Albert Coolidge living three miles north of town, shipped forty-five head of two year old Shorthorn and Polled Durham steers to the South Omaha market, that brought him the round sum of \$40 per head. They were sold on Tuesday of this week and they topped the market for some time past. There is no reason why with the natural advantages and proper breeding topping the feeder market should not be a common thing for the stockmen of the vicinity of North Platte.

Railroad Notes.

Roadmen tell us that "compound colic" is abating, thanks to the prescriptions issued by "Doctor" McKeen.

Union Pacific officials Dickinson, Buckingham, McConnell and others came in from the west Wednesday evening and remained here some time consulting with the local officials.

Considerable ice shipped from Colton has been refused on account of its poor quality. In a number of cars only one-fourth would be up to the requirements. The rejected ice is unloaded at the stock yards, and from this pile sufficient good ice was taken to fill the Krug ice house.

George Vroman and S. C. Me-comber have been in Lincoln this week as representatives of the local labor organizations in their fight against D. E. Thompson's election as United States senator. These two gentlemen are well qualified to put up a very stiff fight.

Representative Mead has introduced a bill in the legislature to prohibit railroad companies from running trains with two or more locomotives or running engines without a pilot, confining the number of cars in a train to forty, or else provide an extra brakeman for every ten additional cars. We believe that a law along this line if constitutional, would be a good thing, but it strikes us that Mr. Mead's measure is too sweeping to receive the necessary number of votes for its passage, whereas a more moderate bill might pass.

Plans are being prepared for the building of new U. P. shops in Omaha, but as yet no appropriation to cover the cost of the buildings has been made. It is rumored, and has been for some time, that the Union Pacific will enlarge its Omaha shops to such an extent that nearly all the heavy work on

the engines will be done there and at Cheyenne, and that the force of men in the several division shops will be somewhat curtailed. This, however, is in contradiction to the proposed plan, said to be fully matured, to enlarge the shops at this point, an appropriation for which it is understood will be made this year.

Y. M. C. A. NOTES.

The mass meeting for men at 3:30 p. m. next Sunday will be in charge of Fireman J. A. Barnell. All men cordially invited.
