Ernest Wolter in the Tolls.

Ernest J. Wolter, a former well known North Platte man who went from here to Salt Lake City and later moved to Schuyler, Neb. where he has been conducting a store, was arrested last Thursday by a postoffice inspector on the charge of using the mail for black-mailing purposes. Wolter's would-be victim is Senator Thomas Kearns of Utah and the demand made was five thousand dollars or an exposure would follow. Wolter also, it is alleged, wrote a threatening letter to the senator's wife demanding twenty-five hundred dollars, and stated that if he did not get it he would kill the children.

Suicide Of Oregon Hero.

John R. Murphy a passenger on Union Pacific train No. 3, shot and killed himself with a 38 calibre Smith and Wesson revolver, Sunday morning about 3 o'clock in his sleeping berth in the tourist car near Chappel, Neb.

He fired two shots from the revolver, the first ball glancing and the second struck the frontal bone on the right side and passing into the brain. The bullet also destroyed his right eye. Valuable papers were found in his pockets besides cash amounting to \$199.01. His ticket was purchased in New York City via the West Shore railroad and his destination was San Francisco.

He had two discharges from American and British navies as a first-class machinist. They show he was on the battleship Oregon on its memorable trip around the world in 1898 and that he participated with great honor in the battle of Santiago and was discharged September, 1899. He then enlisted in the British navy with the same position and was recently discharged from the vessel Manouensi. He was born in Danville, Canada, and his brother lives at Williams, Ariz.

Coroner Basset has taken charge of the body, and a jury was impaneled who will wait until the arrival of the Pullman conductor and porter Tuesday.

Murphy acted peculiar on the train looking about him continually as though fearful of somebody. He was 35 years old and weighed about 165 pounds. His relatives have been communicated with.

BAD BLOOD, BAD COMPLEXION.

The skin is the seat of an almost endless variety of diseases. They are known by various names, but are all due to the same cause, acid and other poisons in the blood that irritate and interfere with the proper action of the skin.

To have a smooth, soft skin, free from all eruptions, the blood must be kept pure and healthy. The many preparations of arsenic and potash and the large number of face powders and lotions generally used in this class of diseases cover up for a short time, but cannot remove permanently the ugly blotches and the red, disfiguring pimples.

Eternal vigilance is the price of a beautiful complexion when such remedies are relied on.

Mr. H. T. Shobe, 2704 Lucas Avenue, St. Louis, Mo., says: "My daughter was afflicted for years with a disfiguring eruption on her face, which resisted all treatment. She was taken to two celebrated health springs, but received no benefit. Many medicines were prescribed, but without result, until we decided to try S. S. S., and by the time the first bottle was finished the eruption began to disappear. A dozen bottles cured her completely and left her skin perfectly smooth. She is now seventeen years old, and not a sign of the embarrassing disease has ever returned."

S. S. S. is a positive, unflinching cure for the worst forms of skin troubles. It is the greatest of all blood purifiers, and the only one guaranteed purely vegetable.

Bad blood makes bad complexions. SSS purifies and invigorates the old and makes new, rich blood that nourishes the body and keeps the skin active and healthy and in proper condition to perform its part towards carrying off the impurities from the body.

If you have Eczema, Tetter, Acne, Salt Rheum, Psoriasis, or your skin is rough and pimply, send for our book on Blood and Skin Diseases and write our physicians about your case. No charge whatever for this service.

A Nebraska City bank advertises deposits for a number of years back, which shows that money entrusted to it by depositors, which had fallen down to \$56,000 in December 1896, has now reached over \$200,000, increasing almost fourfold since the election of President McKinley. Another object lesson in Nebraska prosperity.—Bee

After the terrible storm which swept away Galveston last summer an appeal was made by the grand lodge I. O. O. F. of Texas for aid.

This was so liberally responded to by the lodges of the order that after expending for all legitimate demands of members caught in that disaster, over one-half the amount remained unexpended and the lodges of this state which contributed to the fund last week received sixty per cent of the amount they sent.

"Mrs. Laue wife of the murdered man and the chief witness against Dinsmore, will now be charged with the murder of Mrs. Dinsmore" said an attorney today throughly familiar with the state's side of the case. The theory of the prosecution, he says, was that Dinsmore shot Laue, and that Mrs. Laue poisoned Mrs. Dinsmore. Now that his fate is practically sealed the state will proceed with the prosecution of the woman. It is said that much of her own testimony against Dinsmore can and will be used against her.—Hub.

Awaiting Settlers

Thousands of FREE Grant Homesteads (160 acres) in the Hard Wheat Belt of Manitoba, Assiniboia, Alberta and Saskatchewan (Western Canada) are awaiting settlers. Experience shows that the lands of Western Canada are unequalled for Grain Growing, Mixed Farming and Dairying. Railroads exist and are projected wherever settlement extends. Schools and churches convenient. Taxes merely nominal. Climate the healthiest in the world. Crops always good. Wheat varying from 25 to 40 bushels to the acre. Oats 60 to 100 bushels, other grains in proportion.

CATTLE RAISING more profitable than elsewhere on the Continent. Marketing proceeds at highest prices is particularly easy. Low figures asked for land adjoining Free Homestead Lands. Write for pamphlets and copies of letters from settlers and delegates. Address F. Podley, Superintendent of Immigration, Ottawa, Canada, or to
