Councilman Lloyd favors sending a committee to Iowa to fully investigate the merits of the Mason City gasolene lighting system and suggests that the committee be composed of two members of the city council and two members of the Commercial Club. If the gasolene system is to be seriously considered, and it looks as though it would be, Mr. Lloyd's suggestion is a good one. The city should not buy a pig in a poke; it should fully investigate the system before entertaining any proposition looking toward municipal ownership.
