle in her bosom, fully satisfying the yearning which lies in the heart of every good woman. But yet there is a black cloud hovering about the pretty picture in her mind which fills her with terror. The dread of childbirth takes away much of the joy of motherhood. And yet it need not be so. For sometime there has been upon the market, well-known and recommended by physicians, a liniment called

Mother's Friend

which makes childbirth as simple and easy as nature intended it. It is a strengthening, penetrating liniment, which the skin readily absorbs. It gives the muscles elasticity and vigor, prevents sore breasts, morning sickness and the loss of the girlish figure.

An intelligent mother in Butler, Pa., says: "Were I to need Mother's Friend again, I would obtain 9 bottles if I had to pay \$5 per bottle for it."

Get Mother's Friend at the drug store. \$1 per bottle.

Fred Youngbird, accompanied by his sister and Ida Norlander boarded No. 102 Thursday morning and went to Lexington where he and Miss Norlander were united in matrimony. They returned on No. 101 the same afternoon and went to their home on the south side where a reception was given them the same evening. The Review extends congratulations.

While our neighboring town in Cheyenne county, Sidney, is felicitating herself on the prospect of a boomlet in the spring time, the following Chicago special appearing in yesterday's Omaha Bee will prove pleasant reading to the citizens of that hamlet: "The Chicago, Rock Island & Pacific railroad, besides building its Oklahoma and Texas branches the coming spring, has decided on building a road from Colby, Kan., to the Wyoming coal fields. The road will leave the main line at Colby, crossing the Burlington railroad at St. Francis, Kan., and Holyoke, Col., and the Union Pacific at Crook, Col., and Sidney, Neb. The contemplated route from Sidney will be via Freeport and Gering on the North Platte river, thence along the fertile valley of Mitchell to Fort Laramie, ultimately reaching the coal, oil and iron fields of Wyoming. Well-posted authorities assert this will be the coming transcontinental line to the Pacific coast."

A locomotive by the name of "Dorothy" passed through the city Monday on a flat car for Omaha for repairs. The locomotive is small and has been used on the narrow gauge line to Pike's Peak.
