Epidemie Well in Hand.

BEATRICE, Neb., Dec. 10.-The

board of health a few weeks ago, when

it was feared that diphtheria was be-

coming epidemic, took active measures to prevent it, in waich they have suc-ceeded, and Chief of Police Moore in-formed a correspondent that all cards

had now been taken from the houses

in the infected district. He said that

the present was the first time in sev

eral months when there was not one or more cases in the city of either

diphtheria or scarlet fever.

the Watkins cattle stealing case reported to the court that they could not agree and were accordingly dis-charged. They are reported to have stood eight for conviction and four for acquittal. The next regular term of court will be in February, and the case will be tried again at that time. Court has adjourned until December 26, when it will reconvene to try the case against John Bartling, accused of horse stealing.

More interest has centered in the Watkins case than any trial for years in the district court. A number of Lincoln and Alliance men have been here as witnesses or spectators, as well as cattlemen and cowboys from all over the western and northwestern parts of the state.

braska building and loan associations.

The appended summary, taken from the report, shows in tabular form the

remarkable growth of this class of

institutions. It takes the associations

from the first year that authencic re-

ports were made down to the present

year, which period includes 1892, re-

membered for its expanded credits and wild speculations, and embraces the

years 1893, 1894 and 1895, which were

marked by panic, drouth and destruc-

tion of values, and the years 1896 to 1900, inclusive, which have been years

of reaction and restoration of values.
